Chongqing's Red Culture Campaign Xiao Mei,2017-07-06 Between 2009 and 2012, the city of Chongqing came into the national, and even international spotlight, as it became the geographical centre of the 'Singing Red, Smashing Black' campaign, and later the political storm that swept China. Chongqing's Red Culture Campaign drew an incredible amount of interest at the time, but speculation and prejudice has since blurred the public understanding of the sensational story that ties the campaign with the rise and fall of a political star, Bo Xilai. This book, therefore, seeks to study the nature of Chongqing's Red Culture Campaign, and the interaction between the political programme and the practices of its participants. Based on fieldwork conducted in Chongqing, it seeks to question whether the Red Culture Campaign was actually a return to Maoist revolutionary mass campaigning whilst examining the relationship between the CCP's political power and the lives of the ordinary people as reflected in the case of the campaign. Ultimately, it highlights that the campaign was not in fact a real Maoist mass movement. Although it followed the pre-existing model of past mass campaigns in China, containing a series of frequent and highly performative operations, Xiao Mei argues that it essentially demonstrated critical features of 'simulation'. By contributing to our understanding of the discrepancies between a designed political programme, and what it actually becomes when implemented on the ground, this book will be of use to students and scholars of Chinese Studies, Politics and Sociology.

Rethinking Chinese Socialist Theaters of Reform Xiaomei Chen,Tarryn L Chun,Siyuan Liu,2021-03-01 The profound political, economic, and social changes in China in the second half of the twentieth century have produced a wealth of scholarship; less studied however is how cultural events, and theater reforms in particular, contributed to the dynamic landscape of contemporary Chinese society. Rethinking Chinese Socialist Theaters of Reform fills this gap by investigating the theories and practice of socialist theater and their effects on a diverse range of genres, including Western-style spoken drama, Chinese folk opera, dance drama, Shanghai opera, Beijing opera, and rural theater. Focusing on the 1950s and '60s, when theater art occupied a prominent political and cultural role in Maoist China, this book examines the efforts to remake theater in a socialist image. It explores the unique dynamics between official discourse, local politics, performance practice, and audience reception that emerged under the pressures of highly politicized cultural reform as well as the off-stage, lived impact of rapid policy change on individuals and troupes obscured by the public record. This multidisciplinary collection by leading scholars covers a wide range of perspectives, geographical locations, specific research methods, genres of performance, and individual knowledge and experience. The richly diverse approach leads readers through a nuanced and complex cultural landscape as it contributes significantly to our understanding of a crucial period in the development of modern Chinese theater and performance.

The Columbia Anthology of Modern Chinese Drama Xiaomei Chen,2014-03-25 This condensed anthology reproduces close to a dozen plays from Xiaomei Chen's well-received original collection, The Columbia Anthology of Modern Chinese Drama, along with her critical introduction to the historical, cultural, and aesthetic evolution of twentieth-century Chinese spoken drama. Comprising representative works from the Republican era to postsocialist China, the book encapsulates the revolutionary rethinking of Chinese theater and performance that began in the late Qing dynasty and vividly portrays the uncertainty and anxiety brought on by modernism, socialism, political conflict, and war. Chosen works from 1919 to 1990 also highlight the formation of national and gender identities during a period of tremendous social, cultural, and political change in China and the genesis of contemporary attitudes toward the West. PRC theater tracks the rise of communism, juxtaposing ideals of Chinese socialism against the sacrifices made for a new society. Post-Mao drama addresses the nation's socialist legacy, its attempt to reexamine its cultural roots, and postsocialist reflections on critical issues such as nation, class, gender, and collective memories. An essential, portable guide for easy reference and classroom use, this abridgment provides a concise yet well-rounded survey of China's theatricality and representation of political life. The original work not only established a canon of modern Chinese drama in the West but also made it available for the first time in English in a single volume.

Acting the Right Part Xiaomei Chen,2002-01-31 Acting the Right Part is a cultural history of huaju (modern Chinese drama) from 1966 to 1996. Xiaomei Chen situates her study both in the context of Chinese literary and cultural history and in the context of comparative drama and theater, cultural studies, and critical issues relevant to national theater worldwide. Following a discussion of the marginality of modern Chinese drama in relation to other genres, periods, and cultures, early chapters focus on the dynamic relationship between theater and revolution. Chosen during the Cultural Revolution as the exclusive artistic vehicle to promote proletariats art, model theater raises important questions about the complex relationships between women, memory, nation/state, revolution, and visual culture. Throughout this study, Chen argues that dramatic norms inform both theatrical performance and everyday political behavior in contemporary China.

WTO, Globalization and China's Health Care System Xiaowan Wang,S. Zhang,Mei-Ling Wang,2007-08-06 This book considers the key sectors of China's health care system after its entrance into the WTO, including the pharmaceutical industry, health insurance services, and hospitals in terms of policies, legal framework and market potential. It offers a critical analysis of the impact of the WTO and globalization on China's health care.

