Lieblingsplätze Spreewald Inka Chall,2020-02-12 Über tausend Kilometer Flussläufe und Wasserwege führen durch eine einzigartige Natur- und Kulturlandschaft - schon Theodor Fontane wusste um die Schönheit des Spreewaldes. Damals wie heute schippern die Gäste auf Holzkähnen durch das Venedig Brandenburgs und erkunden das Biosphärenreservat, in dem niedersorbische Kultur auf Moderne trifft. *Slaughter at Halbe* Tony Le Tissier,2007-03-22 Operation 'Berlin', the Soviet offensive launched on 16 April, 1945, by

Marshals Zhukov and Koniev, isolated the German Ninth Army and tens of thousands of refugees in the Spreewald 'pocket', south-east of Berlin. Stalin ordered its encirclement and destruction and his subordinates, eager to win the race to the Reichstag, pushed General Busse's 9th Army into a tiny area east of the village of Halbe. To escape the Spreewald pocket, the remnants of 9th Army had to pass through Halbe, where barricades constructed by both sides formed formidable obstacles and the converging Soviet forces subjected the area to heavy artillery fire. By the time 9th Army eventually escaped the Soviet pincers, it had suffered 40,000 killed and 60,000 taken prisoner. Teenaged refugees recount their experiences alongside Wehrmacht and Waffen-SS veterans attempting to maintain military discipline amid the chaos and carnage of headlong retreat. While army commanders strive to extricate their decimated units, demoralised soldiers change into civilian clothing and take to the woods. Relating the story day by day, Tony Le Tissier shows the impact of total war upon soldier and civilian alike, illuminating the unfolding of great and terrible events with the recollections of participants.

**Museums of Communism** Stephen M. Norris,2020-11-03 How did communities come to terms with the collapse of communism? In order to guide the wider narrative, many former communist countries constructed museums dedicated to chronicling their experiences. Museums of Communism explores the complicated intersection of history, commemoration, and victimization made evident in these museums constructed after 1991. While contributors from a diverse range of fields explore various museums and include nearly 90 photographs, a common denominator emerges: rather than focusing on artifacts and historical documents, these museums often privilege memories and stories. In doing so, the museums shift attention from experiences of guilt or collaboration to narratives of shared victimization under communist rule. As editor Stephen M. Norris demonstrates, these museums are often problematic at best and revisionist at worst. From occupation museums in the Baltic States to memorial museums in Ukraine, former secret police prisons in Romania, and nostalgic museums of everyday life in Russia, the sites considered offer new ways of understanding the challenges of separating memory and myth.

**Photography in the Third Reich: Art, Physiognomy and Propaganda** Christopher Webster, 2021-01-07 This lucid and comprehensive collection of essays by an international group of scholars constitutes a photo-historical survey of select photographers who embraced National Socialism during the Third Reich. These photographers developed and implemented physiognomic and ethnographic photography, and, through a *Selbstgleichschaltung* (a self-co-ordination with the regime), continued to practice as photographers throughout the twelve years of the Third Reich. The volume explores, through photographic reproductions and accompanying analysis, diverse aspects of photography during the Third Reich, ranging from the influence of Modernism, the qualitative effect of propaganda photography, and the utilisation of technology such as colour film, to the photograph as ideological metaphor. With an emphasis on the idealised representation of the German body and the role of physiognomy within this representation, the book examines how select photographers created and developed a visual myth of the 'master race' and its antitheses under the auspices of the

Nationalist Socialist state. Photography in the Third Reich approaches its historical source photographs as material culture, examining their production, construction and proliferation. This detailed and informative text will be a valuable resource not only to historians studying the Third Reich, but to scholars and students of film, history of art, politics, media studies, cultural studies and holocaust studies.

*Eating on the Wild Side* Jo Robinson, 2013-06-04 Winner of the 2014 IACP Cookbook Award in the category of Food Matters. The next stage in the food revolution--a radical way to select fruits and vegetables and reclaim the flavor and nutrients we've lost. Ever since farmers first planted seeds 10,000 years ago, humans have been destroying the nutritional value of their fruits and vegetables. Unwittingly, we've been selecting plants that are high in starch and sugar and low in vitamins, minerals, fiber, and antioxidants for more than 400 generations. EATING ON THE WILD SIDE reveals the solution--choosing modern varieties that approach the nutritional content of wild plants but that also please the modern palate. Jo Robinson explains that many of these newly identified varieties can be found in supermarkets and farmer's market, and introduces simple, scientifically proven methods of preparation that enhance their flavor and nutrition. Based on years of scientific research and filled with food history and practical advice, EATING ON THE WILD SIDE will forever change the way we think about food.
