The Terrible Yrsa Daley-Ward, 2018-06-05 Winner of the PEN Ackerley Prize • Longlisted for the 2019 PEN Open Book Award “Devastating and lyrical.” —The New York Times “Suspenseful and affecting.” —The New Yorker From the celebrated poet behind *bone*, a collection of poems that tells a story of coming-of-age, uncovering the cruelty and beauty of the world, going under, and finding redemption Through her signature sharp, searing poems, this is the story of Yrsa Daley-Ward and all the things that happened. “Even the terrible things. And God, there were terrible things.” It’s about her childhood in the northwest of England with her beautiful, careworn mother Marcia; the man formerly known as Dad (half fun, half frightening); and her little brother Roo, who sees things written in the stars. It’s also about the surreal magic of adolescence, about growing up and discovering the power and fear of sexuality, about pitch-gray days of pills and powder and connection. It’s about damage and pain, but also joy. With raw intensity and shocking honesty, *The Terrible* is a collection of poems that tells the story of what it means to lose yourself and find your voice. “You may not run away from the thing that you are because it comes and comes and comes as sure as you breathe.”

Peach Fuzz Lindsay Cibos, Jared Hodges, 2008-09 When Amanda begs her parents for a pet and they relent and get her a ferret, the previously calm household turns chaotic, and even worse, the ferret learns to fear Amanda, who knows nothing about how to take care of a pet.

Saved by a Song Mary Gauthier, 2021-07-06 A handbook for compassion... a Must-Read Music Book.” —Rolling Stone Country Generous and big-hearted, Gauthier has stories to tell and worthwhile advice to share. —Wally Lamb, author of *I Know This Much Is True* Gauthier has an uncanny ability to combine songwriting craft with a seeker’s vulnerability and a sage’s wisdom.” —Amy Ray, *Indigo Girls* From the Grammy nominated folk singer and songwriter, an inspiring exploration of creativity and the

redemptive power of song Mary Gauthier was twelve years old when she was given her Aunt Jenny's old guitar and taught herself to play with a Mel Bay basic guitar workbook. Music offered her a window to a world where others felt the way she did. Songs became lifelines to her, and she longed to write her own, one day. Then, for a decade, while struggling with addiction, Gauthier put her dream away and her call to songwriting faded. It wasn't until she got sober and went to an open mic with a friend did she realize that she not only still wanted to write songs, she needed to. Today, Gauthier is a decorated musical artist, with numerous awards and recognition for her songwriting, including a Grammy nomination. In *Saved by a Song*, Mary Gauthier pulls the curtain back on the artistry of songwriting. Part memoir, part philosophy of art, part nuts and bolts of songwriting, her book celebrates the redemptive power of song to inspire and bring seemingly different kinds of people together.

Bully Friends Kelechi Uchendu, 2020-07-14 Published by Emerald Publishers Written by a woman who dealt with bullying and bully friendships during grade school, *Bully Friends* teaches everyone (even the bully!) about how dangerous bully friendships really are. This book covers everything from defining what a bully friend is to how to heal from a bully friend relationship. Along the way, Kay Kay shares personal stories of her heartbreaking experiences with bully friends and how she went on to find herself and form healthy relationships now and in the future.

Introduction to Psychology Jennifer Walinga, Charles Stangor, This book is designed to help students organize their thinking about psychology at a conceptual level. The focus on behaviour and empiricism has produced a text that is better organized, has fewer chapters, and is somewhat shorter than many of the leading books. The beginning of each section includes learning objectives; throughout the body of each section are key terms in bold followed by their definitions in italics; key takeaways, and exercises and critical thinking activities end each section.

How God Becomes Real T.M. Luhrmann, 2022-04-26 The hard work required to make God real, how it changes the people who do it, and why it helps explain the enduring power of faith How do gods and spirits come to feel vividly real to people—as if they were standing right next to them? Humans tend to see supernatural agents everywhere, as the cognitive science of religion has shown. But it isn’t easy to maintain a sense that there are invisible spirits who care about you. In *How God Becomes Real*, acclaimed anthropologist and scholar of religion T. M. Luhrmann argues that people must work incredibly hard to make gods real and that this effort—by changing the people who do it and giving them the benefits they seek from invisible others—helps to explain the enduring power of faith. Drawing on ethnographic studies of evangelical Christians, pagans, magicians, Zoroastrians, Black Catholics, Santeria initiates, and newly orthodox Jews, Luhrmann notes that none of these

people behave as if gods and spirits are simply there. Rather, these worshippers make strenuous efforts to create a world in which invisible others matter and can become intensely present and real. The faithful accomplish this through detailed stories, absorption, the cultivation of inner senses, belief in a porous mind, strong sensory experiences, prayer, and other practices. Along the way, Luhrmann shows why faith is harder than belief, why prayer is a metacognitive activity like therapy, why becoming religious is like getting engrossed in a book, and much more. A fascinating account of why religious practices are more powerful than religious beliefs, *How God Becomes Real* suggests that faith is resilient not because it provides intuitions about gods and spirits—but because it changes the faithful in profound ways.

From Farms to Incubators Amy Wu, 2021-04-20 An exciting look at how women entrepreneurs are transforming agriculture through high technology. 21st-century agriculture is now on the cutting edge of technological innovation. Drones, AI, sophisticated soil sensors, data analytics, blockchain, and robotics are transforming agriculture into the growing field of agtech. And women entrepreneurs are the driving spirits making this transformation happen. *From Farms to Incubators* presents inspiring stories of how women entrepreneurs from diverse cultural and ethnic backgrounds are leading the agtech revolution. Each agribusiness leader profiled in *From Farms to Incubators* tells her own story of how she used agtech innovation to solve specific business problems and succeed. These

business cases demonstrate the influence of female innovation, the new technologies applied to agribusiness problems, and the career opportunities young women can find in agribusiness. From Farms to Incubators also documents the sweeping changes happening in American food production. Growers in the United States and around the world face rising challenges, including climate change, limited water and land supply, uncertainties in immigration policy, a severe labor shortage, and the problem of feeding a rising population estimated at 9 billion in 2050. The entrepreneurs profiled in From Farms to Incubators are the new leaders in tackling these problems through tech innovation. The women profiled speak frankly on the advantages and drawbacks of technological solutions to agriculture and offers lessons in making technology productive in real work. Offering both exhilarating role models for young women seeking high technology careers and a provocative glimpse into the future of food production, From Farms to Incubators documents how women leaders are profitably disrupting the world's oldest industry.

I Am the Night Sky Next Wave Muslim Initiative Writers, 2019-04 During an era characterized by both hijabi fashion models and enduring post-9/11 stereotypes, ten Muslim American teenagers came together to explore what it means to be young and Muslim in America today. These teens represent the tremendous diversity within the American Muslim community, and their book, like them, contains multitudes. Bilal writes about being a Muslim musician. Imaan imagines a dystopian Underground. Samaa creates her own cartoon Kabob Squad. Ayah responds to online hate. Through poems, essays, artwork, and stories, these young people aim to show their true selves, to build connection, and to create more inclusive and welcoming communities for all.
