Deathbird Stories Harlan Ellison,2014-04-29 Masterpieces of myth and terror about modern gods from technology to drugs to materialism—“fantasy at its most bizarre and unsettling” (The New York Times). As Earth approaches Armageddon, a man embarks on a quest to confront God in the Hugo Award–winning novelette, “The Deathbird.” In New York City, a brutal act of violence summons a malevolent spirit and a growing congregation of desensitized worshippers in “The Whimper of Whipped Dogs,” an Edgar Award winner influenced by the real-life murder of Queens resident Kitty Genovese in 1964. In “Paingod,” the deity tasked with inflicting pain and suffering on every living being in the universe questions the purpose of its cruel existence. Deathbird Stories collects these and sixteen more provocative tales exploring the futility of faith in a faithless world. A legendary author of speculative fiction whose best-known works include A Boy and His Dog and I Have No Mouth, and I Must Scream—and whose major awards and nominations number in the dozens, Harlan Ellison strips away convention and hypocrisy and lays bare the human condition in modern society as ancient gods fade and new deities rise to appease the masses—gods of technology, drugs, gambling, materialism—that are as insubstantial as the beliefs of those who venerate them. In addition to his Nebula, Hugo, World Fantasy, Bram Stoker, Edgar, and other awards, Ellison was called “one of the great living American short story writers” by the Washington Post—and this collection makes it clear why he has earned such an extraordinary assortment of accolades. Stories include: “Introduction: Oblations at Alien Altars” “The Whimper of Whipped Dogs” “Along the Scenic Route” “On the Downhill Side” “O Ye of Little Faith” “Neon” “Basilisk” “Pretty Maggie Moneyeyes” “Corpse” “Shattered Like a Glass Goblin” “Delusion for a Dragon Slayer” “The Face of Helene Bournouw” “Bleeding Stones” “At the Mouse Circus” “The Place with No Name” “Paingod” “Ernest and the Machine God” “Rock God” “Adrift Just Off the Islets of Langerhans: Latitude 38° 54' N, Longitude 77° 00' 13 W” “The Deathbird”

Dragon Operations Thomas P Odom,Frederick M. Franks,Combat Studies Institute,2010-12-01 In August 1964, thousands of Simba rebels attacked and captured the city of Stanleyville in the newly independent Republic of the Congo and took more than 1,600 European and American residents as hostages, threatening to kill them if any attempt was made to recapture the city. In November of that year, after months of increasingly tense and complex discussions among the governments whose nationals were being held, an airborne assault by Belgian paracommandos dropped by American Air Force planes, combined with a CIA-piloted air strike against the Stanleyville airport, liberated most of the hostages, but only after a Simba-initiated massacre. Dragon Operations: Hostage Rescues in the Congo, 1964-1965 provides both the political background to these events and a detailed account of the actual operations: Dragon Rouge, the operations in Stanleyville, and Dragon Noir, focused on the city of Paulis, several hundred miles away. The book highlights the difficulties in organizing an international rescue effort with insufficient joint planning and inadequate command and control among the Belgian and American forces, as well as their differing political ideas and goals. The ad hoc nature of the planning was exemplified by an initial American Special Forces plan to air drop its forces east of Stanleyville and float down the river to Stanleyville. This plan was aborted when it was pointed out that the existence of Stanley Falls between the drop zone and the city was an insuperable obstacle. The operation also suffered from the Belgian commander's colonial-era contempt for the numerical strength of the Simbas and American fears of what was in reality a non-existent Communist element in the rebel movement.Dragon Operations demonstrates that, despite the slapdash nature of their planning and communications aspects, as well as the distance involved, the austere support, the large number of hostages, and a lack of intelligence data, they were remarkably successful in rescuing most of the hostages. Although less than ideal, the operations worked better than expected, given the conditions under which they were conducted. This important study of an almost forgotten episode of the Cold War has much to offer to military strategists and tacticians, political scientists and students of contemporary history alike. Originally published in 1988: 236 p. maps. ill.

Behavioral Finance: The Second Generation Meir Statman,2019-12-02 Behavioral finance presented in this book is the second-generation of behavioral

finance. The first generation, starting in the early 1980s, largely accepted standard finance’s notion of people’s wants as “rational” wants—restricted to the utilitarian benefits of high returns and low risk. That first generation commonly described people as “irrational”—succumbing to cognitive and emotional errors and misled on their way to their rational wants. The second generation describes people as normal. It begins by acknowledging the full range of people’s normal wants and their benefits—utilitarian, expressive, and emotional—distinguishes normal wants from errors, and offers guidance on using shortcuts and avoiding errors on the way to satisfying normal wants. People’s normal wants include financial security, nurturing children and families, gaining high social status, and staying true to values. People’s normal wants, even more than their cognitive and emotional shortcuts and errors, underlie answers to important questions of finance, including saving and spending, portfolio construction, asset pricing, and market efficiency.
