**Swiss Vendetta** Tracee de Hahn,2017-02-07 Swiss Vendetta, Tracee de Hahn's mesmerizing debut, is an emotionally complex, brilliantly plotted mystery set against the beautiful but harsh backdrop of a Swiss winter. Inspector Agnes Lüthi, a Swiss-American police officer in Lausanne, Switzerland, has just transferred to the Violent Crimes unit from Financial Crimes to try to shed all reminders of her old life following her husband's death. Now, on the eve of the worst blizzard Lausanne has seen in centuries, Agnes has been called to investigate her very first homicide case. On the lawn of the grand Château Vallotton, at the edge of Lac Léman, a young woman has been found stabbed to death. The woman, an appraiser for a London auction house, had been taking inventory at the château, a medieval fortress dripping in priceless works of art and historical treasures. Agnes finds it difficult to draw answers out of anyone—the tight-lipped Swiss family living in the château, the servants who have been loyal to the family for generations, the aging WWII survivor who lives in the neighboring mansion, even the American history student studying at the Vallotton château's library. As the storm rages on, roads become impassible, the power goes out around Lausanne, and Agnes finds herself trapped in the candlelit halls of the château with all the players of the mystery, out of her depth in her first murder case and still struggling to stay afloat after the death of her husband.

**Swiss Made** R. James Breiding,2013-01-10 Why has Switzerland - a tiny, land-locked country with few natural advantages - become so successful for so long at so many things? In banking, pharmaceuticals, machinery, even textiles, Swiss companies rank alongside the biggest and most powerful global competitors. How did they get there? How do they continue to refresh themselves? Does the Swiss 'Sonderfall' (special case) provide lessons others can learn and benefit from? Can the Swiss continue to perform in a hyper-competitive global economy? Swiss Made offers answers to these and many other questions about the country as it describes the origins, structures and characteristics of the most important Swiss companies. The authors suggest success is due to a large degree to sound entrepreneurial thinking and an openness to new ideas. And they venture a surprising forecast on the country's ability to keep pace in an age of globalisation.

**Beyond the Lens of Conservation** Eva Keller,2015-02-01 The global agenda of Nature conservation has led to the creation of the Masoala National Park in Madagascar and to an exhibit in its support at a Swiss zoo, the centerpiece of which is a mini-rainforest replica. Does such a cooperation also trigger a connection between ordinary people in these two far-flung places? The study investigates how the Malagasy farmers living at the edge of the park perceive the conservation enterprise and what people in Switzerland see when looking towards Madagascar through the lens of the zoo exhibit. It crystallizes that the stories told in either place have almost nothing in common: one focuses on power and history, the other on morality and progress. Thus, instead of building a bridge, Nature conservation widens the gap between people in the North and the South.

**Swiss Mist** Randy Powell,2015-04-28 When Milo is in fifth grade, his parents get divorced, and his teacher, Ms. Swinford, helps him make it through the year. He loves hearing her sing The Happy Wanderer and reminisce about the year she lived in Switzerland during college, practically on the misty slopes of the Matterhorn. The Matterhorn! During the next five years, Milo moves through the mists of Washington State - from place to place and school to school - while his mother tries to figure out what to do with her life. Along the way, he tries to seek the truth, as his free-spirited father urged him to do before he left, but he never forgets Ms. Swinford and her tales of Switzerland. Then, when he gets the chance to see Ms. Swinford again, his understanding of what is true is shaken.

**Seeing from Scratch** Richard Dienst,2020-06-07 Taking as his starting point fifteen characteristically penetrating epigrams by Jean-Luc Godard, Richard Dienst invites us to trace a new path through some of the fundamental questions of cinema. Godard has never stopped offering lessons about seeing and thinking, always insisting that we have to learn how to start over. By starting over from scratch, Godard challenges us to rethink

our ideas about embodied perception, material form and the politics of making images. Less a commentary on Godard's oeuvre than an outline of a Godardian pedagogy, *Seeing from Scratch* offers a theoretical exercise book for students, teachers and practitioners alike, pursuing unexpectedly far-reaching ways to think through images. Along the way we encounter, in this brief, accessible essay, ideal for classroom use, a wide range of thinkers whose ideas are put to use working through the intellectual and aesthetic questions and challenges Godard's epigrams suggest – not in the abstract, but as part of the book's practical approach to intellectual problem solving. In its conversational tone, return to fundamentals and practical pedagogical approach, *Seeing from Scratch* is an essay for the media age in the mould of John Berger's *Ways of Seeing* from the 1970s: a new way of discussing the theory and practice of images and the film image. A companion piece, *The Postcard Game*, presents a scene from an imaginary classroom, where a stack of postcards – like those found throughout Godard's work – provokes a spiralling series of questions about images, texts and the manifold pathways of the creative process.