Staging Chinese Revolution Xiaomei Chen,2016-11-08 Staging Chinese Revolution surveys fifty years of theatrical propaganda performances in China, revealing a dynamic, commercial capacity in works often dismissed as artifacts of censorship. Spanning the 1960s through the 2010s, Xiaomei Chen reads films, plays, operas, and television shows from an interdisciplinary and comparative perspective, demonstrating how, in a socialist state with capitalist characteristics, propaganda performance turns biographies, memoirs, and war stories into mainstream ideological commodities, legitimizing the state and its right to rule. Analyzing propaganda

performance also brings contradictions and inconsistencies to light that throw common understandings about propaganda's purpose into question. Chen focuses on revisionist histories that stage the lives of the founding fathers of the Communist Party, such as Chen Duxiu, Mao Zedong, and Deng Xiaoping, and the engaging mix of elite and ordinary characters that animate official propaganda in the private and public sphere. Taking the form of personal memories and representing star and youth culture and cyberspace, contemporary Chinese propaganda appeals through multiple perspectives, complicating relations among self, subject, agent, state building, and national identity. Chen treats Chinese performance as an extended form of political theater confronting critical issues of commemoration, nostalgia, state rituals, and contested history. It is through these reenactments that three generations of revolutionary leaders loom in extraordinary ways over Chinese politics and culture.

Event Attendance Prediction in Social Networks Xiaomei Zhang, Guohong Cao, 2022-01-01 This volume focuses on predicting users' attendance at a future event at specific time and location based on their common interests. Event attendance prediction has attracted considerable attention because of its wide range of potential applications. By predicting event attendance, events that better fit users' interests can be recommended, and personalized location-based or topic-based services related to the events can be provided to users. Moreover, it can help event organizers estimating the event scale, identifying conflicts, and help manage resources. This book first surveys existing techniques on event attendance prediction and other related topics in event-based social networks. It then introduces a context-aware data mining approach to predict the event attendance by learning how users are likely to attend future events. Specifically, three sets of context-aware attributes are identified by analyzing users' past activities, including semantic, temporal, and spatial attributes. This book illustrates how these attributes can be applied for event attendance prediction by incorporating them into supervised learning models, and demonstrates their effectiveness through a real-world dataset collected from event-based social networks.

The Cancer Crisis in Appalachia Nathan L. Vanderford, Lauren Hudson, Chris Prichard, 2020-04-07 Kentucky has more cancer diagnoses and cancer-related deaths than any other state in the nation, and most of these cases are concentrated in the fifty-four counties that constitute the Appalachian region of the commonwealth. These high rankings can be attributed to factors such as elevated smoking rates, unhealthy eating habits, lower levels of education, and limited access to health care. What is lost in the statistics is just how life-changing cancer can be—something that editors Nathan L. Vanderford, Lauren Hudson, and Chris Prichard have endeavored to address. The Cancer Crisis in Appalachia features essays written by a group of twenty high school and five undergraduate students, all of whom are residents of Kentucky's Appalachian region and are participants in the University of Kentucky Markey Cancer Center's Appalachian Career Training in Oncology (ACTION) program, which is funded by the National Cancer Institute's Youth Enjoy Science Program. These authentic and candid student essays detail the effects of cancer diagnoses and deaths on individuals, families, friends, and communities, and proclaim these cases as more than nameless statistics. The authors shed light on personal cancer stories in hopes of inspiring readers to avoid cancer-risk behaviors, get involved with cancer-prevention initiatives, give generously, and uplift cancer patients and their loved ones.

The Joy Luck Club Amy Tan, 2006-09-21 “The Joy Luck Club is one of my favorite books. From the moment I first started reading it, I knew it was going to be incredible. For me, it was one of those once-in-a-lifetime reading experiences that you cherish forever. It inspired me as a writer and still remains hugely inspirational.” –Kevin Kwan, author of *Crazy Rich Asians* Amy Tan's beloved, New York Times bestselling tale of mothers and daughters, now the focus of a new documentary *Amy Tan: Unintended Memoir* on Netflix Four mothers, four daughters, four families whose histories shift with the four winds depending on who's saying the stories. In 1949 four Chinese women, recent immigrants to San Francisco, begin meeting to eat dim sum, play mahjong, and talk. United in shared unspeakable loss and hope, they call themselves the Joy Luck Club. Rather than sink into tragedy, they choose to gather to raise their spirits and money. To despair was to wish back for something already lost. Or to prolong what was already unbearable. Forty years later the stories and history continue. With wit and sensitivity, Amy Tan examines the

sometimes painful, often tender, and always deep connection between mothers and daughters. As each woman reveals her secrets, trying to unravel the truth about her life, the strings become more tangled, more entwined. Mothers boast or despair over daughters, and daughters roll their eyes even as they feel the inextricable tightening of their matriarchal ties. Tan is an astute storyteller, enticing readers to immerse themselves into these lives of complexity and mystery.
