Monopolized David Dayen,2020-07-21 From the airlines we fly to the food we eat, how a tiny group of corporations have come to dominate every aspect of our lives—by one of our most intrepid and accomplished journalists If you're looking for a book . . . that will get your heart pumping and your blood boiling and that will remind you why we're in these fights—add this one to your list. —Senator Elizabeth Warren on David Dayen's Chain of Title Over the last forty years our choices have narrowed, our opportunities have shrunk, and our lives have become governed by a handful of very large and very powerful corporations. Today, practically everything we buy, everywhere we shop, and every service we secure comes from a heavily concentrated market. This is a world where four major banks control most of our money, four airlines shuttle most of us around the country, and four major cell phone providers connect most of our communications. If you are sick you can go to one of three main pharmacies to fill your prescription, and if you end up in a hospital almost every accessory to heal you comes from one of a handful of large medical suppliers. Dayen, the editor of the American Prospect and author of the acclaimed Chain of Title, provides a riveting account of what it means to live in this new age of monopoly and how we might resist this corporate hegemony. Through vignettes and vivid case studies Dayen shows how these monopolies have transformed us, inverted us, and truly changed our lives, at the same time providing readers with the raw material to make monopoly a consequential issue in American life and revive a long-dormant antitrust movement.

Down to the Crossroads Aram Goudsouzian,2014-02-04 In 1962, James Meredith became a civil rights hero when he enrolled as the first African American student at the University of Mississippi. Four years later, he would make the news again when he reentered Mississippi, on foot. His plan was to walk from Memphis to Jackson, leading a March Against Fear that would promote black voter registration and defy the entrenched racism of the region. But on the march's second day, he was shot by a mysterious gunman, a moment captured in a harrowing and now iconic photograph. What followed was one of the central dramas of the civil rights era. With Meredith in the hospital, the leading figures of the civil rights movement flew to Mississippi to carry on his effort. They quickly found themselves confronting southern law enforcement officials, local activists, and one another. In the span of only three weeks, Martin Luther King, Jr., narrowly escaped a vicious mob attack; protesters were teargassed by state police; Lyndon Johnson refused to intervene; and the charismatic young activist Stokely Carmichael first led the chant that would define a new kind of civil rights movement: Black Power. Aram Goudsouzian's Down to the Crossroads is the story of the last great march of the King era, and the first great showdown of the turbulent years that followed. Depicting rural demonstrators' courage and the impassioned debates among movement leaders, Goudsouzian reveals the legacy of an event that would both integrate African Americans into the political system and inspire even bolder protests against it. Full of drama and contemporary resonances, this book is civil rights history at its best.

Revival Season Monica West,2022-05-03 The daughter of one of the South's most famous Baptist preachers discovers a shocking secret about her father that puts her at odds with both her faith and her family in this debut novel. "Spellbinding...Revival Season should be read alongside Alice Walker's The Color Purple and Chimamanda Ngozi Adichie's Purple Hibiscus." —The Washington Post A New York Times Book Review Editors' Choice Every summer, fifteen-year-old Miriam Horton and her family pack themselves tight in their old minivan and travel through small southern towns for revival season: the time when Miriam's father—one of the South's most famous preachers—holds massive healing services for people desperate to be cured of ailments and disease. But, this summer, the revival season doesn't go as planned, and after one service in which Reverend Horton's healing powers are tested like never before, Miriam witnesses a shocking act of violence that shakes her belief in her father—and her faith. When the Hortons return home, Miriam's confusion only grows as she discovers she might have the power to heal—even though her father and the church have always made it clear that such power is denied to women. Over the course of the following year, Miriam must decide between her faith, her family, and her newfound power that might be able to save others, but if discovered by her father, could destroy Miriam. Celebrating both feminism and faith, Revival Season is a "tender and wise" (Ann Patchett) story of spiritual awakening and disillusionment in a Southern, Black, Evangelical community.

