*Rise of the Blademaster* Brent Batla, 2021-10-25 Many years have passed since the dark tide of violent and malevolent creatures spilled into the realm from the ancient portal that should never have been opened. Adamar, an elderly but legendary elven swordsman sent to track the incursion, had found a small frightened girl, Lauriel Valendril, hiding in the shattered remnants of her destroyed elven village. After taking her in as his own, he finds that her traumatic experience creates an unrivaled ambition to learn to protect herself and others, and he begins to train her in the ancient and secretive elven fighting style of the Andulari. Through fierce determination and unrelenting practice, Lauriel unequivocally becomes one of his best students and masters the graceful but deadly technique at a very young age. Hearing murmurs of the ancient evil re-emerging, and sensing that his time to stand and fight has passed, Adamar gives Lauriel a gift that has been hidden from the realm for many ages—Isilmwé, an ancient blade of power, and with it, the responsibility to unlock the true power of the blade and defend the realm. The defenses of the realm quickly fall one by one and together with a wizard, warlock, healer, and fighter, Lauriel pushes forward on a quest to close the portal before all is lost. What began as a pursuit to avenge her family, ultimately turns into a battle for the very survival of the realm—a battle that Lauriel has trained her entire life to fight. **School for Sidekicks** Kelly McCullough, 2015-08-04 Evan Quick, *Hero's Log*, May the 25th... and darn it - I just can't do this. I'm never going to be a Mask. Get over it Evan. Evan Quick has spent his whole life dreaming of becoming a hero. Every morning he wakes up and runs through a checklist of test to see if he's developed powers over night, and every day it is the same thing - nothing. No flying, no super strength, no heat rays or cold beams. No invulnerability - that always hurt to check - no telepathy, no magic. Not even the ability to light a light bulb without flipping a switch. And now, he's finally ready to give up. But then, the class field trip to the Mask Museum is interrupted by a super villain attack, and Evan somehow manages to survive a death ray. Even better, Evan's favorite Mask, Captain Commanding, shows up to save them all -- and when things go very wrong, it's Evan who finds the strength to come to Captain Commanding's rescue. Yet the hero's reception Evan is expecting never happens. Before he even gets the chance to say hello, Evan is bundled away to The Academy, an institution derisively called The School for Sidekicks by its students. Forced to take classes like Banter Basics and Combat with Dinnerware, while being assigned as an 'apprentice' to Foxman - a Mask widely considered a has-been -- Evan starts to worry that he'll never be able to save the day...

**The Soldier & I** Lalit Puri, 2017-05-27 The army trucks were waiting at the railway station. The movement control officer's armband was glittering and sparkling from far off, and as the word load shot out of his mouth, I was loaded onto the truck along with my baggage. This consisted of white shorts, T-shirts, and PT shoes but not forgetting the carefully ironed necktie that was also mentioned in the bring-with-you list. My God! Was I ever so proud to find a Batman at my disposal for running errands and for polishing my shoes and maintaining my clothes! He, who suddenly snatched my hand baggage and kept calling me Sahib, I just could not decide whether I was his pride or he mine. I was escorted into the barracks where about twenty odd candidates were present--with our beds just about three feet apart from each other. A bedside table and a carefully kept table lamp also formed a part of the furniture provided. It is another matter that I spent three whole minutes trying to switch on the darned thing called a lamp but alas found a fused bulb. Out of general curiosity, I happened to look around just to find about three table lamps functioning and two overhead bulbs, which together shed just enough light to find your zipper, or from banging into each other. In the evening we were all lead to the Dining Hall where we were served food by bearers on tables but of

course covered with the same linen used at the previous meals. Slept the night, waking only with an occasional bite from the bed bugs or the lovely musical tone of the mosquitoes (as big as houseflies). Of course, with a general complaint lodged, we managed to get our mosquito nets repaired though we ourselves had to spend the better of four hours patching the holes. For the next three days, we were made to do all types of monkey tricks and Tarzan jumps, from one tree to another. Then there was the jigsaw puzzle of English words as also the picture slides where one had to use ones imagination to the utmost. Next the psychologists kept us busy exercising our minds over whether the egg came first or the chicken or, for example, what happened when Tarzan jumped from the hilltop. Someone in the crowd said, 'Oh Khud', I promptly intervened, No! Tarzan said, 'Oh Khud! Then Oh Thud! The smile of the examinees widened still more. This continued for forty seven and a half minutes(a record set by me as told to me later) in any previous selection interview and I was thrown into the hands of the Army Doctors to check if I had two eyes, one nose, two ears, thirty two teeth and one brain and all intact. The doctors seven of them nodded their heads in approval and made me understand well, that even they too, were smiling. The only shortcoming noticed in me though, was that I was a little underweight. I pledged and took vows like a child in front of an angry mother to put on a few extra kilos and bade bye to them all, smiling. I was selected.

**Roman Military Equipment from the Punic Wars to the Fall of Rome, second edition** M. C. Bishop, J. C. Coulston, 2006-04-22 Rome's rise to empire is often said to have owed much to the efficiency and military skill of her armies and their technological superiority over barbarian enemies. But just how 'advanced' was Roman military equipment? What were its origins and how did it evolve? The authors of this book have gathered a wealth of evidence from all over the Roman Empire's excavated examples as well as pictorial and documentary sources to present a picture of what range of equipment would be available at any given time, what it would look like and how it would function. They examine how certain pieces were adopted from Rome's enemies and adapted to particular conditions of warfare prevailing in different parts of the Empire. They also investigate in detail the technology of military equipment and the means by which it was produced, and discuss wider questions such as the status of the soldier in Roman society. Both the specially prepared illustrations and the text have been completely revised for the second edition of this detailed and authoritative handbook, bringing it up to date with the very latest research. It illustrates each element in the equipment of the Roman soldier, from his helmet to his boots, his insignia, his tools and his weapons. This book will appeal to archaeologists, ancient and military historians as well as the generally informed and inquisitive reader.

**Grunts** Mary Gentle,2013-08-29 What is an orc? An orc is an 18 stone fighting machine, made of muscle, hide, talon and tusk, with a villainous disposition and a mean sense of humour. And, of course, an orc is a poor dumb grunt - the much abused foot soldier of the Evil Horde of Darkness. The usual last battle of Good against Evil is about to begin. Orc Captain Ashnak and his war-band know exactly what they can expect. The forces of Light are outnumbered, full of headstrong heroes devoid of tactics - but the Light's still going to win. Orcs - the sword fodder in the front line - will die by the thousands. Life's a bitch.

*The Outlaw of Torn* Edgar Rice Burroughs,2018-01-19 Here is a story that has lain dormant for seven hundred years. At first it was suppressed by one of the Plantagenet kings of England. Later it was forgotten. I happened to dig it up by accident. The accident being the relationship of my wife's cousin to a certain Father Superior in a very ancient monastery in Europe. He let me pry about among a quantity of mildewed and musty manuscripts and I came across this. It is very interesting -- partially since it is a bit of hitherto unrecorded history, but principally from the fact that it records the story of a most remarkable revenge and the adventurous life of its innocent victim -- Richard, the lost prince of England. In the retelling of it I have left out most of the history. What interested me

was the unique character about whom the tale revolves -- the visored horseman who -- but let us wait until we get to him. It all happened in the thirteenth century, and while it was happening it shook England from north to south and from east to west; and reached across the channel and shook France...
