**The White Stag** Kate Seredy, 1979-06 For use in schools and libraries only. Yielding to the command of their gods, the Huns and Magyars, led by Attila, stalk the white stag in a search for the promised land that takes them from Asia to Europe.

*Achtung-Panzer!* Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

**Playing Changes** Nate Chinen, 2019-07-23 One of the Best Books of the Year: NPR, GQ, Billboard, JazzTimes In jazz parlance, “playing changes” refers to an improviser’s resourceful path through a chord progression. In this definitive guide to the jazz of our time, leading critic Nate Chinen boldly expands on that idea, taking us through the key changes, concepts, events, and people that have shaped jazz since the turn of the century—from Wayne Shorter and Henry Threadgill to Kamasi Washington and Esperanza Spalding; from the phrase “America’s classical music” to an explosion of new ideas and approaches; from claims of jazz’s demise to the living, breathing scene that exerts influence on mass culture, hip-hop, and R&B. Grounded in authority and

brimming with style, packed with essential album lists and listening recommendations, *Playing Changes* takes the measure of this exhilarating moment—and the shimmering possibilities to come.

**Mad Enchantment** Ross King, 2016-09-06 From bestselling author Ross King, a brilliant portrait of the legendary artist and the story of his most memorable achievement. Claude Monet is perhaps the world's most beloved artist, and among all his creations, the paintings of the water lilies in his garden at Giverny are most famous. Monet intended the water lilies to provide an asylum of peaceful meditation. Yet, as Ross King reveals in his magisterial chronicle of both artist and masterpiece, these

beautiful canvases belie the intense frustration Monet experienced in trying to capture the fugitive effects of light, water, and color. They also reflect the terrible personal torments Monet suffered in the last dozen years of his life. *Mad Enchantment* tells the full story behind the creation of the *Water Lilies*, as the horrors of World War I came ever closer to Paris and Giverny and a new generation of younger artists, led by Henri Matisse and Pablo Picasso, were challenging the achievements of Impressionism. By early 1914, French newspapers were reporting that Monet, by then seventy-three, had retired his brushes. He had lost his beloved wife, Alice, and his eldest son, Jean. His famously acute vision--what Paul Cezanne called the most prodigious eye in the history of painting--was threatened by cataracts. And yet, despite ill health, self-doubt, and advancing age, Monet began painting again on a more ambitious scale than ever before. Linking great artistic achievement to the personal and historical dramas unfolding around it, Ross King presents the most intimate and revealing portrait of an iconic figure in world culture.

*The Arts and Crafts Movement in the Pacific Northwest*  
Lawrence Kreisman, Glenn W. Mason, 2007 This magnificent compendium is the first comprehensive exploration of the Arts and Crafts legacy in the Pacific Northwest. It traces the movement from its nineteenth-century English beginnings to its flowering in Washington and Oregon through the 1920s and beyond, weaving into a tale of idealism and devotion everything from iconic masterpieces to recent discoveries. You will meet the architects, artists, craftspeople, and entrepreneurs in Seattle, Spokane, Portland, and smaller communities throughout the region in their own words in journal entries, letters, articles, and promotional materials of the period. Included are public and private architecture, furniture, pottery and tile, metalwork, lighting, leaded and stained glass, jewelry, textiles, basketry and the influence of Native American arts, painting and printmaking, photography, graphic arts, and book design. The ideals of the Arts

and Crafts movement—a celebration of craftsmanship and the creative process; an appreciation of sound construction, pleasing proportion, grace, and simplicity; and a comfortable rusticity that sees beauty in nature and honors indigenous materials—found fertile ground in Washington and Oregon. The inspired handiwork of anonymous amateurs and significant regional artists alike yielded a remarkable variety of progressive architect-designed residences, bungalows for everyone, and all manner of artistic and practical furnishings and accessories. Beautifully illustrated with nearly 400 photographs and period graphics, including rare images published here for the first time, this groundbreaking volume is an authoritative reference, a provocative story, and an irresistible treasure trove for Arts and Crafts collectors and enthusiasts everywhere.

