**Conquer the Crash** Robert R. Prechter, Jr.,2009-11-20 Today's financial and economic tribulations were a long time in the making. Many people ask, Why didn't someone see it coming? A New York Times bestselling book did see it coming. Over 100,000 people read it in time to protect their wealth. The book foresaw and explained the collapse in home prices, plunge in stocks, subprime debacle, liquidity crisis, the demise of Fannie and Freddie, the Federal Reserve's failure to turn the trend, and lots more. The book was Robert Prechter's Conquer the Crash, published in early 2002, when the Dow was above 10,000 and the financial world was partying around-the-clock. Fast forward to today: the average U.S. homeowner has suffered a decline of 30% to 40% in property value. Stocks and commodities had their biggest fall since 1929-1932. Fannie Mae is a zombie corporation under the government's protection. The Fed has pushed every button at its disposal (and then some), to no avail. If Prechter thought a whole new book would help, he'd have written one. But Conquer the Crash is a book-length forecast that's still coming true -- only some of the future has caught up with the specific predictions he published back then. There is much more to come. That means more danger, but also great opportunity. Conquer the Crash, 2nd edition offers you 188 new pages of vital information (480 pages total) plus all the original forecasts and recommendations that make the book more compelling and relevant than the day it published. In every disaster, only a very few people prepare themselves beforehand. Think about investor enthusiasm in 2005-2008, and you'll realize it's true. Even fewer people will be ready for the soon-approaching, next leg down of the unfolding depression. In this 2nd edition, Prechter gives a warning he's never had to include in 30 years of publishing -- namely, that the doors to financial safety are closing all over the world. In other words, prudent people need to act while they can. Conquer the Crash, 2nd Edition readers will receive exclusive online access to the Conquer the Crash Readers Page, where Prechter continually updates the book's recommended services and institutions.

*Human Rights Discourse in a Global Network* Lena Khor,2016-05-13 In her innovative study of human rights discourse, Lena Khor takes up the prevailing concern by scholars who charge that the globalization of human rights discourse is becoming yet another form of cultural, legal, and political imperialism imposed from above by an international human rights regime based in the Global North. To counter these charges, she argues for a paradigmatic shift away from human rights as a hegemonic, immutable, and ill-defined entity toward one that recognizes human rights as a social construct comprised of language and of language use. She proposes a new theoretical framework based on a global discourse network of human rights, supporting her model with case studies that examine the words and actions of witnesses to genocide (Paul Rusesabagina) and humanitarian organizations (Doctors Without Borders). She also analyzes the language of texts such as Michael Ondaatje's *Anil's Ghost*. Khor's idea of a globally networked structure of human rights discourse enables actors (textual and human) who tap into or are linked into this rapidly globalizing system of networks to increase their power as speaking subjects and, in so doing, to influence the range of acceptable meanings and practices of human rights in the cultural sphere. Khor's book is a unique and important contribution to the study of human rights in the humanities that revitalizes viable notions of agency and liberatory network power in fields that have been dominated by negative visions of human capacity and moral action.
