Old Man on a Bike Simon Gandolfi, 2013-12-19 A Septuagenarian Odyssey

Revolutionary Ride Lois Pryce, 2017-02-21 In 2011, at the height of tension between the British and Iranian governments, travel writer Lois Pryce found a note left on her motorcycle outside the Iranian Embassy in London: ... I wish that you will visit Iran so you will see for yourself about my country. WE ARE NOT TERRORISTS!!! Please come to my city, Shiraz. It is very famous as the friendliest city in Iran, it is the city of poetry and gardens and wine!!! Your Persian friend, Habib Intrigued, Lois decides to ignore the official warnings against travel (and the warnings of her friends and family) and sets off alone on a 3,000 mile ride from Tabriz to Shiraz, to try to uncover the heart of this most complex and incongruous country. Along the way, she meets carpet sellers and drug addicts, war veterans and housewives, doctors and teachers - people living ordinary lives under the rule of an extraordinarily strict Islamic government. *Revolutionary Ride* is the story of a people and a country. Religious and hedonistic, practical and poetic, modern and rooted in tradition - and with a wild sense of humour and appreciation of beauty despite the comparative lack of freedom - this is real contemporary Iran.

Waiting for Wolves in Japan John Knight, 2003 A conservationist group has launched a campaign for the reintroduction of the wolf in Japan, arguing that the wolf would be the saviour of upland areas that are suffering from wildlife pestilence.

Wild Sheep and Goats and Their Relatives David M. Shackleton, 1997 Wild caprinae, including sheep and goats, are an extremely valuable group of mammals. While

most live in mountains, some inhabit desert grasslands, tropical forests or even arctic tundra. They range in size from the 30kg goral to the 350kg musk ox and display a variety of horn shapes and sizes as well as coat and body coloration. They are highly prized by hunters on account of their horns and their coats. Today, despite their important domestic relations, many wild caprinae are in danger of being lost forever: over 70 of caprinae taxa are threatened and over 30 endangered or critical. The main threats to them are over-harvesting, habitat loss and resource competition from livestock. Some face an additional threat from trophy hunters. Despite this, however, conservation legislation is either absent or, more often, poorly enforced. This action plan explores the value of caprinae to biodiversity, the threats facing the members of the species, and makes recommendations to reverse current trends. It also emphasizes the importance to caprinae conservation and survival of close collaboration among all parties involved in wildlife conservation including local peoples and hunting organizations, governments, scientists and academic institutions.

Massimo Vitali Massimo Vitali, 2019-09-17 The latest from Massimo Vitali, master portraitist of the beach and the disco This large-format volume, collecting images from 2009 to 2018, is the latest in Steidl's series publishing the life's work of Massimo Vitali. Following the first two volumes, published together as *Landscape with Figures / Natural Habitats*, 1994-2009 in 2011 (and now out of print), *Entering a New World* presents Vitali's large-scale color images of humans interacting en masse--both consciously and unconsciously--with their environments. Whether relaxing beachside, exploring the ruins of the Roman Forum or navigating a crowded shopping promenade, the scenes in these photographs are topographical celebrations and subtle critiques of our changing habits of leisure. The book furthermore traces an important shift in Vitali's practice: his move from large-format film to medium-format digital. Born in Como in 1944, Massimo Vitali studied photography at the London College of Printing. Beginning in the 1960s, Vitali worked as a photojournalist, collaborating with magazines and agencies throughout Europe before turning to cinematography for television and cinema in the early 1980s. He eventually returned to still photography as an artist, taking up large-format photography in 1993 and beginning his famous Beach Series in 1995. Steidl has published Vitali's *Landscape with Figures* (2004) and *Landscape with Figures / Natural Habitats*, 1994-2009 (2011).
