Population Biology and Evolution K. Wöhrmann,V. Löschcke,2012-12-06 This volume contains the papers presented at a symposium on population biology sponsored by the Deutsche Forschungsgemeinschaft. It was . held at the guest house of the University of Tübingen at Oberjoch on May 15-19, 1983. Prior to this conference a small group of European biologists had met in Berlin (June 1981) and Pavia (September 1982) to discuss research problems on the borderline between population genetics and evolutionary ecology. From the contributions and discussions at these meetings it became evident that the unification of approaches to evolutionary problems in population genetics and evolutionary ecology has not yet been successful and requires further efforts. It was the consensus that a larger symposium with international participation would be helpful to confront and discuss the different approaches to population biology in order to assess where we are now and where we should be going. As a result an organizational committee was formed (F. Christiansen, S. Jayakar, V. Loeschcke, W. Scharloo, and K. Wöhrmann) to identify topics that seemed, at least to them, to be fruitful in tackling problems in population biology. Consequently, a number of colleagues were asked to participate in the meeting. We have divided this book into chapters corresponding to the eight topics chosen. The volume begins with the relation between genotype and phenotype and is followed by a chapter on quantitative genetics and selection in natural populations.

The Nile Mosaic of Palestrina Paul G.P. Meyboom,2015-08-24 The famous Nile Mosaic of Palestrina, ancient Praeneste in central Italy, dating to c. 100 B.C., is one of the earliest large mosaics which have been preserved from the classical world. It presents a unique, comprehensive picture of Egypt and Nubia. The interpretation of the mosaic is disputed, suggestions ranging from an exotic decoration to a topographical picture or a religious allegory. The present study demonstrates that the mosaic depicts rituals connected with Isis and Osiris and the yearly Nile flood. The presence of these Egyptian religious scenes at Praeneste can be explained by the assimilation of Isis and Fortuna, the tutelary goddess of Praeneste, and by the interpretation of the mosaic as a symbol of divine providence.

(Kevin Andrews) , liberal adult education in the second half of the twentieth century (Trevor Rowley), the local societies (John Manley) , archaeology in museums (Roger Peers).

The Israel Lobby and U.S. Foreign Policy John J. Mearsheimer,Stephen M. Walt,2007-09-04 The Israel Lobby, by John J. Mearsheimer of the University of Chicago and Stephen M. Walt of Harvard's John F. Kennedy School of Government, was one of the most controversial articles in recent memory. Originally published in the London Review of Books in March 2006, it provoked both howls of outrage and cheers of gratitude for challenging what had been a taboo issue in America: the impact of the Israel lobby on U.S. foreign policy. Now in a work of major importance, Mearsheimer and Walt deepen and expand their argument and confront recent developments in Lebanon and Iran. They describe the remarkable level of material and diplomatic support that the United States provides to Israel and argues that this support cannot be fully explained on either strategic or moral grounds. This exceptional relationship is due largely to the political influence of a loose coalition of individuals and organizations that actively work to shape U.S. foreign policy in a pro-Israel direction. Mearsheimer and Walt provocatively contend that the lobby has a far-reaching impact on America's posture throughout the Middle East—in Iraq, Iran, Lebanon, and toward the Israeli-Palestinian conflict—and the policies it has encouraged are in neither America's national interest nor Israel's long-term interest. The lobby's influence also affects America's relationship with important allies and increases dangers that all states face from global jihadist terror. Writing in The New York Review of Books, Michael Massing declared, Not since Foreign Affairs magazine published Samuel Huntington's 'The Clash of Civilizations?' in 1993 has an academic essay detonated with such force. The publication of The Israel Lobby and U.S. Foreign Policy is certain to widen the debate and to be one of the most talked-about books in foreign policy.

Startle and Illuminate Carol Shields,2017-08-15 Shimmering with her unique style, sense, humour, vision and wit, Startle and Illuminate is a book of advice and reflections on writing by Pulitzer Prize-winning author Carol Shields that is destined to become as valued and essential as Stephen King's On Writing: A Memoir of the Craft and Anne Lamott's Bird by Bird: Some Instructions on Writing and Life. An essential work from one of Canada's finest writers, Startle and Illuminate stands as a reflection of Carol Shields' devotion to the writer's craft. Drawn together by her daughter and grandson from decades of correspondence with other writers, essays, notes, comments, criticism and lectures, Startle and Illuminate helps answer some of the most fundamental questions about the craft: Why do we write at all? Can writing be taught? What keeps a reader turning the pages? How is a writer to know when a work is done? In her own words, Shields reveals her thoughts on why we read, and more importantly, why we write: for the joy of the making, to reimagine our world, to discover patterns and uncover forms that echo our realities as well as interrogate them.

The Armed Forces Officer Richard Moody Swain,Albert C. Pierce,2017 In 1950, when he commissioned the first edition of The Armed Forces Officer,
