Shrimp to Whale Ramon Pacheco Pardo,2022-07-15 South Korea has the most remarkable of histories. Born from the ashes of colonialism, partition and a devastating war, back in the 1950s there were real doubts about its survival as an independent state. Yet South Korea did survive, and first became known globally for the export of cheap toys, shoes and clothing. Today, South Korea is a boisterous democracy, a vibrant market economy, a tech powerhouse, and home to the coolest of cultures. In just seventy years, this society has grown from a shrimp into a whale. What explains this extraordinary transformation? For some, it was ordinary South Koreans who fought to change their country, and still strive to continue shaping it. For others, it was all down to forward-looking political and business leaders, who had the vision that their country would one day be different. Whichever version you prefer, it's clear that, at its core, South Korea's is the story of a people who dreamt big, and saw their dreams coming true. This is the history of South Korea, from its millennia-old roots, through its foundation as a nation-state and economic development under dictatorship, to its present as a rich, free and cool country on the world stage.

A model's relevance, anglais Benoit Jallon,2017 In the 19th century, Paris underwent profound transformations above and below ground, from the city center to its outskirts. Georges Eugène Haussmann, Prefect of the Seine from 1853 to 1870, embodies this entire century of public works that continue to shape the city's organization and identity. Paris Haussmann explores and analyzes the characteristics of this homogenous yet polymorphous cityscape, the result of a lengthy process of changes and evolutions, even in recent times. Research was conducted at all levels to classify and compare roadways, identify public spaces, and organize the blocks and buildings according to their current geometry. For the first time, the qualities of the Haussmann model have been set forth to show how they grapple with the challenges that contemporary cities face.0Rich illustrative material, photographs, various plans and maps, floor plans and sections, axonometric projections, diagrams and other graphics, and statistical analyses complement topical essays. The book is published in conjunction with an exhibition at the Pavillon de l'Arsenal in Paris in spring 2017.00Exhibition: Pavillon de l'Arsenal, Paris, France (31.01. - 07.05.2017).

The Politics of the Provisional Richard Taws,2015-09-22 In revolutionary France the life of things could not be assured. War, shortage of materials, and frequent changes in political authority meant that few large-scale artworks or permanent monuments to the Revolution's memory were completed. On the contrary, visual practice in revolutionary France was characterized by the production and circulation of a range of transitional, provisional, ephemeral, and half-made images and objects, from printed paper money, passports, and almanacs to temporary festival installations and relics of the demolished Bastille. Addressing this mass of images conventionally ignored in art history, *The Politics of the Provisional* contends that they were at the heart of debates on the nature of political authenticity and historical memory during the French Revolution. Thinking about material durability, this book suggests, was one of the key ways in which revolutionaries conceptualized duration, and it was crucial to how they imagined the Revolution's transformative role in history. *The Politics of the Provisional* is the first book in the Art History Publication Initiative (AHPI), a collaborative grant from the Andrew W. Mellon Foundation. Thanks to the AHPI grant, this book is available on a variety of popular e-book platforms.

The Horses of St. Mark's Charles Freeman,2010-08-12 The noted historian explores the mysterious origins and surprising adventures of four iconic bronze statues as they appear and reappear through the ages. In July 1798, a triumphant procession made its way through the streets of Paris. Echoing the parades of Roman emperors many years before, Napoleon Bonaparte was proudly displaying the spoils of his recent military adventures. There were animals—caged lions and dromedaries—as well as tropical plants. Among the works of art on show, one stood out: four horses of gilded metal, taken by Napoleon from their home in Venice. The Horses of St Mark's have found themselves at the heart of European history time and time again: in Constantinople, at both its founding and sacking in the Fourth Crusade; in Venice, at both

the height of its greatness and fall in 1797; in the Paris of Napoleon, and the revolutions of 1848; and back in Venice, the most romantic city in the world. Charles Freeman offers a fascinating account of both the statues themselves and the societies through which they have travelled and been displayed. As European society has developed from antiquity to the present day, these four horses have stood and watched impassively. This is the story of their—and our—times.

The Last Days of New Paris China Miéville,2016-08-09 A thriller of war that never was—of survival in an impossible city—of surreal cataclysm. In *The Last Days of New Paris*, China Miéville entwines true historical events and people with his daring, uniquely imaginative brand of fiction, reconfiguring history and art into something new. “Beauty will be convulsive. . . .” 1941. In the chaos of wartime Marseille, American engineer—and occult disciple—Jack Parsons stumbles onto a clandestine anti-Nazi group, including Surrealist theorist André Breton. In the strange games of the dissident diplomats, exiled revolutionaries, and avant-garde artists, Parsons finds and channels hope. But what he unwittingly unleashes is the power of dreams and nightmares, changing the war and the world forever. 1950. A lone Surrealist fighter, Thibaut, walks a new, hallucinogenic Paris, where Nazis and the Resistance are trapped in unending conflict, and the streets are stalked by living images and texts—and by the forces of Hell. To escape the city, he must join forces with Sam, an American photographer intent on recording the ruins, and make common cause with a powerful, enigmatic figure of chance and rebellion: the exquisite corpse. But Sam is being hunted. And new secrets will emerge that will test all their loyalties—to each other, to Paris old and new, and to reality itself. Praise for *The Last Days of New Paris* “Beautiful, stunningly realized . . . [The Last Days of New Paris] is a brief vacation in alien latitudes, a midnight layover in an imaginary place.”—NPR “A thoughtful, highbrow novella . . . Miéville’s self-assured style offers up a strong sense of humanity, while the strange Surrealist monsters give Last Days a fun and complementary mad-science component.”—USA Today “[A] testament to the necessary, progressive power of art . . . Both moving and disturbingly timely.”—Newsday “A novel both unhinged and utterly compelling, a kind of guerrilla warfare waged by art itself, combining both meticulous historical research and Miéville’s unparalleled inventiveness.”—Chicago Tribune “An extraordinarily original work that foregrounds Mieville’s considerable ingenuity and innovation.”—The Millions “Hauntingly poetic, strangely beautiful, and erratically intense.”—San Francisco Book Review “Dazzling . . . quite a feat.”—The Guardian

