Street Poison Justin Gifford,2015-08-04 The first and definitive biography of one of America's bestselling, notorious, and influential writers of the twentieth century: Iceberg Slim, né Robert Beck, author of the multimillion-copy memoir *Pimp* and such equally popular novels as *Trick Baby* and *Mama Black Widow*. From a career as a, yes, ruthless pimp in the '40s and '50s, Iceberg Slim refashioned himself as the first and still the greatest of street lit masters, whose vivid books have made him an icon to such rappers as Ice-T, Jay-Z, and Snoop Dogg and a presiding spirit of blaxploitation culture. You can't understand contemporary black (and even American) culture without reckoning with Iceberg Slim and his many acolytes and imitators. Literature professor Justin Gifford has been researching the life and work of Robert Beck for a decade, culminating in *Street Poison*, a colorful and compassionate biography of one of the most complicated figures in twentieth-century literature. Drawing on a wealth of archival material—including FBI files, prison records, and interviews with Beck, his wife, and his daughters—Gifford explores the sexual trauma and racial violence Beck endured that led to his reinvention as Iceberg Slim, one of America's most infamous pimps of the 1940s and '50s. From pimping to penning his profoundly influential confessional autobiography, *Pimp*, to his involvement in radical politics, Gifford's biography illuminates the life and works of one of American literature's most unique renegades.

Get Up Mum Justin Heazlewood,2018-05-21 It's 1992 in Burnie, Tasmania and 12-year-old Justin lives alone with his mum. When she is well, Mum is perfect. She knows he likes his carrots raw and his toast cooled, and she knows how to sooth his growing pains. But when she is sick she cries uncontrollably and never gets out of bed. High school is on the horizon and Justin is bursting with adolescent energy. But his mum's mental illness hangs over him like a shadow and he feels the need to grow up fast. Told with youthful exuberance, *Get Up Mum* is a wildly endearing, entertaining and incredibly powerful memoir about love, family, and coming-of-age.

It Never Ends Tom Scharpling,2021-07-06 From cult comedy icon and beloved radio host Tom Scharpling, an inspiring, funny, and thoughtful memoir *It Never Ends* is Tom Scharpling's harrowing memoir of his coming of age, a story he has never told before. It's the heartbreaking account of his attempt at suicide, two stays in a mental hospital, and the memory-wiping electroshock therapy that saved his life. After his rehabilitation, Scharpling committed himself to reinvention through the world of comedy. In this book he will lift the curtain on the turmoil that still follows him, despite all of his accolades and achievements. In the vein of candid memoirs from comedians like Mike Birbiglia's *Sleepwalk with Me* and Norm Macdonald's *Based on a True Story*, *It Never Ends* is a revealing book by a beloved comedy icon.

What Video Games Have to Teach Us About Learning and Literacy. Second Edition James Paul Gee,2014-12-02 James Paul Gee begins his classic book with I want to talk about video games--yes, even violent video games--and say some positive things about them. In this revised edition of *What Video Games Have to Teach Us About Learning and Literacy*, new games like *World of Warcraft* and *Half Life 2* are evaluated and theories of cognitive development are expanded. Gee looks at major cognitive activities including how individuals develop a sense of identity, how we grasp meaning, how we evaluate and follow a command, pick a role model, and perceive the world.

Shape Jordan Ellenberg, 2021-05-25 An instant New York Times Bestseller! "Unreasonably entertaining . . . reveals how geometric thinking can allow for everything from fairer American elections to better pandemic planning." —The New York Times From the New York Times bestselling author of *How Not to Be Wrong*—himself a world-class geometer—a far-ranging exploration of the power of geometry, which turns out to help us think better about practically everything. How should a democracy choose its representatives? How can you stop a pandemic from sweeping the world? How do computers learn to play Go, and why is learning Go so much easier for them than learning to read a sentence? Can ancient Greek proportions predict the stock market? (Sorry, no.) What should your kids learn in school if they really want to learn to think? All these are questions about geometry. For real. If you're like most people, geometry is a sterile and dimly remembered exercise you gladly left behind in the dust of ninth grade, along with your braces and active romantic interest in pop singers. If you recall any of it, it's plodding through a series of miniscule steps only to prove some fact about triangles that was obvious to you in the first place. That's not geometry. Okay, it is geometry, but only a tiny part, which has as much to do with geometry in all its flush modern richness as conjugating a verb has to do with a great novel. *Shape* reveals the geometry underneath some of the most important scientific, political, and philosophical problems we face. Geometry asks: Where are things? Which things are near each other? How can you get from one thing to another thing? Those are important questions. The word geometry comes from the Greek for measuring the world. If anything, that's an undersell. Geometry doesn't just measure the world—it explains it. *Shape* shows us how.

