The Substance of Style Virginia Postrel, 2009-03-17 Whether it's sleek leather pants, a shiny new Apple computer, or a designer toaster, we make important decisions as consumers every day based on our sensory experience. Sensory appeals are everywhere, and they are intensifying, radically changing how Americans live and work. The twenty-first century has become the age of aesthetics, and whether we realize it or not, this influence has taken over the marketplace, and much more. In this penetrating, keenly observed book, Virginia Postrel makes the argument that appearance counts, that aesthetic value is real. Drawing from fields as diverse as fashion, real estate, politics, design, and economics, Postrel deftly chronicles our culture's aesthetic imperative and argues persuasively that it is a vital component of a healthy, forward-looking society. Intelligent, incisive, and thought-provoking, *The Substance of Style* is a

groundbreaking portrait of the democratization of taste and a brilliant examination of the way we live now.

The Thomas the Tank Engine Man Brian Sibley, 2016-02-19 The Reverend W. Awdry was a devoted pastor and family man, who adored trains. He started to tell stories about Thomas the Tank Engine and his friends, in order to entertain his son Christopher. Those stories have gone on to entertain generations of children around the world. Awdry was a man of courage, who believed that you should live by certain rules. He built his imaginary world on the island of Sodor on these rules, and showed how those who transgressed them would always be 'punished, but never scrapped', as he said. A convinced pacifist, he was thrown out of one curacy and denied another during the Second World War, because of his beliefs. Never afraid to fight for what he thought was right, he argued with his publishers and his illustrators, demanding the best for his favourite creations - the trains and their friends.
