The Iron Manufacturer's Guide to the Furnaces, Forges and Rolling Mills of the United States J. Peter Lesley,1859

Alabama Blast Furnaces Joseph H. Woodward,2007 Go to resource on all the furnaces that made Alabama internationally significant in the iron and steel industry This work is the first and remains the only source of information on all blast furnaces built and operated in Alabama, from the first known charcoal furnace of 1815 (Cedar Creek Furnace in Franklin County) to the coke-fired giants built before the onset of the Great Depression. Woodward surveys the iron industry from the early, small local market furnaces through the rise of the iron industry in support of the Confederate war effort, to the giant internationally important industry that developed in the 1890s. The bulk of the book consists of individual illustrated histories of all blast furnaces ever constructed and operated in the state, furnaces that went into production and four that were built but never went into blast. Written to provide a record of every blast furnace built in Alabama from 1815 to 1940, this book was widely acclaimed and today remains one of the most quoted references on the iron and steel industry.

Crawfordsville, Athens of Indiana Karen Bazzani Zach,2003 The early west-central Indiana town of Crawfordsville saw the passage of several Native American tribes, as well as French traders and missionaries, traveling along Sugar Creek. Flourishing as the county seat, the city was buoyed by the railroad, horses, and higher education, and is most well known for Wabash College, outstanding American authors such as Lew Wallace (Ben Hur), and the Federal Land Office. Overcoming hardships along the way, the residents' fortitude and commitment to the city's growth enabled them to persevere and establish this lucrative and charming community.

Make Me a Map of the Valley Jedediah Hotchkiss,1973

Shenandoah Iron Norman H. Scott,2018-04-14 Most people know of the rich Civil War history of the Shenandoah Valley of Virginia but few know that the Valley was also rich in iron smelting history. The first furnace west of the Blue Ridge Mountains was built in this region. For over 144 years the area produced iron ore and smelted ore into pig iron. The region's iron history covered the eras of the bloomery forge, charcoal cold-blast furnace and finally hot-blast coke furnace. Shenandoah Iron includes the transporting, mining and smelting activities of this industrial enterprise and explains in detail how iron ore is transformed into iron. Over 24 cold-blast furnaces are described and the two modern hot-blast furnaces are depicted. Over 80 iron mines are identified. The contributions of German-Americans who settled the valley and dominated the iron business are highlighted. The practice of industrial slavery and the impact of the Civil War on the iron industry are explored. This 350 page book includes 137 photographs, maps and drawings to illustrate the contributions that the Shenandoah counties of Clarke, Frederick, Page, Rockingham, Shenandoah and Warren made to the iron smelting industry of the Shenandoah Valley of Virginia.

A Field Guide to the Birds of Hawaii and the Tropical Pacific H. Douglas

Pratt,Phillip L. Bruner,Delwyn G. Berrett,2023-06-06 This is the first field guide to the identification of the birds of the islands of the tropical Pacific, including the Hawaiian Islands, Fiji, Samoa, Tonga, southeastern Polynesia, and Micronesia. It is intended both as a reference for the expert and as an introduction to birding in the region for the novice. Small enough to be carried afield, it contains much previously unpublished information about behavior, vocalizations, ecology, and distribution. The forty-five color plates depict all plumages of all bird species that breed in the islands, as well as of those that regularly visit them and the surrounding oceans, and of most species believed to be extinct on the islands. Black-and-white figures show many of the rarer visitors. Introductory sections discuss the tropical Pacific as an environment for birds, problems of birding on islands, and bird conservation. Appendixes include maps of the island groups and a thorough bibliography.

Bugle Rhymes from France Paul Myron Linebarger,1918

Child Star Shirley Temple,2005 Shirley Temple-Black, the popular child star of the 1930s and 1940s, tells of the ups and downs of life as a Hollywood prodigy. She writes of her relationship with her parents, how her finances were controlled, two attempts on her life, her first marriage at 17 and her second, happier marriage to Charlie Black.

Sun Yat Sen and the Chinese Republic Paul Myron Linebarger,1925

Mississippi Provincial Archives Patricia Kay Galloway,Dunbar Rowland,1984-05-01

The publication of these final two volumes of the Mississippi Provincial Archives brings to a close the important scholarly project initiated by Dunbar Rowland and A. G. Sanders in the 1920s, suspended at the time of the Great Depression, and then revived in 1979 under the editorship of Patricia Kay Galloway. The Mississippi Provincial Archives assembles and translates the documents in French archives relating to military, diplomatic, colonial, and economic activities in the lower Mississippi Valley from the founding of the original settlement at Ocean Springs, or "Old Biloxy," in 1699 through the abandonment of the French Louisiana colony in 1763 at the close of the French and Indian War with England. The two present volumes focus on the years 1744 through 1763, but also contain material supplemental to the earlier volumes concerning the Natchez War (1730), the first Chickasaw campaign (1736), the second Chickasaw campaign (1739-1740), and additional documents that chart the rise of the Choctaw chief Red Shoe. The twenty-year period chronicled in-depth in Volumes IV and V was a time of intense rivalry with the English for Choctaw trade and allegiance. The documents chronicle the events of King George's War (1744-1748) and of the concurrent struggle for control within the Choctaw nation that began with the revolt of a large faction led by Red Shoe and expanded into a civil war after the chief's death at the hands of pro-French Choctaws. The settlement of this conflict was soon followed by the outbreak of the French and Indian War (1756-1763), at the end of which the French were forced to give up their colony—but not before concluding diplomatic arrangements with the Indians that would plague the victorious English for years to come. Mississippi Provincial Archives provides an invaluable source for understanding the history of French and English relations with the Indian nations of the South. But these collections also document many other aspects of the social history of the French colony, including the activities of merchants and other entrepreneurs, the development of the lumber industry along the coast, military justice and the founding of military outposts in the interior, and the relationships between the military governors and their civilian counterparts. Extensively annotated, these two volumes complete—after a delay of more than fifty years—a work of great significance for the study of the French Louisiana colony.