Somewhere in the Bayou Jerome Pumphrey,Jarrett Pumphrey,2022-03-01 Simple, subtle, and drolly funny, the Pumphrey brothers' newest picture book is a layered exploration of the foolishness of making assumptions and the virtue of curiosity. When four swamp creatures looking to cross a river come upon a log that would allow for precisely that, they can't believe their luck. But a questionable tail adjacent to that log gives them second thoughts. Opossum believes it's a sneaky tail and that they must pass it quietly. Squirrel thinks it's a scary tail that can be cowed by intimidation. Rabbit decides it's a mean tail that deserves a taste of its own medicine. As the critters exhaust approaches one by one, Mouse, the smallest of the lot, observes their folly and adjusts accordingly. But is it the mouse or the tail that will defy expectations? Pairing their iconic illustration style with a wry irreverence, the Pumphrey brothers have crafted a delightful tale that reminds us to think before we act.

Oklahoma Cherokee Baskets Karen Coody Cooper,2016 The forced relocation of fifteen thousand Cherokee to Oklahoma nearly two centuries ago left them in a foreign landscape. Coping with loss and new economic challenges, the Cherokee united under a new constitution and exploited the Victorian affinity for decorative crafts. Cherokee women had always created patterned baskets for everyday use and trade, and soon their practical work became lucrative items of beauty. Adapting the tradition to the new land, the industrious weavers transformed Oklahoma's vast natural resources into art that aided their survival. The Civil War found the Cherokee again in jeopardy, but

resilient, they persevered and still thrive today. Author and Cherokee citizen Karen Coody Cooper presents the story of this beautiful legacy.

Gil's All Fright Diner A. Lee Martinez,2006-06-27 Bloodier than Fried Green Tomatoes! Funnier than The Texas Chainsaw Massacre! Welcome to Gil's All Night Diner, where zombie attacks are a regular occurrence and you never know what might be lurking in the freezer . . . Duke and Earl are just passing through Rockwood county in their pick-up truck when they stop at the Diner for a quick bite to eat. They aren't planning to stick around-until Loretta, the eatery's owner, offers them \$100 to take care of her zombie problem. Given that Duke is a werewolf and Earl's a vampire, this looks right up their alley. But the shambling dead are just the tip of a particularly spiky iceberg. Seems someone's out to drive Loretta from the Diner, and more than willing to raise a little Hell on Earth if that's what it takes. Before Duke and Earl get to the bottom of the Diner's troubles, they'll run into such otherworldly complications as undead cattle, an amorous ghost, a jailbait sorceress, and the terrifying occult power of pig-latin. And maybe--just maybe--the End of the World, too. Gory, sexy, and flat-out hilarious, Gil's All Fright Diner will tickle your funnybone--before ripping it out of its socket! The Next Shift Gabriel Winant,2021-03-23 Men in hardhats were once the heart of America's working class; now it is women in scrubs. What does this shift portend for our future? Pittsburgh was once synonymous with steel. But today most of its mills are gone. Like so many places across the United States, a city that was a center of blue-collar manufacturing is now dominated by the service economy—particularly health care, which employs more Americans than any other industry. Gabriel Winant takes us inside the Rust Belt to show how America's cities have weathered new economic realities. In Pittsburgh's neighborhoods, he finds that a new working class has emerged in the wake of deindustrialization. As steelworkers and their families grew older, they required more health care. Even as the industrial economy contracted sharply, the care economy thrived. Hospitals and nursing homes went on hiring sprees. But many care jobs bear little resemblance to the manufacturing work the city lost. Unlike their blue-collar predecessors, home health aides and hospital staff work unpredictable hours for low pay. And the new working class disproportionately comprises women and people of color. Today health care workers are on the front lines of our most pressing crises, yet we have been slow to appreciate that they are the face of our twenty-first-century workforce. The Next Shift offers unique insights into how we got here and what could happen next. If health care employees, along with other essential workers, can translate the increasing recognition of their economic value into political power, they may become a major force in the twenty-first century.

A Lost Lady Willa Cather,2023-11-15 A Lost Lady is a novel by American author Willa Cather, first published in 1923. It centers on Marian Forrester, her husband Captain Daniel Forrester, and their lives in the small western town of Sweet Water, along the Transcontinental Railroad. However, it is mostly told from the perspective of a young man named Niel Herbert, as he observes the decline of both Marian and the West itself, as it shifts from a place of pioneering spirit to one of corporate exploitation. Exploring themes of social class, money, and the march of progress, A Lost Lady was praised for its vivid use of symbolism and setting, and is considered to be a major influence on the works of F. Scott Fitzgerald. It has been adapted to film twice, with a film adaptation being released in 1924, followed by a looser adaptation in 1934, starring Barbara Stanwyck. A Lost Lady begins in the small railroad town of Sweet Water, on the undeveloped Western plains. The most prominent family in the town is the Forresters, and Marian Forrester is known for her hospitality and kindness. The railroad executives frequently stop by her house and enjoy the food and comfort she offers while there on business. A young boy, Niel Herbert, frequently plays on the Forrester estate with his friend. One day, an older boy named Ivy Peters arrives,