Plato's 'Republic': An Introduction Sean McAleer, 2020-11-09 It is an excellent book - highly intelligent, interesting and original. Expressing high philosophy in a readable form without trivialising it is a very difficult task and McAleer manages the task admirably. Plato is, yet again, intensely topical in the chaotic and confused world in which we are now living. Philip Allott, Professor Emeritus of International Public Law at Cambridge University This book is a lucid and accessible companion to Plato's Republic, throwing light upon the text's arguments and main themes, placing them in the wider context of the text's structure. In its illumination of the philosophical ideas underpinning the work, it provides readers with an understanding and appreciation of the complexity and literary artistry of Plato's Republic. McAleer not only unpacks the key overarching questions of the text - What is justice? And Is a just life happier than an unjust life? - but also highlights some fascinating, overlooked passages which contribute to our understanding of Plato's philosophical thought. Plato's 'Republic': An Introduction offers a rigorous and thought-provoking analysis of the text, helping readers navigate one of the world's most influential works of philosophy and political theory. With its approachable tone and clear presentation, it constitutes a welcome contribution to the field, and will be an indispensable resource for philosophy students and teachers, as well as general readers new to, or returning to, the text.

The Gentleman's Companion Charles Henry Baker, ONE COMFORTABLE fact gleaned from travel in far countries was that regardless of race, creed or inner metabolisms, mankind has always created varying forms of stimulant liquid—each after his own kind. Prohibitions and nations and kings depart, but origin of such pleasant fluid finds constant source. Fermentation and the art of distilling liquors over heat became good form about the time our hairy forefathers began sketching mastodon and sabretooth tiger on their cave foyers. Elixir of fruit juice, crushed root and golden honey date back to the dawn of time and far beyond the written word, to when the old gods were young and stalked abroad upon business with goddesses, when Pan piped the dark forest aisles and Centaurs pawed belly deep in fern. The Phoenicians, the Pharaohs, the first agrarian Chinese, all ancient races on earth buried jars of wine or spirits with their dead alongside the money and food and weapons and wives, so the departed might find reasonable comfort and happiness in the hereafter. Go to Africa and the poorest Kaffir cheers life with—and for all of us he can have it—warm millet beer. We just returned from Mexico and can affirm that our Yucatecan most certainly ripped the bud out of his Agave Americana and drank the fermented pulque—a fluid which tastes faintly like mildewed donkeys—centuries before Montezuma's parents journeyed southward to the Valley of Cortez. We found additional evidence after three voyages to Zamboanga in Philippine Mindanao—where the monkeys have no tails—that the more agile Moro shinnied up his cocopalms and slashed the flower bud with his bolo; caught the saccharine drip—and an astounding menagerie of assorted squirt-ants—in a fermentation joint of bamboo, long before the Spanish Inquisition or Admiral Dewey steamed into Manila Bay. In Samoa the loveliest tribal virgin chews the kava root for the ceremonial bowl when your yacht sails into her lagoon, and the resultant fluid furnishes a sure ticket to amiable paralysis of the lower limbs. China and Japan have for centuries had their rice wine and saki. The Russian made his vodka from cereals, the blond Saxon his honey mead, the Hawaiian his okolehao from roots or fruits. We've been often to the Holy Land and have flown across to Transjordan and the rose-red city of Petra, and can bear witness that those grapes Moses the Lawgiver found in the Promised Land weren't all of a type suitable for raisins. To any reasonable mind this past and present testimony of mankind through the ages would indicate that some sort of fluid routine will continue for many centuries to come. With adventurers like Marco Polo, Columbus, Tavernier and Magellan, there was a vast national introduction and interchange of beverages. For better or worse both conquistador and native sampled, discarded or adapted an incredible addition of liquid blends and formulae. Through rigour or amiability of climate, through physical, racial and psychological characteristics of the individuals themselves, from the cocoon of this pristine field work there emerged an equally incredible list of drinks—mixed or otherwise—which for one reason or another have stood the test of time and taste and gradually have become set in form. They have become traditional, accepted in ethical social intercourse. And it is with the more civilized family of these that we are concerned in this volume; not the pulques and warm mealie beer or fermented Thibetan yak milk.
