Egyptian Palaces and Villas Shirley Johnston, Sharif Sunbul, 2006-05 Egypt's romantic allure does not end with the age of the pharaohs. This lavishly illustrated book offers a look inside the opulent estates of the pashas, khedives, and great ladies of 19th-century Egypt, and the princes and kings of

the early 20th century. Here in all its cosmopolitan splendor is the world of unparalleled prosperity that attracted adventurers the world over, from the Belle Époque through the Roaring Twenties.--From publisher description.

Death Dealer Rudolf Hoss, 2012-08-31 By his own admission, SS Kommandant Rudolf Höss was history's greatest mass murderer, having personally supervised the extermination of approximately two million people, mostly Jews, at the death camp in Auschwitz, Poland. *Death Dealer* is the first complete translation of Höss's memoirs into English. These bone-chilling memoirs were written between October 1946 and April 1947. At the suggestion of Professor Stanislaw Batavia, a psychologist, and Professor Jan Shen, the prosecuting attorney for the Polish War Crimes Commission in Warsaw, Höss wrote a lengthy and detailed description of how the camp developed, his impressions of the various personalities with whom he dealt, and even the extermination of millions in the gas chambers. This written testimony is perhaps the most important document attesting to the Holocaust, because it is the only candid, detailed, and (for the most part) honest description of the Final Solution

from a high-ranking SS officer intimately involved in carrying out the plans of Hitler and Himmler. With the cold objectivity of a common hit-man, Höss chronicles the discovery of the most effective poison gas, and the technical obstacles that often thwarted his aim to kill as efficiently as possible. Staring at the horror without reacting, Höss allowed conditions at Auschwitz to reduce human beings to walking skeletons - then he labelled them as subhumans fit only to die. Readers will witness Höss's shallow rationalizations as he tries to balance his deeds with his increasingly disturbed, yet always ineffectual, conscience.

Rebuilding the Past Dai Morgan Evans, Roger James, Christine Shaw, 2003 This title accompanies a ten-part Discovery Channel series from October to December 2003 in which professional and amateur archaeologists construct a Roman villa from scratch using Roman methods and materials.

Toronto Hi-Fi Avard Woolaver, 2021-12-04 *Toronto Hi-Fi* is Avard Woolaver's fifth Toronto book, capturing street scenes in the 1980s. Woolaver moved to Toronto from rural Nova Scotia in 1980 to study photography, and he viewed the urban scenes from his raised-in-the-country perspective. The

photos in this book share themes tied to the music he was listening to as he documented the city streets.

The Roof Garden Commission Beatrice Galilee, Adrián Villar Rojas, 2017-04-13 Celebrated Argentinian artist Adrián Villar Rojas is known for his site-specific sculptural installations. For The Theater of Disappearance, the artist mines The Met's collection, drawing on the five thousand years of world history within its galleries, to create an elaborate ahistorical work. Set atop the Iris and B. Gerald Cantor Roof Garden, Villar Rojas's installation transforms the space into a performative diorama, where banquet tables occupy an oversize black-and-white checkerboard floor punctuated by sculptures that fuse together human figures and artifacts found within the museum. The resulting juxtapositions put forth a radical reinterpretation of museum practices. This illustrated book is the fifth edition in a series that documents and contextualizes The Met's annual rooftop commissions. The introductory essay by Beatrice Galilee explores the conceptual framework that informs Villar Rojas's remarkable commission as well as his interventions around the world. While exploring the Museum, Villar Rojas

took thousands of photographs of objects and moments of interest. A selection of these images is featured here alongside the artist's commentary, offering a unique visual diary of Villar Rojas's thought process as he developed this arresting installation.

The 1000 Islands Ian Coristine, 2003

The Getty Villa Marion True, Jorge Silvetti, 2005 The original Getty Museum, housed in a replica of a Roman Villa on a site overlooking the Pacific Ocean, is one of Los Angeles's most treasured landmarks. Closed for almost ten years while renovations were made to the building and the site itself was transformed into a center for the study of antiquities and conservation, the Getty Villa is now set to open late in 2005. The Getty Villa is a lively history of the Getty Museum, its renowned antiquities collections, and its growth from a small museum in a ranch house in Malibu to its first home in a building designed to replicate what we know of the Villa dei Papiri, an ancient Roman villa partially uncovered in Herculaneum. Most engagingly, this book records the ten-year adventure in reconfiguring a beautiful, but topographically challenging, site into one that could continue to accommodate the

splendid Museum building and also provide for an outdoor theater, laboratories for conservation work and research, offices for staff and visiting scholars, and an education program for adults and children. This is a story of architectural imagination, geographical challenges, and legal hurdles, all of which have resulted in a truly unique and beautiful site. The story is an enlightening and rewarding one for anyone interested in architecture and in the difficulties posed by building on a grand scale in the twenty-first century. Beautifully illustrated throughout, the book includes 250 reproductions of works of art, photographs of both the old and the new Getty Museum, site plans, and architectural elevations.

Inside Tangier Nicolás Castellini Baldissera, 2019-09-17 Interior designer Nicol Castellini Baldissera joins forces with fashion and interiors photographer Guido Taroni to showcase the most beautiful homes Inside Tangier A white-walled city perched between Morocco and Europe, Tangier was long a haven for the literary and artistic avant-garde--and black sheep--of Europe and America. Now a new generation of residents are blending color, pattern, and taste to create an interior aesthetic all their own. Inside Tangier explores a selection of these exceptional properties and their eccentric inhabitants--from antiques dealer and collector Gordon Watson and interior designers Frank de Biasi and Veere Greeney to the late fashion designer Yves Saint Laurent and antiques dealer Christopher Gibbs--providing rare insights into the sometimes bohemian, sometimes extravagant, but always stylish

Tangerine lifestyle.