and shoots a woodpecker out of a tree. He then blinds the bird and laughs as it flies around helplessly. Niel pities the bird and tries to climb the tree to put it out of its misery, but while climbing he slips, and breaks his arm in the fall, as well as knocking himself unconscious. Ivy takes him to the Forrester house where Marian looks after him. When Niel wakes up, he's amazed by the nice house and how sweet Marian smells. He doesn't see her much after that, but several years later he and his uncle, Judge Pommeroy, are invited to the Forrester house for dinner. There he meets Ellinger, who he will later learn is Mrs. Forrester's lover, and Constance, a young girl his age.

Climate Crisis and the Global Green New Deal Noam Chomsky, Robert Pollin, 2020-09-22 Climate change: watershed or endgame? In this compelling new book, Noam Chomsky, the world's leading public intellectual, and Robert Pollin, a renowned progressive economist, map out the catastrophic consequences of unchecked climate change—and present a realistic blueprint for change: the Green New Deal. Together, Chomsky and Pollin show how the forecasts for a hotter planet strain the imagination: vast stretches of the Earth will become uninhabitable, plagued by extreme weather, drought, rising seas, and crop failure. Arguing against the misplaced fear of economic disaster and unemployment arising from the transition to a green economy, they show how this bogus concern encourages climate denialism. Humanity must stop burning fossil fuels within the next thirty years and do so in a way that improves living standards and opportunities for working people. This is the goal of the Green New Deal and, as the authors make clear, it is entirely feasible. Climate change is an emergency that cannot be ignored. This book shows how it can be overcome both politically and economically.

City Room Arthur Gelb, 2004-11-02 A New York Times Notable Book Arthur Gelb was hired by The New York Times in 1944 as a night copyboy—the paper's lowliest position. Forty-five years later, he retired as its managing editor. Along the way, he exposed crooked cops and politicians, mentored a generation of our most-talented journalists, was the first to praise the as-yet-undiscovered Woody Allen and Barbra Streisand, and brought Joe Papp instant recognition. From D-Day to the liberation of the concentration camps, from the agony of Vietnam to the resignation of a President, from the fall of Joe McCarthy to the rise of the "Woodstock Nation," Gelb gives an insider's take on the great events of this nation's history—what he calls "the happiest days of my life."

Must Labour Always Lose Denis MacShane, 2021-09-14 Denis MacShane has seen and been on every part of the Labour Party over the last 50 years. He has fought, lost and won elections to the Commons, local government and the trade union movement. One unique insight he has comes from 15 years work with trade unions and progressive political movement in Europe and overseas. His book is personal, political and full of insights. Much of the European left is down and out and Labour must avoid that fate. I hope Labour Party members debate without rancour or sectarian anger what needs to be done. This book is a good starting point. Polly Toynbee, journalist Denis MacShane has had a colourful, often controversial life as a journalist-politician in Labour over many years, standing for Parliament in 1974 and being the best European Minister of any government until the calamity of Brexit struck. His account of why Labour is so good at losing elections is fascinating reading. What to do to get Labour back into power is a central question if we don't want to live in a one party state Steve Richards, journalist and presenter Since 1970, Labour has won power in just 4 of the 14 general elections. This angry, passionate book asks why Labour is so good at losing elections and so unhappy and edgy when it does win. Denis MacShane joined the Labour Party in 1970, and has held every office at local party level. He stood for the Commons aged 26. He served as an MP for 18 years and was Minister of State for Europe. He draws on experience, meetings with Labour leaders from Jim Callaghan to Jeremy Corbyn, and his personal diaries kept when in the Commons as he tries to answer the question: Why is Labour so keen on fighting internal battles and so useless at winning power? Denis MacShane's book is full of observations that are witty, personal, and exasperating. They offer insights and pragmatic guidance. Based on the hard lessons he's learned, MacShane offers twelve pragmatic suggestions for turning Labour into a party of power as well as protest.
