Factory Man Beth Macy, 2014-07-15 The instant New York Times bestseller about one man's battle to save hundreds of jobs by demonstrating the greatness of American business. The Bassett Furniture Company was once the world's biggest wood furniture manufacturer. Run by the same powerful Virginia family for generations, it was also the center of life in Bassett, Virginia. But beginning in the 1980s, the first waves of Asian competition hit, and ultimately Bassett was forced to send its production overseas. One man fought back: John Bassett III, a shrewd and determined third-generation factory man, now chairman of Vaughan-Bassett Furniture Co, which employs more than 700 Virginians and has sales of more than \$90 million. In *Factory Man*, Beth Macy brings to life Bassett's deeply personal furniture and family story, along with a host of characters from an industry that was as cutthroat as it was colorful. As she shows how he uses legal maneuvers, factory efficiencies, and sheer grit and cunning to save hundreds of jobs, she also reveals the truth about modern industry in America.

I Love Jesus, But I Want to Die Sarah J. Robinson, 2021-05-11 A compassionate, shame-free guide for your darkest days "A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized."—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn't cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to "choose joy" and "pray more." So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you're left wondering if God has abandoned you. You just want a way out. But there's hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay

alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn't look like what you expect.

Little Free Libraries & Tiny Sheds Philip Schmidt, Little Free Library, 2019-03-26 Expand the sharing movement to your community with Little Free Libraries and Tiny Sheds—your complete source for building tiny sharing structures, including plans for 12 different structures, step-by-step photography and instructions, inspirational examples, and maintenance. Around the world, a community movement is underway featuring quaint landscape structures mounted on posts in front yards and other green spaces. Some are built for personal use, as miniature sheds for gardeners or as decorative accent pieces. More commonly, though, they are evidence of the growing trend toward neighborhood organization and community outreach. This movement has been popularized by Wisconsin-based Little Free Library (LFL), whose members currently include 75,000 stewards seeking to build community togetherness and promote reading at the same time by sharing books among neighbors. LFL has inspired builders to use similar structures to share things like CDs, food, garden tools, and seeds in the community. Produced in cooperation with Little Free Library, *Little Free Libraries and Tiny Sheds* is the builder's complete source of inspiration and how-to knowledge. Illustrated throughout with colorful step-by-step photography and a gallery of tiny structures for further inspiration, *Little Free Libraries and Tiny Sheds* covers every step: planning and design, tools and building techniques, best materials, and 12 complete plans for structures of varying size and aesthetics. In addition, author and professional carpenter Phil Schmidt includes information on proper installation of small structures and common repairs and maintenance for down the road. *Little Free Libraries and Tiny Sheds* even includes information on how to become a steward, getting the word out about your little structure once it's up and running, and tips for building a lively collection. The Knowledge Illusion Steven Sloman, Philip Fernbach, 2017-03-14 "The Knowledge Illusion is filled with insights on how we should deal with our individual ignorance and collective wisdom." —Steven Pinker We all think we know more than we actually do. Humans have built hugely complex societies and technologies, but most of us don't even know how a pen or a toilet works. How have we achieved so much despite understanding so little? Cognitive scientists Steven Sloman and Philip Fernbach argue that we survive and thrive despite our mental shortcomings because we live in a rich community of knowledge. The key to our intelligence lies in the people and things around us. We're constantly drawing on information and expertise stored outside our heads: in our bodies, our environment, our possessions, and the community with which we interact—and usually we don't even realize we're doing it. The human mind is both brilliant and pathetic. We have mastered fire, created democratic institutions, stood on the moon, and sequenced our genome. And yet each of us is error prone, sometimes irrational, and often ignorant. The fundamentally communal nature of intelligence and knowledge explains why we often assume we know more than we really do, why political opinions and false beliefs are so hard to change, and why individual-oriented approaches to education and management frequently fail. But our collaborative minds also enable us to do amazing things. The Knowledge Illusion contends that true genius can be found in the ways we create intelligence using the community around us.

Level Up Stacey Abrams, Lara Hodgson, Heather Cabot, 2022-02-22 An inspiring and revelatory guide to starting and scaling a small business, from powerhouse duo Stacey Abrams and Lara Hodgson Like many business owners, renowned politician and activist Stacey Abrams didn't start a business because she dreamed of calling herself an entrepreneur. Her part-time post (and its \$17,310 annual salary) as a member of the Georgia House of Representatives necessitated striking out on her own as a consultant—her first small business. Then, Stacey and her friend Lara Hodgson launched an infrastructure advisory firm—named Insomnia Consulting because they did their best thinking at 3:00 a.m.—and then another business, and then another. Fifteen years into their entrepreneurial journey together, they have tackled the obstacles that many business owners face: how to grow sustainably, hire thoughtfully, and keep up with the Goliaths in your industry. Now, for the first time, Stacey and Lara share their inspiring and relatable personal story and lessons learned the hard way to show how every business owner can confront the forces that conspire to keep small businesses small. Lauded for her "resilient, visionary leadership" (Barack Obama) and celebrated as a "passionate advocate of democracy" (Madeleine Albright), Stacey now brings her fierce sense of justice to the challenges that America's business owners face. Level Up arms readers with the confidence, know-how, and savvy to overcome the obstacles that hold their businesses back.

Let's Pretend This Never Happened Jenny Lawson, 2013-03-05 The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. "Gaspingly funny and wonderfully inappropriate."—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising

discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. Wilderness of Mirrors Chase Barnes,2022-10-11 a photographic survey of an emergent cybernetic landscape Shot in a variety of locations- ranging from the political spectacle of Washington D.C. to the National Radio Quiet Zone in rural West Virginia- *Wilderness of Mirrors* visualizes contemporary mechanisms of control that employ technology, anxiety, and images as a means to destabilize and restructure belief. Through diverse modes of image-making, the sequence unveils discrete social and technological systems which are embedded into the fabric of everyday life and serve to reinforce and advance dominant structures of capital and power. The series presents these conditions as a veritable wilderness- a landscape of images and devices that infinitely deflects, replicates, and distorts any information within its borders. These devices fuel a hyper-partisan fervor and virulent strains of misinformation, all against a backdrop of psychographic advertising and domestic mass-surveillance. By guiding the viewer through these absurd surfaces and circumstances, the images allude to the ways our perception is quietly directed and managed via algorithm to the benefit of corporate interests and intelligence organizations. Ultimately, *Wilderness of Mirrors* aspires to locate the intersections of simulation, power, and concealment in order to disentangle the mesh of our personal, political and digital selves; it describes an urgent need to reclaim the agency we have lost to convenience and abstraction. The work seeks to question default realities and reframe our relationship to this digital landscape, before it is completely determined for us.

Modulating the Flavor Profile of Coffee Robert Hoos,2015-03-03 I set out with the goal to understand the ways in which the roast profile affects the flavor of the coffee. Through a large amount of research and experimentation, I have developed what I would consider a unified theory of coffee roasting with regards to how it affects the flavors being developed in the bean. This has helped me understand and intentionally manipulate the flavor of coffees that I am roasting since. I hope it will be as beneficial a paradigm for you as it has for me.