**Emergency** Neil Strauss, 2009-03-10 Terrorist attacks. Natural disasters. Domestic crackdowns. Economic collapse. Riots. Wars. Disease. Starvation. What can you do when it all hits the fan? You can learn to be self-sufficient and survive without the system. **\*\*I've started to look at the world through apocalypse eyes.\*\*** So begins Neil Strauss's harrowing new book: his first full-length work since the international bestseller *The Game*, and one of the most original-and provocative-narratives of the year. After the last few years of violence and terror, of ethnic and religious hatred, of tsunamis and hurricanes—and now of world financial meltdown—Strauss, like most of his generation, came to the sobering realization that, even in America, anything can happen. But rather than watch helplessly, he decided to do something about it. And so he spent three years traveling through a country that's lost its sense of safety, equipping himself with the tools necessary to save himself and his loved ones from an uncertain future. With the same quick wit and eye for cultural trends that marked *The Game*, *The Dirt*, and *How to Make Love Like a Porn Star*, *Emergency* traces Neil's white-knuckled journey through today's heart of darkness, as he sets out to move his life offshore, test his skills in the wild, and remake himself as a gun-toting, plane-flying, government-defying survivor. It's a tale of paranoid fantasies and crippling doubts, of shady lawyers and dangerous cult leaders, of billionaire gun nuts and survivalist superheroes, of weirdos, heroes, and ordinary citizens going off the grid. It's one man's story of a dangerous world—and how to stay alive in it. Before the next disaster strikes, you're going to want to read this book. And you'll want to do everything it suggests. Because tomorrow doesn't come with a guarantee...

**Born a Crime** Trevor Noah, 2016-11-15 #1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A “brilliant” (Lupita Nyong'o, Time), “poignant” (Entertainment Weekly), “soul-nourishing” (USA Today) memoir about coming of age during the twilight of apartheid “Noah's childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa's history that must never be forgotten.”—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah's unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa's tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to

form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

Angels & Demons Dan Brown, 2006-05-23 The murder of a world-famous physicist raises fears that the Illuminati are operating again after centuries of silence, and religion professor Robert Langdon is called in to assist with the case.

The Great Successor Anna Fifield, 2019-06-11 The behind-the-scenes story of the rise and reign of the world's strangest and most elusive tyrant, Kim Jong Un, by the journalist with the best connections and insights into the bizarrely dangerous world of North Korea. Since his birth in 1984, Kim Jong Un has been swaddled in myth and propaganda, from the plainly silly -- he could supposedly drive a car at the age of three -- to the grimly bloody stories of family members who perished at his command. Anna Fifield reconstructs Kim's past and present with exclusive access to sources near him and brings her unique understanding to explain the dynastic mission of the Kim family in North Korea. The archaic notion of despotic family rule matches the almost medieval hardship the country has suffered under the Kims. Few people thought that a young, untested, unhealthy, Swiss-educated basketball fanatic could hold together a country that should have fallen apart years ago. But Kim Jong Un has not just survived, he has thrived, abetted by the approval of Donald Trump and diplomacy's weirdest bromance. Skeptical yet insightful, Fifield creates a captivating portrait of the oddest and most secretive political regime in the world -- one that is isolated yet internationally relevant, bankrupt yet in possession of nuclear weapons -- and its ruler, the self-proclaimed Beloved and Respected Leader, Kim Jong Un.

**Losing Earth** Nathaniel Rich, 2020-03-05 By 1979, we knew all that we know now about the science of climate change -- what was happening, why it was happening, and how to stop it. Over the next ten years, we had the very real opportunity to stop it. Obviously, we failed. Nathaniel Rich's groundbreaking account of that failure -- and how tantalizingly close we came to signing binding treaties that would have saved us all before the fossil fuels industry and politicians committed to anti-scientific denialism -- is already a journalistic blockbuster, a full issue of the New York Times Magazine that has earned favorable comparisons to Rachel Carson's *Silent Spring* and John Hersey's *Hiroshima*. Rich has become an instant, in-demand expert and speaker. A major movie deal is already in place. It is the story, perhaps, that can shift the conversation. In the book *Losing Earth*, Rich is able to provide more of the context for what did -- and didn't -- happen in the 1980s and, more important, is able to carry the story fully into the present day and wrestle with what those past failures mean for us in 2019. It is not just an agonizing revelation of historical missed opportunities, but a clear-eyed and eloquent assessment of how we got to now, and what we can and must do before it's truly too late.
