You Are Never Alone Kelsey,2019-04-15 A lyrical and scientific exploration of the ways humans are supported by nature

Inside the Painter's Studio Joe Fig,2012-06-19 Inside an art gallery, it is easy to forget that the paintings there are the end products of a process involving not only creative inspiration, but also plenty of physical and logistical details. It is these cruder, more mundane aspects of a painter's daily routine that motivated Brooklyn artist Joe Fig to embark almost ten years ago on a highly unorthodox, multilayered exploration of the working life of the professional artist. Determined to ground his research in the physical world, Fig began constructing a series of diorama-like miniature reproductions of the studios of modern art's most legendary painters, such as Jackson Pollock and Willem de Kooning. A desire for firsthand references led Fig to approach contemporary artists for access to their studios. Armed with a camera and a self-made Artist's Questionnaire, Fig began a journey through the workspaces of some of today's most exciting contemporary artists.

Harry Potter: A Pop-Up Guide to Hogwarts Matthew Reinhart,2018-10-23 A 3-D masterpiece celebrating Harry Potter's Hogwarts School of Witchcraft and Wizardry from New York Times best-selling pop-up engineer Matthew Reinhart. Harry Potter: A Pop-Up Guide to Hogwarts is an exhilarating, interactive guide to the iconic school of witchcraft and wizardry. This book features spectacular pop-up recreations of key locations inside and outside Hogwarts castle, and it opens flat to form a pop-up map of the castle and its grounds—including the Quidditch pitch, the Forbidden Forest, and beyond. Each pop includes insightful text about Hogwarts as seen in the films, making for a must-have collectible for fans of the wizarding world. You Are Stardust Elin Kelsey,2017-08-10 People are nature. From the water we drink to the trees we climb, we are connected to the natural world in big and surprising ways. With simple, poetic text, and exquisite artwork, *You Are Stardust* introduces kids to these connections - sparking their imaginations and starting conversations. Combining the ideas of environmental author and educator Elin Kelsey with inventive, three-dimensional dioramas by artist Soyeon Kim, this remarkable picture book reveals ties that are often sensed, yet seldom explained. Children will learn that the salt in their body is the same as the salt in the ocean, that they learned to speak in the same way that baby birds do - by copying their parents, and that elephants, bats and whales make friends, just like they do. In a world dominated by technology, never have these connections between people and nature been more worth exploring.

Mixed-Media Dollhouses Tally Oliveau,Julie Molina,2011-01-09 This book takes the artistic approach of assemblage and collage, and combines it with the long-loved tradition of making doll houses--but these doll houses are anything but traditional! Begun as an artistic challenge between a group of talented friends, these mixed-media doll houses include beautiful castles, undersea fantasy-lands, gothic attics, inspiring tree houses and much more. Authors Tally Oliveau and Julie Molina share a host of interesting alteration techniques while showing readers how to construct beautiful, fantasy doll houses. Readers learn to how to construct or repurpose found boxes into rooms and houses, how to decorate interior surfaces, how to build miniature furnishings, how to make their own paper dolls, and how to embellish their houses using a variety of imaginative materials.

Flames Beyond Gettysburg Scott L. Mingus,2011 The Gettysburg Campaign has been examined in detail from nearly every aspect but one: the key role played by Richard Ewell's Second Corps during the final days in June. This is the first in-depth study of these crucial summer days that not only shaped the course of the Gettysburg Campaign, but altered the course of our nation's history.

Fall of Giants Ken Follett,2011-08-30 Ken Follett's magnificent historical epic begins as five interrelated families move through the momentous dramas of the First World War, the Russian Revolution, and the struggle for women's suffrage. A thirteen-year-old Welsh boy enters a man's world in the mining pits. . . . An American law student rejected in love finds a surprising new career in Woodrow Wilson's White House. . . . A housekeeper for the aristocratic Fitzherberts takes a fateful step above her station, while Lady Maud Fitzherbert herself crosses deep into forbidden territory when she falls in love with a German spy. . . . And two orphaned Russian brothers embark on radically different paths when their plan to emigrate to America falls afoul of war, conscription, and revolution. From the dirt and danger of a coal mine to the glittering chandeliers of a palace, from the corridors of power to the bedrooms of the mighty, *Fall of Giants* takes us into the inextricably entangled fates of five families—and into a century that we thought we knew, but that now will never seem the same again. . . .

Wild Ideas Elin Kelsey,2019-02-28 *Wild Ideas* looks deep into the forests, skies and oceans to explore how animals solve problems. Whether it's weaving a safe place to rest and reflect, blowing a fine net of bubbles to trap fish, or leaping boldly into a new situation, the animals featured (including the orangutan, humpback whale and gibbon) can teach us a lot about creative problem solving tools and strategies. This book uses lyrical text grounded in current science alongside wonderfully detailed art to present problems as doorways to creative thinking. *Wild Ideas* encourages an inquiry-based approach to learning, inviting readers to indulge their sense of wonder and curiosity by observing the natural world, engaging with big ideas and asking questions

Tin Heart Shivaun Plozza,2019-03-12 Bestselling author of *All the Bright Places* Jennifer Niven calls emerging talent Shivaun Plozza's charming and romantic second YA novel, *Tin Heart*, "from cover to cover swoon-worthy, moving, deep, and funny"! When Marlowe gets a heart transplant and a second chance at life, all she wants to do is to thank her donor's family. Maybe then she can move on. Maybe then she'll discover who she is if she's no longer The Dying Girl. But with a little brother who dresses like every day is Halloween, a vegan warrior for a mother, and an all-out war with the hot butcher's apprentice next door, Marlowe's life is already pretty complicated. And her second chance is about to take an unexpected turn...

