**British Car Advertising of the 1960s** Heon Stevenson,2015-03-27 During the 1960s, the automobile finally secured its position as an indispensable component of daily life in Britain. Abarth Buyer's Guide Peter Vack,2003-04-01 Carlo Abarth was a performance tuning maestro. He created and modified the small displacement Italian cars of the times, adding his own tuned exhausts, cylinder heads and other components. The results were championship-winning racers and street cars. The Abarth Buyer's Guide tells the story of all the Abarth cars, including the earliest Cisitalias, Fiats, Simcas, the Zagato and Bialbero cars, Porsche Abarth Carrera, Lancias, formula cars, record-setters and the sports racers. The book is built on an impressive archive of historical photographs, many of them rare original Abarth factory pictures. The detailed text chronicles the development history of Abarth, including specifications, restoration and authenticity notes, and the Buyer's Guide star investment ratings. Author Peter Vack is an Abarth enthusiast of long standing, and he writes of the cars with passion and experience. Over a period of 13 years, the Abarth Buyer's Guide has proven to be a very dependable and useful book for those interested in Abarth cars. Now in its third printing, it remains one of the best and most comprehensive Abarth books ever written. Of that we are proud. We hope that it will continue to encourage others to do further research and create enthusiasm for the restoration of all Abarths.

Maximum Mini Jeroen Booij,2009-03-15 This book focuses solely on the cars derived from the classic Mini. Small GTs, sports cars, roadsters and fun cars: Mini-derivatives that changed the specialist motoring market completely in the early sixties, and new designs kept it busy for nearly four

decades. from the well known Mini Marcos and Unipower GT that raced at Le Mans, to the very obscure but as exciting Coldwell GT or Sarcon Scarab, almost 60 cars are thoroughly researched, described and photographed in this book.

**A History of Japan's Government-Business Relationship**, 2020 Despite the economic and political importance of the U.S.-Japan relationship and the extensive attention paid to automotive trade, few American scholars or policy makers are familiar with the history of Japanese government-business relations, either generally or for specific industries such as passenger cars. This book hopefully helps in a small way to fill that gap in our knowledge and, thus, to help strengthen the foundation from which we make public policy decisions about bilateral trade. [ix].

Production and Packaging of Non-Carbonated Fruit Juices and Fruit Beverages Philip R. Ashurst, 2013-11-09 In the period of about five years since the first edition of this book appeared, many changes have occurred in the fruit juice and beverage markets. The growth of markets has continued, blunted to some extent, no doubt, by the recession that has featured prominently in the economies of the major consuming nations. But perhaps the most significant area that has affected juices in particular is the issue of authenticity. Commercial scandals of substantial proportions have been seen on both sides of the Atlantic because of fraudulent practice. Major strides have been made in the development of techniques to detect and measure adulterants in the major juices. A contribution to Chapter 1 describes one of the more important scientific techniques to have been developed as a routine test method to detect the addition of carbohydrates to juices. Another, and perhaps more welcome, development in non-carbonated beverages during the past few years is the rapid growth of sports drinks. Beverages based on glucose syrup have been popular for many years, and in some parts of the world isotonic products have long featured in the sports arena. A combination of benefits is now available from a wide range of preparations formulated and marketed as sports drinks and featuring widely in beverage markets world-wide. A new chapter reviews their formulation and performance characteristics. Another major trend in the area of fruit-containing non-carbonated beverages is the highly successful marketing of ready-to-drink products.

**The Rise of Ersatz Capitalism in South-East Asia** Kunio Yoshihara, 1988 This book by a leading expert considers the growth of an inefficient superlayer in Southeast Asian economies and assesses the problems that this poses for future economic development. Yoshihara argues that as technological backwardness, the low quality of government intervention, and discrimination against those of Chinese descent have prevented capitalism

from stimulating development, there has emerged a brand of ersatz capitalism very different from the capitalism in Japan and the West. He goes on to offer recommendations for creating a dynamic capitalism while acknowledging that obstacles to their implementation exist in current Southeast Asian social and political systems.
