I'm a Gay Wizard V.S. Santoni,2019-10-29 You try magic once and it sticks to you like glitter glue . . . When Johnny and his best friend, Alison, pass their summer holidays dabbling in magic, they never expect it to have consequences. Sure, it'd be great if they could banish bullies or change their lives for the better, and what harm could come from lighting a few candles and chanting a few spells? When they cause an earthquake that shakes Chicago to its core, they draw the attention of the Marduk Institute, an age-old organization dedicated to fostering the talents of young wizards. Once there, Johnny and Alison are told they can never return to their previous lives, and must quickly adapt to a new world shimmering with monsters, fraternities, and cute boys like Hunter and Blake. But when they're pulled into an epic, supernatural fight that could cost them both their lives, Johnny and Alison find strength they never knew they had as they battle for love, acceptance, and their own happy ending—all with the help of a little magic.

Empire of Signs Roland Barthes,1982 This anthology by Roland Barthes is a reflection on his travels to Japan in the 1960s. In twenty-six short chapters he writes about his encounters with symbols of Japanese culture as diverse as pachinko, train stations, chopsticks, food, physiognomy, poetry, and gift-wrapping. He muses elegantly on, and with affection for, a system altogether detached from our own. For Barthes, the sign here does not signify, and so offers liberation from the West's endless creation of meaning. Tokyo, like all major cities, has a center--the Imperial Palace--but in this case it is empty, both forbidden and indifferent ... inhabited by an emperor whom no one ever sees. This emptiness of the sign is pursued throughout the book, and offers a stimulating alternative line of thought about the ways in which cultures are structured.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

White Pearl Anchuli Felicia King,2022-11-08 It's just a fun ad. Now the whole world is going crazy. In Singapore, Clearday(TM) has developed from a small startup into a leading international cosmetic brand in less than a year. But when a draft of the company's latest skin cream advert is leaked, the video goes viral globally for all the wrong reasons. YouTube views are in the thousands and keep climbing; anger is building on social media; and journalists are starting to cover the story. This is an international PR nightmare; the company cannot be seen to be racist, they've got to get it taken down before America wakes up.

THE SONG IN THE SHADOW Phil Delisle,2020-12-22 To make the painting in reverse: begin with the complete image and slowly subtract from it. When there is enough room, begin to alternate the contents with whatever is around you. When the painting is full again, subtract more from it. Grab more stuff. How does it work when you put new things in there? Keep changing the parts until it functions according to its own logic.

Vladislav Shapovalov: Image Diplomacy ,2021-08-03 This publication documents Vladislav Shapovalov's long-term undertaking 'Image Diplomacy', consisting of a film and a series of installations focused on exhibitions as a political medium. The project narrates the battle waged between two ideological blocs, the USSR and the United States, in the field of 'exhibition diplomacy' during the Cold War and gives insight into the unwritten history of Soviet soft power and socialist internationalism. It compares forgotten archival materials left behind in Europe from Soviet photographic 'kit' exhibitions and films with the American Family of Man exhibition, on display today at Luxembourg's Clervaux Castle and included in the UNESCO Register. Interplays between exhibition histories, geopolitics, and art practice are further examined in the contributions by film scholar Alex Fletcher and curator and researcher Gudrun Ratzinger; a conversation between Shapovalov and curator Emanuele Guidi; and an essay by curator and researcher Andrei Siclodi.00Exhibition: Ar/ge kunst, Bolzano, Italy (02.12.2017-10.02.2018).