Son of Evil Street Victor Torres,Don Wilkerson,1977

The Mother Who Stayed Laura Furman,2011-02-01 In nine strikingly perceptive stories set miles and decades apart, Laura Furman mines the intricate, elusive lives of mothers and daughters—and of women who long for someone to nurture. Meet Rachel, a young girl desperate for her mother's unbridled attention, knowing that soon she'll have to face the world alone; Marian, a celebrated novelist who betrays the one person willing to take care of her as she is dying—her unclaimed "daughter"; and Dinah, a childless widow uplifted by the abandoned, century-old diaries of Mary Ann, a mother of eleven. *The Mother Who Stayed* is an homage to the timeless, primal bond between mother and child and a testament that the relationships we can't define can be just as poignant, memorable, and inspiring as those determined by blood. Tender and insightful, Furman's stories also bravely confront darker realities of separation and regret, death and infidelity—even murder. Her vividly imagined characters and chiseled prose close the gap between generations of women as they share their wisdom almost in chorus: Although our lives will end, we must cherish the sanctity of each day and say, as did Mary Ann ages ago, "I done what I could."

English Pastoral James Rebanks,2021-09-02 As a boy, James Rebanks's grandfather taught him to work the land the old way. Their family farm in the Lake District hills was part of an ancient landscape- a patchwork of crops and meadows, of pastures grazed with livestock, and hedgerows teeming with wildlife. And yet, by the time James inherited the farm, it was barely recognisable. The men and women had vanished from the fields; the old stone barns had crumbled; the skies had emptied of birds and their wind-blown song. *English Pastoral* is the story of an inheritance- one that affects us all. It tells of how rural landscapes around the world were brought close to collapse, and the age-old rhythms of work, weather, community and wild things were lost. And yet this elegy from the Lake District fells is also a song of hope- how, guided by the past, one farmer began to salvage a tiny corner of England that was now his,

doing his best to restore the life that had vanished and to leave a legacy for the future. This is a book about what it means to have love and pride in a place, and how, against all the odds, it may still be possible to build a new pastoral- not a utopia, but somewhere decent for us all.

Edge of Extinction #1: The Ark Plan Laura Martin,2016-05-10 Jurassic World meets Dawn of the Planet of the Apes in this epic new middle grade series full of heart-pounding action and breathtaking chills! Amazing adventures! raves Brightly.com as they recommend Edge of Extinction as a 2016 Holiday Gift for Tween Readers. One hundred and fifty years ago, the first dinosaurs were cloned. Soon after, they replaced humans at the top of the food chain. The only way to survive was to move into underground compounds. . . . Five years ago, Sky Mundy’s father vanished from North Compound without a trace. Now she has just stumbled on a clue that not only suggests his disappearance is just the tip of an even larger mystery, but also points directly to the surface. To find her dad—and possibly even save the world—Sky and her best friend, Shawn, must break out of their underground home and venture topside to a land reclaimed by nature and ruled by dinosaurs. Perfect for fans of Brandon Mull, Lisa McMann, and Rick Riordan, this exhilarating debut novel follows two courageous friends who must survive in a lost world that’s as dangerous as they’ve always feared but also unlike anything they could ever have imagined.

Eyes as Big as Plates Karoline Hjorth,Riitta Ikonen,2017 Eyes as Big as Plates is an ongoing collaborative photography and sculpture project by Norwegian-Finnish artist duo Karoline Hjorth and Riitta Ikonen (both born 1980). Initially a play on characters from Nordic folklore, the series has evolved into a search for the human connection to nature. Hjorth & Ikonen work together throughout the process with their complementary skills (Karoline is the photographer in the duo, while Riitta works mainly with the creation of the wearable sculptures). Since 2011 the duo has collaborated with retired farmers, fishermen, zoologists, plumbers, opera singers, housewives, artists and academics. Each character inhabits the landscape in a wearable sculpture made from natural materials. The book features portraits, field notes, essays and behind-the-scenes stories from many of the project's 60 shoots. With international press coverage in the Huffington Post, the BBC, TIME LightBox, Life and elsewhere, plus a highly successful Kickstarter campaign attracting a large American audience, the series has developed into a project with universal appeal.

New England Forests Through Time David R. Foster,John F. O'Keefe,2000 Over the past three hundred years New England's landscape has been transformed. The forests were cleared; the land was farmed intensively through the mid-nineteenth century and then was allowed to reforest naturally as agriculture shifted west. Today, in many ways the region is more natural than at any time since the American Revolution. This fascinating natural history is essential background for anyone interested in New England's ecology, wildlife, or landscape. In New England Forests through Time these historical and environmental lessons are told through the world-renowned dioramas in Harvard's Fisher Museum. These remarkable models have introduced New England's landscape to countless visitors and have appeared in many ecology, forestry, and natural history texts. This first book based on the dioramas conveys the phenomenal history of the land, the beauty of the models, and new insights into nature.