**Widowish** Melissa Gould, 2021-02 Melissa Gould's hopeful memoir of grieving outside the box and the surprising nature of love. When Melissa Gould's husband, Joel, was unexpectedly hospitalized, she could not imagine how her life was about to change. Overwhelmed with uncertainty as Joel's condition tragically worsened, she offered him the only thing she could: her love and devotion. Her dedication didn't end with his death. Left to resume life without her beloved husband and raise their young daughter on her own, Melissa soon realized that her and Joel's love lived on. Melissa found she didn't fit the typical mold of widowhood or meet the expectations of mourning. She didn't look like a widow or act like a widow, but she felt like one. *Widowish*. Melissa's personal journey through grief and beyond includes unlikely inspiration from an evangelical preacher, the calming presence of some *Real Housewives*, and the unexpected attention of a charming musician. A modern take on loss, *Widowish* illuminates the twists of fate that break our world, the determination that keeps us moving forward, and the surprises in life we never see coming.

*Voyaging Out* Joyce Townsend,2019-10-22 A fascinating new account of the work and lives of Britain's women artists in the twentieth century. In this revealing chronicle of a fascinating period of social change, artist Carolyn Trant examines the history of women artists in modern Britain, filling in the gaps in traditional art histories. Introducing the lives and works of a rich network of neglected women artists, *Voyaging Out* sets these alongside such renowned presences as Barbara Hepworth, Laura Knight, and Winifred Nicholson. In an era of radical activism and great social and political change, women forged new relationships with art and its institutions. Such change was not without its challenges, and with acerbic wit Trant delves into the gendered makeup of the avant-garde and the tyranny of artistic "isms." In Virginia Woolf's first novel *The Voyage Out* (1915) her female heroine strives toward a realization of her sense of self, asking what being a woman might mean. In the decades after women won the vote in Britain, the fortunes of women artists were shaped by war, domesticity, continued oppressions, and spirited resistance. Some succeeded in forging creative careers; others were thwarted by the odds stacked against them. Weaving devastating individual stories with spirited critique, *Voyaging Out* reveals this hidden history.

**New World Baking** Dean Brettschneider,2011-07 New World Baking details all the baking-related influences from my time in Shanghai. Some of the recipes are classic and some offer refreshing new flavour combinations and turn cultural eating habits on their heads, but each one reflects my New World baking style.--Page 17.

*100 Pioneering Women* NATIONAL PORTRAIT

GALLERY.,2018-03 *100 Pioneering Women* presents a selection of images of remarkable women , who have defied the expectations of their gender and made extraordinary contributions to British life over the past four centuries. An introduction from the Gallery's

Senior Curator of Eighteenth Century Collections considers the representation of women in the Collection and the efforts being made to redress historical imbalances through the acquisition of portraits of notable women from the last four centuries. Extended captions provide context about each sitter's life and work and remind us of the impact of women in spheres as diverse as politics, science and medicine, the arts, engineering and law. This book features some of the National Portrait Gallery's most famous sitters - Elizabeth I, writer and women's rights advocate Mary Wollstonecraft, scientist Dorothy Hodgkin and architect and businesswoman Zaha Hadid - as well as paintings and photographs of lesser-known women whose influence is equally significant. A recently acquired portrait of anti-FGM campaigner and psychotherapist Leyla Hussein, a bromide cabinet card of Helena Normanton, the first woman to practise as a barrister in England, and a self-portrait by Angelica Kauffmann, one of the founding members of the Royal Academy, are also included in this highly illustrated publication.

**The Word Is Art** Michael Petry, 2021-07-08 There has been much scaremongering about the 'death of the book', and how, as words find new ways and means of transmission, young people might gradually begin to shun writing. In the digital age, text becomes information, and information strives to become free. But what value can text hold in the sphere of visual art? How is such text different from poetry? Can the poetic itself be visual art, or is text in this context consigned to the realms of gimmick and catchphrase? Looking at the work of a broad range of artists including Bruce Nauman, Julien Breton, Jeremy Deller, Takashi Murakami, Tracey Emin, Christian Boltanski and many more, *The Word is Art* examines each of these questions, contending above all that in the digital and online age, words have become more important than ever. With the advent of texting and social media, many predicted the debasement of language, and some have pointed to evidence of this in our so-called 'post-truth' culture.

Artist Michael Petry demonstrates that, on the contrary, words remain critical, powerful and central to art practice. Digital communication has seen the word as text permeate life in ways that the poets and artists of yesterday could never have imagined. Presenting a brief history of word- and book-based art, and examining major areas where the word has dominated artistic practice, this book takes us on a fascinating and richly illustrated global tour of diverse contemporary art forms. With 250 illustrations in colour
