## Papertoy Monsters Brian Castleforte, 2010-12-29 A

breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school

bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

*Scrap! The Book* Adela Silvestre, 2020-01-09 My name is Adela Silvestre, but as soon as the Instagram homepage welcomes me I'm magically transformed into The Mint Feather, a crafter who loves scrapbooking, Home Decor, and product photography. There, I explore all kinds of handicrafts or fields of art. I absolutely go crazy for wood and cardboard techniques. The noise of my electric screwdriver is my white noise. Collage making is my favorite art expression and decorating my house is my personal therapy. Without a doubt, what I most enjoy is looking at random objects and thinking how I can transform them into something completely different and creative. Are you joining the party?

Engagingly illustrated by Axel Scheffler, this approachable and timely book helps answer these questions and many more, providing children aged 5-10 and their parents with clear and accessible explanations about the coronavirus and its effects - both from a health perspective and the impact it has on a family's day-to-day life. With input from expert consultant Professor Graham Medley of the London School of Hygiene & Tropical Medicine, as well as advice from teachers and child psychologists, this is a practical and informative resource to help explain the changes we are currently all experiencing. collectors and artists alike, who fall for her offbeat charm and strange expressions. For over five years, artist Erregiro has been customising his collection of more than 100 dolls, the result of which is this over-the-top, crazy book.

Pop-Up Design and Paper Mechanics Duncan

Birmingham,2019-02-21 This comprehensive guide to pop-up design and paper mechanics is a delightful introduction to the intriguing aspects of a fascinating craft. This new and accessible approach to pop-up theory and practice distills the numerous mechanisms into a logical set of 18 underlying shapes and explains the techniques for building these shapes. The author demonstrates how sophisticated pop-up designs are constructed and shows how to form a three-dimensional reference book. Invaluable for both professional and amateur designers. Appeals to craft-hobby enthusiasts who make their own greeting cards, but is also a useful aid to teachers of art, design and technology, designers, illustrators and sculptors.

**Zombies Hate Stuff** Greg Stones,2012-03-21 Each of Greg Stones's paintings reveal funny and unexpected scenes of zombie disgruntlement, cataloging the stuff that really riles up the walking dead (astronauts, rain, bagpipes, re-gifting, and more) with wit,

humor, and, of course, brains.

*A Tempest of Tea* Hafsah Faizal, 2024-02-20 From the New York Times–bestselling author of *We Hunt the Flame* comes the first book in a hotly-anticipated fantasy duology teeming with romance and revenge, led by an orphan girl willing to do whatever it takes to save her self-made kingdom. On the streets of White Roaring, Arthie Casimir is a criminal mastermind and collector of secrets. Her prestigious tearoom transforms into an illegal bloodhouse by night, catering to the vampires feared by society. But when her establishment is threatened, Arthie is forced to strike an unlikely deal with an alluring adversary to save it—she can’t do the job alone. Calling on some of the city’s most skilled outcasts, Arthie hatches a plan to infiltrate the sinister, glittering vampire society known as the Athereum. But not everyone in her ragtag crew is on her side, and as the truth behind the heist unfolds, Arthie finds herself in the midst of a conspiracy that will threaten the world as she knows it. Dark, action-packed, and swoonworthy, this is Hafsah Faizal better than ever.

**The Courtier and the Heretic: Leibniz, Spinoza, and the Fate of  
God in the Modern World** Matthew Stewart, 2007-01-17

Exhilarating...Stewart has achieved a near impossibility, creating a page-turner about jousting metaphysical ideas, casting thinkers as warriors. —Liesl Schillinger, New York Times Book Review

Once upon a time, philosophy was a dangerous business—and for no one more so than for Baruch Spinoza, the seventeenth-century philosopher vilified by theologians and political authorities everywhere as “the atheist Jew.” As his inflammatory manuscripts circulated underground, Spinoza lived a humble existence in The Hague, grinding optical lenses to make ends meet. Meanwhile, in the glittering salons of Paris, Gottfried Wilhelm Leibniz was climbing the ladder of courtly success. In between trips to the opera and groundbreaking work in mathematics, philosophy, and jurisprudence, he took every opportunity to denounce Spinoza, relishing his self-appointed role as “God’s attorney.” In this exquisitely written philosophical romance of attraction and repulsion, greed and virtue, religion and heresy, Matthew Stewart gives narrative form to an epic contest of ideas that shook the seventeenth century—and continues today.

Origamido Michael G. LaFosse,2000 This book showcases the finest examples of origami art from around the world. Several diagrams are included that reveal the secrets behind some of the masters' most famous pieces.

*The Pole Vault Championship of the Entire Universe* Conor Lastowka,2018-01-30 Kara Everglades has just finished her first year of high school and is longing for an adventure. So far her only option is an invitation from some upperclassmen to watch them drunkenly race a bunch of bullfrogs in a ditch. To be honest, she was hoping for something a bit more exciting. Her grandfather, Cornelius Everglades, is a renegade who founded his own island micronation. Unfortunately, the rest of the world refuses to acknowledge it (possibly because he's gone about the nation-building process using wildly illegal and unethical means). When Cornelius shows up at Kara's door needing her help and promising

an adventure, Kara agrees to go along with his far-fetched plan to put his micronation on the map, even though a) she thought Cornelius was dead, and b) his scheme depends heavily on Kara wearing a mascot costume. If Kara had known about the giant alien spaceship currently speeding toward her grandfather's country with the intent to subjugate and humiliate mankind, she might have reconsidered.

**Batman** Chip Kidd,Dave Taylor,2013-05 As Gotham City undergoes a massive architectural boom, a series of unexplained construction accidents begin to cause casualties across the city and it is up to Batman to discover who is behind the string of catastrophes.
