The Pole Vault Championship of the Entire Universe Conor Lastowka,2018-01-30 Kara Everglades has just finished her first year of high school and is longing for an adventure. So far her only option is an invitation from some upperclassmen to watch them drunkenly race a bunch of bullfrogs in a ditch. To be honest, she was hoping for something a bit more exciting. Her grandfather, Cornelius Everglades, is a renegade who founded his own island micronation. Unfortunately, the rest of the world refuses to acknowledge it (possibly because he's gone about the nation-building process using wildly illegal and unethical means). When Cornelius shows up at Kara's door needing her help and promising an adventure, Kara agrees to go along with his far-fetched plan to put his micronation on the map, even though a) she thought Cornelius was dead, and b) his scheme depends heavily on Kara wearing a mascot costume. If Kara had known about the giant alien spaceship currently speeding toward her grandfather's country with the intent to subjugate and humiliate mankind, she

might have reconsidered.

How Not to Get into Heaven Ben Zaehring, 2021-10-26 If you're looking for an easy way to get into heaven, by all means do NOT read this hilarious, subversively clever, comic-filled book! The second collection of Berkeley Mews comics by Ben Zaehring, this book satirizes many of the pop cultural institutions familiar to children of the '80s and '90s, providing a visually delightful and comically poignant send-up of modern life. Filled with flawed views of Santa Claus, hilarious takedowns of Disney movie tropes, and dozens of comics that landed on the front page of Reddit, *How Not to Get into Heaven* is an uplifting read for comics fans with a slightly twisted sense of humor.

Walking Your Octopus Brian Kesinger, 2013 A beautifully produced and richly illustrated book that showcases the day-to-day adventures of independent girl-about-town Victoria Psismall and her pet land octopus Otto. Thirty panoramic, full-page illustrations humorously chronicle the duo's home and social activities that include (among other things) bathing, biking, dating, cooking, playing croquet, and pumpkin carving. Accompanying text explains the dos and don'ts of living with a large land octopus. The book's art is extremely detailed, and each illustration tells its own visual story. The Victorian era characters and period-influenced design elements combine to create a wonderful, collectible art-object for those who still value the classic elegance of ink-on-paper. The hardcover binding is plussed with two-layer embossing and spot varnish, and the interior is printed on extra heavy paper. An exquisite volume for lovers of books, art and pets.

Original Grin Ron English, 2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie Supersize Me; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on The Simpsons secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish,

French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
