MiniEco Kate Lilley,2013 MiniEco is the sensational craft blog of Kate Lilley. With over 250,000 followers it has taken on cult status in the international craft community, and that is purely down to Kates fresh, contemporary and beautifully explained and executed craft projects. With a book for children already under her belt, this publication focuses more on adults with 33 pieces including paper gems, an origami lampshade, macrame hangings, pop-up pixel cards, hama bead candle holders, and tie-dyed furoshiki cloths. The ideas range in complexity from the simple to the advanced, but each one is totally unique and has never before been published. The look of the book will reflect the immaculate, Japanese-inflected minimalism of the MiniEco website, with some high-end production finishes including a die-cut, dust-jacketed paperback binding and boldly pared-back photography. QR codes will link to animated gifs of the craft being made.

His vertigo-inducing perspectives turn familiar vistas into abstractions, reality into a fantasyland of line and shape. More than 164,000 followers on Instagram experience Tobi's obsessive attention to detail and fascination with the geometry of our world.

Evil by Design Chris Nodder, 2013-06-05 How to make customers feel good about doing what you want Learn how companies make us feel good about doing what they want. Approaching persuasive design from the dark side, this book melds psychology, marketing, and design concepts to show why we're susceptible to certain persuasive techniques. Packed with examples from every nook and cranny of the web, it provides easily digestible and applicable patterns for putting these design techniques to work. Organized by the seven deadly sins, it includes: Pride — use social proof to position your product in line with your visitors' values Sloth — build a path of least resistance that leads users where you want them to go Gluttony — escalate customers' commitment and use loss aversion to keep them there Anger — understand the power of metaphysical arguments and anonymity Envy — create a culture of status around your product and feed aspirational desires Lust — turn desire into commitment by using emotion to defeat rational behavior Greed — keep customers engaged by reinforcing the behaviors you desire Now you too can leverage human fallibility to create powerful persuasive interfaces that people will love to use — but will you use your new knowledge for good or evil? Notes from the Hyena's Belly Nega Mezlekia, 2015-04-07 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

Bhakti or Devotion Swami Vivekananda, 1963 In this lecture, Swami Vivekananda discusses some of the crucial and most pertinent issues surrounding the practice of devotion in a succinct way. He brilliantly brings out the rationale of this practice, ignorance of which has been the main cause of the timeless conflict in the religious scenario of the world. Old School Photography Kai Wong, 2021-11-09 Old School Photography is a must-have modern manual for learning how to create great photographs with a 35mm film camera. Famed YouTube personality Kai Wong expertly and humorously shares 100 essential tips for selecting and using film cameras, shooting with film and various lenses, and employing specific techniques to ensure you can get great results quickly. Known for his breadth of knowledge and quick wit, Kai Wong delivers an informative and entertaining read on how to take great film photos. • An informative and entertaining read on how to take great film photos • A must-have guide for those new to old-school film techniques • A much-needed book for the current resurgence of vintage 35mm film cameras Renewed interest in film photography has surged in the past few years, both among those rediscovering their past passion and those discovering it for the first time. Vintage cameras that had previously lost their value are now often worth more than they first sold for due to high demand amongst enthusiasts, students, and collectors. Film manufacturers have even started reissuing long discontinued stocks—for example, Kodak's much-loved and recently re-released classic Ektachrome slide film. In our modern world, billions of people have access to instantaneous photography on their mobile phones, but as a result there has been a resurgent desire for a more tactile, physical, unaltered, and thus honest medium. Much of which, ironically, ends up on the internet, with photography fans and influencers sharing their images across Instagram, Flickr, YouTube, and the like. More so than with digital photography, film photography requires a sense of craft, skill, patience, technical knowledge, and a trial-and-error process that results in a greater sense of accomplishment. Old School Photography is both enlightening and humorous, and attracts a new generation of fans who are eager to experiment with film cameras, make prints, and post their film photographs online.
