Pictorial Art for Interreligious Dialogue Dr Christopher Longhurst, 2021-10-21 We all understand the importance of constructive dialogue between people of diverse religions, and we can all appreciate the enjoyment received from viewing pictorial art. What, therefore, does the use of pictorial art for interreligious dialogue look like? PICTORIAL ART FOR INTERRELIGIOUS DIALOGUE, commissioned by the 2020 International Fellows Programme of the King Abdullah bin Abdulaziz International Centre for Interreligious and Intercultural Dialogue (KAICIID), explores the unique usage of pictorial art to undertake interreligious dialogue. It presents a practical guide to help educators learn and teach an effective and enjoyable interreligious dialogue within their academic settings. This book offers an alternative to prevailing approaches to interreligious dialogue through its Structured Arts-based Educational Dialogue (SAED). The SAED approach will transform pictorial art into a channel for dialogue through the artwork's form, content, and subject matter, serving as speaking points in the dialogical process informing the life experiences and religious ideas of the dialogue partners. Herein lies a new power for interreligious dialogue, to know and love the religious other through a mediated, personal and arts-based dialogical approach.

Loading the Silence: Australian Sound Art in the Post-Digital Age Linda Ioanna Kouvaras, 2016-05-13 The experimentalist phenomenon of 'noise' as constituting 'art' in much twentieth-century music (paradoxically) reached its zenith in Cage's ('silent' piece) 4'33 . But much post-1970s musical endeavour with an experimentalist telos, collectively known as 'sound art', has displayed a postmodern need to 'load' modernism's 'degree zero'. After contextualizing experimentalism from its inception in the early twentieth century, Dr Linda Kouvaras's *Loading the Silence: Australian Sound Art in the Post-Digital Age* explores the ways in which selected sound art works demonstrate creatively how sound is embedded within local, national, gendered and historical environments. Taking Australian music as its primary - but not sole - focus, the book not only covers discussions of technological advancement, but also engages with aesthetic standpoints, through numerous interviews, theoretical developments, analysis and cultural milieux for a contemporary Australian, and wider postmodern, context. Developing new methodologies for synergies between musicology and cultural studies, the book uncovers a new post-postmodern aesthetic trajectory, which Kouvaras locates as developing over the past two decades - the altermodern. Australian sound art is here put firmly on the map of international debates about contemporary

music, providing a standard reference and valuable resource for practitioners in the artform, music critics, scholars and educators.

Drinking Water James Salzman, 2017-06-13 An in-depth look at the changing approaches that environmentalists, governments, and the open market have taken to water through the lens of world history. When we turn on the tap or twist open a tall plastic bottle, we probably don't give a second thought about where our drinking water comes from. But how it gets from the ground to the glass is far more convoluted than we might think. In this revised edition of *Drinking Water*, Duke University professor and environmental policy expert James Salzman shows how drinking water highlights the most pressing issues of our time. He adds eye-opening, contemporary examples about our relationship to and consumption of water, and a new chapter about the atrocities that occurred in Flint, Michigan. Provocative, insightful, and engaging, *Drinking Water* shows just how complex a simple glass of water can be. "A surprising, delightful, fact-filled book." –Jared Diamond, Pulitzer Prize-winning author of *Guns, Germs, and Steel* "Instead of buying your next twelve-pack of bottled water, buy this fascinating account of all the people who spent their lives making sure you'd have clean, safe drinking water every time you turned on the tap." –Bill McKibben, author of *Earth: Making a Life on a Tough New Planet* "Drinking Water effortlessly guides us through a fascinating world we never consider. Even for people who think they know water, there is a surprise on almost every page." –Charles Fishman, bestselling author of *The Big Thirst* and *The Wal-Mart Effect* "Salzman puts a needed spotlight on an often overlooked but critical social, economic, and political resource." –Publishers Weekly

Victor Lundy Donna Kacmar, 2018-11-13 If you're looking for something new under the midcentury sun, Victor Lundy (born 1923) is a real find, an important yet underappreciated figure in the history of American architecture. Trained in both the Beaux Arts and Bauhaus traditions, he built an impressive practice ranging from small-scale residential and commercial buildings to expressive religious buildings and two preeminent institutional works: the US Tax Court Building in Washington, DC (now on the National

Register of Historic Places), and the US Embassy in Sri Lanka. This first book on Lundy's life and career documents his early work in the Sarasota School of Architecture, his churches, and his government buildings. In addition to essays on his use of light and material, many of the architect's original drawings, paintings, and sketches—including those from his travels throughout Europe, the Middle East, India, and Mexico, now held at the Library of Congress—are reproduced here for the first time.
