**Rhode Island** Cassandra Schumacher, Rick Petreycik, Lisa M. Herrington, 2019-07-15 Rhode Island may be just 48 miles long, but its influence is felt across the United States. Founded by Roger Williams in 1636, Rhode Island is known for its principles of separation of church and state and religious tolerance that shaped the Constitution. Today, the state continues to be a leader in politics. Beyond the big ideas that come from the Ocean State, tourists and residents enjoy its picturesque waterfronts, vibrant cities, lush forests, and Gilded Age architecture. Readers will explore the beauty and history of America's smallest state and get a snapshot of all the state has to offer.

**Rangeland Wildlife Ecology and Conservation** Lance B. McNew, David K. Dahlgren, Jeffrey L. Beck, 2023-09-01 This open access book reviews the importance of ecological functioning within rangelands considering the complex inter-relationships of production agriculture, ecosystem services, biodiversity, and wildlife habitat. More than half of all lands worldwide, and up to 70% of the western USA, are classified as rangelands—uncultivated lands that often support grazing by domestic livestock. The rangelands of North America provide a vast array of goods and services, including significant economic benefit to local communities, while providing critical habitat for hundreds of species of fish and wildlife. This book provides compendium of recent data and synthesis from more than 100 experts in wildlife and rangeland ecology in Western North America. It provides a current and in-depth synthesis of knowledge related to wildlife ecology in rangeland ecosystems, and the tools used to manage them, to serve current and future wildlife biologists and rangeland managers in the working landscapes of the West. The book also identifies information gaps and serves as a jumping-off point for future research of wildlife in rangeland ecosystems. While the content focuses on wildlife ecology and management in rangelands of Western North America, the material has important implications for rangeland ecosystems worldwide.

**The Clockwork Scarab** Colleen Gleason, 2022-03-26 Evaline Stoker and Mina Holmes never meant to get into the family business. But when you're the sister of Bram and the niece of Sherlock, vampire hunting and mystery solving are in your blood. And when two society girls go missing, there's no one more qualified to investigate. Now fierce Evaline and logical Mina must resolve their rivalry, navigate the advances of not just one but three mysterious gentlemen, and solve a murder with only one clue: the strange Egyptian scarab. *Miss Benson's Beetle* Rachel Joyce, 2020-11-03 NEW YORK TIMES BESTSELLER • “A beautifully written, extraordinary quest in which two ordinary, overlooked women embark on an unlikely scientific expedition to the South Seas.”—Helen Simonson, author of *Major Pettigrew's Last Stand* WINNER OF THE WILBUR SMITH ADVENTURE WRITING PRIZE • From the bestselling author of *The Unlikely Pilgrimage of Harold Fry* comes an uplifting, irresistible novel about two women on a life-changing adventure, where they must risk everything, break all the rules, and discover their best selves—together. She's going too far to go it alone. It is 1950. London is still reeling from World War II, and Margery Benson, a schoolteacher and spinster, is trying to get through life, surviving on scraps. One day, she

reaches her breaking point, abandoning her job and small existence to set out on an expedition to the other side of the world in search of her childhood obsession: an insect that may or may not exist—the golden beetle of New Caledonia. When she advertises for an assistant to accompany her, the woman she ends up with is the last person she had in mind. Fun-loving Enid Pretty in her tight-fitting pink suit and pom-pom sandals seems to attract trouble wherever she goes. But together these two British women find themselves drawn into a cross-ocean adventure that exceeds all expectations and delivers something neither of them expected to find: the transformative power of friendship. Praise for Miss Benson's Beetle "A hilarious jaunt into the wilderness of women's friendship and the triumph of outrageous dreams."—Kirkus Reviews

**The First Beetle** Christian Grundmann, Clauspeter Becker, 2015-03 This is the story of a little miracle on four wheels, discovered in a field in Eastern Europe by two of the most competent collectors of air-cooled Volkswagens: The 38 split window Beetle. The vehicle with the chassis number 3806 is as black and shiny as it was more than 70 years ago. It is the pride and joy of the Grundmann collection! When the discovery of this prototype of the VW 38 was posted on an internet forum, the international Beetle scene went wild. For the experienced VW restorers Traugott and Christian Grundmann there was no question: the first Splitty would become the centrepiece of their exquisite old-timer collection. The VW 38's condition may have been shocking, but it was not beyond hope. Supported by a brilliant team of welders, upholsterers, painters, mechanics and VW enthusiasts from around the world, they managed to give the dear little Beetle a complete makeover. Traugott Grundmann and his son Christian have a little piece of paradise in the Weser Hills: they have created their very own automobile museum for one of the most exclusive Volkswagen collections in the world. More than 50 old-timers, including many one-offs and special models, are displayed in all their splendor in Hessisch Oldendorf - most of them were restored to their former glory in the Grundmann's workshop. The VW 38 is the exhibition's new shining star. Axel Struwe leads two lives: one as a food photographer and qualified photo designer, the other as a passionate collector and restorer of VW old-timers. When the German first heard that his friend Christian Grundmann had discovered a VW 38, it became obvious that he would not only support the project with his practical experience, but also document the journey with his camera. Clauspeter Becker was three years old when the first split window Beetle appeared. He can vividly remember sitting in a VW 38 as a young lad in Berlin - but in the back seat. As part of his research for this book, the renowned specialist journalist and book writer from Neuhausen near Stuttgart, who received the Johnny-Rozendaal-Uhr award in 2010 for his entire oeuvre, finally got to take the steering wheel himself. 83 colour, 16 b/w

**Exploring Roguelike Games** John Harris,2020-09-09 Since 1980, in-the-know computer gamers have been enthralled by the unpredictable, random, and incredibly deep gameplay of Rogue and those games inspired by it, known to fans as roguelikes. For decades, this venerable genre was off the radar of most players and developers for a variety of reasons: deceptively simple graphics (often just text characters), high difficulty, and their demand that a player brings more of themselves to the game than your typical AAA title asks. This book covers many of the most prominent titles and explains in great detail what makes them interesting, the ways to get started playing them, the history of the genre, and more. It includes interviews, playthroughs, and hundreds of screenshots. It is a labor of love: if even a fraction of the author's enthusiasm for these games gets through these pages to you, then you will enjoy it a great deal. Key Features: Playing tips and strategy for newcomers to the genre Core roguelikes Rogue, Angband, NetHack, Dungeon Crawl Stone Soup, ADOM, and Brogue The lost roguelikes Super Rogue and XRogue,

and the early RPG dnd for PLATO systems The Japanese console roguelikes Taloon's Mystery Dungeon and Shiren the Wanderer Lesser-known but extremely interesting games like Larn, DoomRL, HyperRogue, Incursion, and Dungeon Hack Rogue-ish games that blur the edges of the genre, including Spelunky, HyperRogue, ToeJam & Earl, Defense of the Oasis, Out There, and Zelda Randomizer Interviews with such developers as Keith Burgun (100 Rogues and Auro), Rodain Joubert (Desktop Dungeons), Josh Ge (Cogmind), Dr. Thomas Biskup (ADOM), and Robin Bandy (devnull public NetHack tournament) An interview regarding Strange Adventures in Infinite Space Design issues of interest to developers and enthusiasts Author Bio: John Harris has bumped around the Internet for more than 20 years. In addition to writing the columns @Play and Pixel Journeys for GameSetWatch and developer interviews for Gamasutra, he has spoken at Roguelike Celebration. John Harris has a MA in English Literature from Georgia Southern University.