The Greater Journey David McCullough,2011-05-24 The #1 bestseller that tells the remarkable story of the generations of American artists, writers, and doctors who traveled to Paris, fell in love with the city and its people, and changed America through what they learned, told by America’s master historian, David McCullough. Not all pioneers went west. In *The Greater Journey*, David McCullough tells the enthralling, inspiring—and until now, untold—story of the adventurous American artists, writers, doctors, politicians, and others who set off for Paris in the years between 1830 and 1900, hungry to learn and to excel in their work. What they achieved would profoundly alter American history. Elizabeth Blackwell, the first female doctor in America, was one of this intrepid band. Another was Charles Sumner, whose encounters with black students at the Sorbonne inspired him to become the most powerful voice for abolition in the US Senate. Friends James Fenimore Cooper and Samuel F. B. Morse worked unrelentingly every day in Paris, Morse not only painting what would be his masterpiece, but also bringing home his momentous idea for the telegraph. Harriet Beecher Stowe traveled to Paris to escape the controversy generated by her book, *Uncle Tom’s Cabin*. Three of the greatest American artists ever—sculptor Augustus Saint-Gaudens, painters Mary Cassatt and John Singer Sargent—flourished in Paris, inspired by French masters. Almost forgotten today, the heroic American ambassador Elihu Washburne bravely remained at his post through the Franco-Prussian War, the long Siege of Paris, and the nightmare of the Commune. His vivid diary account of the starvation and suffering endured by the people of Paris is published here for the first time. Telling their stories with power and intimacy, McCullough brings us into the lives of remarkable men and women who, in Saint-Gaudens’ phrase, longed “to soar into the blue.”

Napoli Super Modern Maxime Enrico,Gianluigi Freda,Irene Lettieri,Andrea Maglio,2021-02-15 This richly illustrated book is a monument to modern urban construction in Naples. It features some fifty new photos by celebrated French photographer Cyrille Weiner as well as historic images and drawings of important architectonic details, and an atlas of eighteen significant buildings dating from 1930-1960 illustrated with site and floor plans, elevations, and sections. It reveals how this southern Italian metropolis developed its own form of modernism, one that combined Mediterranean culture with local materials and a strong internationalist spirit. The topical essays and concise descriptions of the documented buildings, together with the lavish illustrations make for a hugely attractive and lively portrait of Naples. This fascinating city is both famous and infamous—but its qualities and individuality in terms of architecture and urban development really should be better known.

Rice's Architectural Primer Matthew Rice,2010-07-15 RICE'S ARCHITECTURAL PRIMER covers the grammar and vocabulary of British buildings, explaining the evolution of styles from Norman castles to Norman Foster. Its aim is to enable the reader to recognise, understand and date any British building. As Matthew Rice says, 'Once you can speak any language, conversation can begin, but without it communications can only be brief and brutish. The same is the case with Architecture: an inability to describe the component parts of a building leaves one tongue-tied and unable to begin to discuss what is or is not exciting, dull or peculiar about it.' RICE'S ARCHITECTURAL PRIMER will explain the language of architecture. With it in your hand, pocket or car, buildings will break down beguilingly into their component parts, ready for inspection and discussion. There will be no more references to that curly bit on top of the thing with the square protrusions. Ungainly and inept descriptions will be a thing of the past and, fluent in the world of volutes, hood moulds, lobed architraves and bucrania, you will be able to leave a cathedral or country house with as much to talk about as a film or play. RICE'S ARCHITECTURAL PRIMER starts with an explanation of the basic 'Grammar' of buildings: elevation, plan, roof, gable and eave. This will enable the reader to better make use of what is to follow. It will also cover the Orders of Architecture - Doric, Tuscan, Ionic, Corinthian and Composite - so that the vital basics of Classicism are covered. Following this is the 'Vocabulary'. This will be a chronological reference section covering, period by period, the windows, doors and doorcases, columns, chimneys, arches, balustrades and pediments that make up the built environment.

Dubuffet and the City Sophie Berrebi,Jean Dubuffet,2018 Dubuffet and the City. People, Place and Urban Space,? written and edited by renowned scholar Dr. Sophie Berrebi (University of Amsterdam), is the first in-depth study to address the work of Jean Dubuffet (1901-1984) in relation to the theme of the city. The book examines how the city plays a role in the formation and unfolding of Dubuffet's practice and imagination as a material, a source, and a vehicle for ideas. It analyses works in which the artist depicts city dwellers, sites and urban spaces, and discusses his architectural projects from the 1960s and 1970s against the background of heated debates in the field of urbanism. The book accompanies and extends an exhibition at Hauser & Wirth Zurich (June-Sept 2018). Along with full color reproductions of art works the book reproduces little-known archival material from the archives of the Fondation Dubuffet. It also includes several texts by Dubuffet that are translated here in English for the first time.00Exhibition: Hauser & Wirth, Zürich, Switzerland (10.06.-01.09.2018).
