*Citizen 13660* ,1983 Mine Okubo was one of 110,000 people of Japanese descent--nearly two-thirds of them American citizens -- who were rounded up into protective custody shortly after Pearl Harbor. Citizen 13660, her memoir of life in relocation centers in California and Utah, was first published in 1946, then reissued by University of Washington Press in 1983 with a new Preface by the author. With 197 pen-and-ink illustrations, and poignantly written text, the book has been a perennial bestseller, and is used in college and university courses across the country. [Mine Okubo] took her months of life in the concentration camp and made it the material for this amusing, heart-breaking book. . . . The moral is never expressed, but the wry pictures and the scanty words make the reader laugh -- and if he is an American too -- blush. -- Pearl Buck Read more about Mine Okubo in the 2008 UW Press book, Mine Okubo: Following Her Own Road, edited by Greg Robinson and Elena Tajima Creef. <http://www.washington.edu/uwpress/search/books/ROBMIN.html>

It also delves into what lies behind their imagery of a childish and decadent society unable to face reality.

Liquor Store Theatre Maya Stovall,2020-10-09 For six years Maya Stovall staged Liquor Store Theatre, a conceptual art and anthropology video project---included in the Whitney Biennial in 2017---in which she danced near the liquor stores in her Detroit neighborhood as a way to start conversations with her neighbors. In this book of the same name, Stovall uses the project as a point of departure for understanding everyday life in Detroit and the possibilities for ethnographic research, art, and knowledge creation. Her conversations with her neighbors—which touch on everything from economics, aesthetics, and sex to the political and economic racism that undergirds Detroit's history—bring to light rarely acknowledged experiences of longtime Detroiters. In these exchanges, Stovall enacts an innovative form of ethnographic engagement that offers new modes of integrating the social sciences with the arts in ways that exceed what either approach can achieve alone.

**The Japanese Culture of Mourning Whales** Mayumi Itoh,2017-12-05 This book provides an in-depth study of Japanese whaling culture, emphasizing how the Japanese have considered whales and whaling in relation to their understanding of nature and religion. It examines why and how the Japanese have mourned the deaths of whales, treating them as if they were human beings, and assesses the relevance of this culture to nature conservation and management of sustainable use of natural resources. It also sheds new light on Japanese whaling, one of the most controversial issues in the contemporary world, by highlighting the hitherto unknown aspects of Japanese beliefs about whales and whaling, which constitute an integral part of their core concept of how they should coexist with nature. Through cross-examining previous studies of Japanese whaling, as well as analyzing new documents and conducting field research on location, this book presents a comprehensive survey of Japanese whaling culture and memorial rites for whales and offers viable insights on how the Japanese whaling culture can be applied to solving current global issues, including nature conservation, management of sustainable use of natural resources, and protection of wildlife and its habitats.

The book is unique in that it provides the first full history of the last 200 years of Japanese clothing. It is also the first book to include Asian fashion as part of global fashion as well as fashion theory. It adds a hitherto absent continuity to the understanding of historical and current fashion in Japan, and is pioneering in offering possible theories to account for that entire history. By providing an analysis of how that entire history changes our understanding of the way fashion works, this book will be an essential text for all students of fashion and design.

**Future Living** Claudia Hildner, 2013-11-20 Single-family houses are becoming increasingly outdated. They offer no response to demographic change or to the fact that there are fewer and fewer life-long relationships. They are often too inflexible for new family models or ways of cohabitation. This publication presents projects in recent years in Japan, which respond to the need for new forms of housing. The architects are developing solutions that allow residents to live together but still maintain enough distance and privacy. The presented apartment types and their layout allow for a variety of life models. Particularly interesting here is the use of spaces that provide a gradual transition from public to private space—an approach to building that, according to experts, could revolutionize western residential architecture. The publication portrays these new forms of building and living based on prominent Japanese examples that include Shigeru Ban, Sou Fujimoto, and Akihisa Hirata.