The Scandinavian Home Niki Brantmark, 2017-04-18 Discover classic and contemporary Scandinavian style with specially commissioned photography of homes in Denmark, Norway, Sweden, and Finland. Discover classic and contemporary Scandinavian style with specially commissioned photography of homes in Denmark, Norway, Sweden, and Finland. Scandinavia is famous for its distinctive style: homes are pared-back and simple, and form and function are combined to create aesthetically pleasing and practical interiors. Scandinavians are inspired by light, having an abundance of it in summer but so little of it in winter, and house designs tend to maximize the amount of natural light that enters the home, and allow the inhabitants to make the most of outdoor life during the summer. Similarly, nature and the weather are major influences: homes are made warm and cozy for the freezing winter months—not just literally with log burners, but also through incorporating wood and natural materials. Here Niki Brantmark, owner of the interior design blog *My Scandinavian Home*, presents a wide-ranging collection of these beautiful homes and explores how the Scandinavian

lifestyle is reflected in them all. The first chapter, Urban Living, features styles ranging from minimalist to bohemian, and pale palettes to dramatic dark colors. By contrast, the Country Homes tend to have a softer, calmer feel, through color and textiles, in line with a slower pace of life. Finally, the spectacular Rural Retreats include a mountain cabin, beach house, and rustic summer cottage, and demonstrate how having somewhere to escape to is so important to many Scandinavians. This collection of stunning interiors will put Scandi style within every reader's reach.

The Decameron Giovanni Boccaccio, 2023-07-07 In the time of a devastating pandemic, seven women and three men withdraw to a country estate outside Florence to give themselves a diversion from the death around them. Once there, they decide to spend some time each day telling stories, each of the ten to tell one story each day. They do this for ten days, with a few other days of rest in between, resulting in the 100 stories of the Decameron. The Decameron was written after the Black Plague spread through Italy in 1348. Most of the tales did not originate with Boccaccio; some of them were centuries old already in his time, but Boccaccio imbued them all with his distinctive style. The

stories run the gamut from tragedy to comedy, from lewd to inspiring, and sometimes all of those at once. They also provide a detailed picture of daily life in fourteenth-century Italy.

Territory ETH Studio Basel, Contemporary City Institute, Roger Diener, Liisa Gunnarsson, Mathias Gunz, Vesna Jovanović, Marcel Meili, Christian Mueller Inderbitzin, Christian Schmid, 2016 Between 2008 and 2014, ETH Studio Basel, under the guidance of Roger Diener and Marcel Meili, has been investigating the process of urbanisation taking place outside cities. Territory - in the context of this investigation denotes both: the surroundings that a city subsumes into its own structure and the core city itself, which is the centre of this process of urbanisation, or confiscation. Investigated were six regions on six continents: The Nile Valley with the dense corset of natural landscape surrounding a linear city; Rome-Adria, where territorial cells have formed within the territory, spawning an urban type of tremendous dynamism; Florida, presenting highly complex patterns of territorial organisation; Vietnam's Red River Delta, where recent reform exposed traditional settlement and cultivation of the delta to freer forces; Oman, where urbanisation of a territory essentially means reclaiming the desert

with the immediate necessity to develop a system for water distribution; and Belo Horizonte, where natural conditions likewise play a major role in organising the territory as surface mining entails huge transformations of the natural terrain. The new book features two introductory essays on ETH Studio Basel's research approach and on terminology, concise illustrated reports on the six regions, and four concluding topical essays.

The White Album Joan Didion, 2017-05-09 New York Times Bestseller: An “elegant” mosaic of trenchant observations on the late sixties and seventies from the author of *Slouching Towards Bethlehem* (The New Yorker). In this landmark essay collection, Joan Didion brilliantly interweaves her own “bad dreams” with those of a nation confronting the dark underside of 1960s counterculture. From a jailhouse visit to Black Panther Party cofounder Huey Newton to witnessing First Lady of California Nancy Reagan pretend to pick flowers for the benefit of news cameras, Didion captures the paranoia and absurdity of the era with her signature blend of irony and insight. She takes readers to the “giddily splendid” Getty Museum in Los Angeles, the cool mountains of Bogotá, and the Jordanian

Desert, where Bishop James Pike went to walk in Jesus's footsteps—and died not far from his rented Ford Cortina. She anatomizes the culture of shopping malls—"toy garden cities in which no one lives but everyone consumes"—and exposes the contradictions and compromises of the women's movement. In the iconic title essay, she documents her uneasy state of mind during the years leading up to and following the Manson murders—a terrifying crime that, in her memory, surprised no one. Written in "a voice like no other in contemporary journalism," *The White Album* is a masterpiece of literary reportage and a fearless work of autobiography by the National Book Award-winning author of *The Year of Magical Thinking* (The New York Times Book Review). Its power to electrify and inform remains undiminished nearly forty years after it was first published.

The Wigwam Resort Lance W. Burton, 2007 The evolution of an arid desert area into the verdant oasis that is the Wigwam Resort was ultimately brought about by an unlikely crop needed by an important American corporation in the early 20th century. The crop was long-staple cotton and the corporation was the Goodyear Tire and Rubber Company. When the U.S. Department of Agriculture

discovered that Arizona's Salt River Valley was an ideal location to domestically grow long-staple cotton, Goodyear purchased 16,000 acres in the desert west of Phoenix to cultivate the crop for their newly developed pneumatic tire. The company built a three-room lodge, originally called the Organization House, for the executives that came to oversee the farming operations. The location became a popular winter retreat within the company, and in 1929, Goodyear expanded the facilities and opened The Wigwam as a hotel. As the years progressed, amenities such as golf and fine dining were added, and the Wigwam Resort became one of the premier luxury destinations in the Southwest.
