My Side of the Mountain (Puffin Modern Classics) Jean Craighead George,2004-04-12 Terribly unhappy in his family's crowded New York City apartment, Sam Gibley runs away to the solitude-and danger-of the mountains, where he finds a side of himself he never knew.

Kilimanjaro Millennial Style Rodney Parks,2022-01-28 'As someone with no interest in adventure travel, I was surprised to find that I couldn't put this book down. The narrative is absorbing and engaging; the story is told with such authenticity that it captured my imagination the way a good novel would, leaving me eager to follow the students' journey and find out what would happen next. Despite being written by a variety of authors, the voice seemed very consistent and the book transitioned smoothly from one chapter to the next. I was completely caught up in the students' thoughts and emotions; I felt as though I was walking alongside them as they faced each challenge, getting to know them, and cheering them on to achieve their goal. I felt fortunate to benefit from the lessons they learned without having to leave the comfort of my warm, safe home. I enthusiastically recommend this book to anyone who might be contemplating a similar trip (or whose child has proposed such a trip) and also to anyone who loves to get lost in a fascinating, compelling, and well-told story.' Dr. Diane Miller, Director of Student Academic Services at the University of Georgia Students in Elon University's first adventure-based learning course to Tanzania hiked to the top of Mt. Kilimanjaro - millennial style. Then they wrote a book about it. The 22 upper-level students in the Core Capstone course authored this book in order to share what they learned from their adventure, and provide helpful information for those who follow in their footsteps. Most travel adventure books about Kilimanjaro are written by older adults, and tend to focus on the individual's "peak experience. Those reading Kilimanjaro, Millennial Style will quickly grasp the different ways young adults perceive their world, how their relationships are deepened, where they find adventure, and what it means to have an authentic experience together. As one of the authors wrote, I would never want to hike to the top of Kilimanjaro again. Not because it wasn't the most amazing experience I have ever had, but because it wouldn't be with the people that made my experience so extraordinary.

Linked Gordon Korman, 2021-07-20 An unforgettable novel from the New York Times bestseller Gordon Korman Link, Michael, and Dana live in a quiet town. But it's woken up very quickly when someone sneaks into school and vandalizes it with a swastika. Nobody can believe it. How could such a symbol of hate end up in the middle of their school? Who would do such a thing? Because Michael was the first person to see it, he's the first suspect. Because Link is one of the most popular guys in school, everyone's looking to him to figure it out. And because Dana's the only Jewish girl in the whole town, everyone's treating her more like an outsider than ever. The mystery deepens as more swastikas begin to appear. Some students decide to fight back and start a project to bring people together instead of dividing them further. The closer Link, Michael, and Dana get to the truth, the more there is to face—not just the crimes of the present, but the crimes of the past. With *Linked*, Gordon Korman, the author of the acclaimed novel *Restart*, poses a mystery for all readers where the who did it? isn't nearly as important as the why?

Flat Broke with Two Goats Jennifer McGaha, 2018-01-23 When life gets your goat, bring in the herd Jennifer McGaha never expected to own a goat named Merle. Or to be setting Merle up on dates and naming his doeling Merlene. She didn't expect to be buying organic yogurt for her chickens. She never thought she would be pulling camouflage carpet off her ceiling or rescuing opossums from her barn and calling it date night. Most importantly, Jennifer never thought she would only have \$4.57 in her bank account. When Jennifer discovered that she and her husband owed back taxes—a lot of back taxes—her world changed. Now desperate to save money, they foreclosed on their beloved suburban home and moved their family to a one-hundred-year-old cabin in a North Carolina holler. Soon enough, Jennifer's life began to more closely resemble her Appalachian ancestors than her upper-middle-class upbringing. But what started as a last-ditch effort to settle debts became a journey that revealed both the joys and challenges of living close to the land. Told with bold wit, unflinching honesty, and a firm foot in the traditions of Appalachia, *Flat Broke with Two Goats* blends stories of homesteading with the journey of two people rediscovering the true meaning of home.

The Control of Nature John McPhee, 2011-04-01 While John McPhee was working on his previous book, *Rising from the*

Plains, he happened to walk by the engineering building at the University of Wyoming, where words etched in limestone said: Strive on--the control of Nature is won, not given. In the morning sunlight, that central phrase--the control of nature--seemed to sparkle with unintended ambiguity. Bilateral, symmetrical, it could with equal speed travel in opposite directions. For some years, he had been planning a book about places in the world where people have been engaged in all-out battles with nature, about (in the words of the book itself) any struggle against natural forces--heroic or venal, rash or well advised--when human beings conscript themselves to fight against the earth, to take what is not given, to rout the destroying enemy, to surround the base of Mt. Olympus demanding and expecting the surrender of the gods. His interest had first been sparked when he went into the Atchafalaya--the largest river swamp in North America--and had learned that virtually all of its waters were metered and rationed by a U.S. Army Corps of Engineers' project called Old River Control. In the natural cycles of the Mississippi's deltaic plain, the time had come for the Mississippi to change course, to shift its mouth more than a hundred miles and go down the Atchafalaya, one of its distributary branches. The United States could not afford that--for New Orleans, Baton Rouge, and all the industries that lie between would be cut off from river commerce with the rest of the nation. At a place called Old River, the Corps therefore had built a great fortress--part dam, part valve--to restrain the flow of the Atchafalaya and compel the Mississippi to stay where it is. In Iceland, in 1973, an island split open without warning and huge volumes of lava began moving in the direction of a harbor scarcely half a mile away. It was not only Iceland's premier fishing port (accounting for a large percentage of Iceland's export economy) but it was also the only harbor along the nation's southern coast. As the lava threatened to fill the harbor and wipe it out, a physicist named Thorbjorn Sigurgeirsson suggested a way to fight against the flowing red rock--initiating an all-out endeavor unique in human history. On the big island of Hawaii, one of the world's two must eruptive hot spots, people are not unmindful of the Icelandic example. McPhee went to Hawaii to talk with them and to walk beside the edges of a molten lake and incandescent rivers. Some of the more expensive real estate in Los Angeles is up against mountains that are rising and disintegrating as rapidly as any in the world. After a complex coincidence of natural events, boulders will flow out of these mountains like fish eggs, mixed with mud, sand, and smaller rocks in a cascading mass known as debris flow. Plucking up trees and cars, bursting through doors and windows, filling up houses to their eaves, debris flows threaten the lives of people living in and near Los Angeles' famous canyons. At extraordinary expense the city has built a hundred and fifty stadium-like basins in a daring effort to catch the debris. Taking us deep into these contested territories, McPhee details the strategies and tactics through which people attempt to control nature. Most striking in his vivid depiction of the main contestants: nature in complex and awesome guises, and those who would attempt to wrest control from her--stubborn, often ingenious, and always arresting characters.
