Young House Love Sherry Petersik, John Petersik, 2015-07-14 This New York Times bestselling book is filled with hundreds of fun, deceptively simple, budget-friendly ideas for sprucing up your home. With two home renovations under their (tool) belts and millions of hits per month on their blog YoungHouseLove.com, Sherry and John Petersik are home-improvement enthusiasts primed to pass on a slew of projects, tricks, and techniques to do-it-yourselfers of all levels. Packed with 243 tips and ideas—both classic and unexpected—and more than 400 photographs and illustrations, this is a book that readers will return to again and again for the creative projects and easy-to-follow instructions in the relatable voice the Petersiks are known for. Learn to trick out a thrift-store mirror, spice up plain old roller shades, hack your Ikea table to create three distinct looks, and so much more.

The Paper Playhouse Katrina Rodabaugh, 2015 Offers different arts and crafts projects parents and their children can create together, including sculpture, printmaking, bookbinding, and collage.

Modules on Developing Life Skills of Four to Five Year Old Children Using Digital Stories and Activities Priscilla Angelique Pegollo, MAEd,2022-03-18 The concept of the modules is based on the author's observations in the early education system that is failing to deliver the outcomes needed to advance the young learner's social skills and development. This scenario will, later on, affect the education opportunities in the future which will contribute to the country's economic growth. Thus, the successful performance in preschool needs to be supported by life skills and values which should be fostered by our education systems. Teaching life skills with hands-on activities is a bit behind because most of the preschool curriculum are merely focused on academics in preparation for Grade 1. The modules are designed to help teachers, parents, school, and education in general to teach life skills through digital storytelling and facilitate hands-on and digital activities in virtual learning. The format of the modules' activities is anchored on the play-based and learner-centered teaching method to immerse the preschool students in fun, meaningful learning experiences. After the discussion, students will perform the oral activity to practice how they express their thoughts and feelings or insights about the lesson. The hands-on activity and games will be the students' application of the lesson they learned.
