Elaine Murphy

*Critical Point of View* Geert Lovink, Nathaniel Tkacz, 2011 For millions of internet users around the globe, the search for new knowledge begins with Wikipedia. The encyclopedia's rapid rise, novel organization, and freely offered content have been marveled at and denounced by a host of commentators. This book moves beyond unflagging praise, well-worn facts, and questions about its reliability and accuracy, to unveil the complex, messy, and controversial realities of a distributed knowledge platform. The essays, interviews and artworks brought together in this reader form part of the overarching 'Critical Point of View' research initiative, which began with a conference in Bangalore (January 2010), followed by events in Amsterdam (March 2010) and Leipzig (September 2010). With an emphasis on theoretical reflection, cultural difference and indeed, critique, contributions to this collection ask: What values are embedded in Wikipedia's software? On what basis are Wikipedia's claims to neutrality made?

**Path of the Assassin** Kazuo Koike, Goseki Kojima, 2007 A master ninja's duty is to protect the boy who would grow up to become Shogun and unify Japan.

**Angel dust** Aoi Nanase, 2003-10-01

Red Angel Makoto Tateno, 2008 A vampire brother and sister strive to uncover their forgotten past.

*Elling* Simon Bent, 2007 Elling and his roommate, the uncouth, reluctant virgin Kjell Bjarne, are the Odd Couple of Oslo: a pair of confused souls taking their first steps in the outside world after years of isolated, institutional life. Given a flat in the city by social services, they must re-assimilate themselves into society or face a return to the asylum.

**Beginners Guide to Aerial Silk** Jill Franklin, 2014-10-01 Jill Franklin's Beginners Guide to Aerial Silk provides complete easy to follow instruction for the beginning aerialist. In clear concise directions along with beautiful photos, Jill takes you on a lively tour from aerial silk fundamentals to learning how to climb, wrap, invert and spiral your body into and out of an array of positions. The book also includes an at home guide of strength building exercises that will help you excel more rapidly. Safety, clean technique and proper form are all emphasized throughout this guide. Beginners Guide to Aerial Silk is not intended as a sole learning avenue but rather a tool to assist you when taking aerial with a qualified instructor. This guide will help you gain the strength of a cirque performer, the lovely lines of a ballet dancer and the ease of movement like a Pilates pro. For information about Aerial Physique visit [www.aerialphysique.com](http://www.aerialphysique.com).

Little Gem Elaine Murphy, 2009 Elaine Murphy's debut play won the Best of Edinburgh Award and was critically acclaimed at the Traverse Theatre.

**The Bricklayer** Noah Boyd, 2010-01-26 NOW A MAJOR MOTION PICTURE STARRING NINA DOBREV AND AARON ECKHART “Terrific pace, surprises galore...Move over Jack Reacher, here comes The Bricklayer.” –James Patterson Someone will kill and kill again if it means he can fool the FBI . . . Ex-FBI agent Steve Vail is more than happy to leave the Bureau behind, but they aren't through with him yet. A group called the Rubaco Pentad is holding the FBI up for buckets of cash, with an escalating body count as leverage. The Feds are stumped. Some signs point to a corrupt agent while others lead to completely dead ends. Vail has built a reputation for being able to find anybody anywhere. Now, with no official ties, he's the perfect choice for this under-the-radar investigation. But as Vail well knows, going after people who use killing as a bargaining chip is asking for the worst kind of trouble. The Bricklayer is a gripping debut of an iconic new hero, and is brought to us with the startling authenticity only a real insider can provide. Noah Boyd has created a mind-twisting maze of clues inside a nonstop thrill ride that is guaranteed to keep readers on edge until the final page. Non-stop action and non-stop authenticity make this a real winner. –Lee Child Don't miss Steve Vail's next pulse-pounding thriller from Noah Boyd: Agent X, available now!

Video Vortex Reader , 2008

**Video Vortex Reader II** Geert Lovink, 2011

A History of Information Storage and Retrieval Foster Stockwell, 2007-10-19 Throughout history, humans have sought ways not only to acquire but to preserve knowledge. From when to plant crops to who begat whom, even the earliest people worked to gather and store information. Today, computers and other technologies have almost completely changed the world of information access and storage. This history traces the development of knowledge-collecting from early humans, whose minds served as repositories of culture and lore, through the first libraries and encyclopedias, to the many advances of the twentieth century. Ironically it is with these latest advances that the preservation of knowledge has foundered. For example, CD-ROMs can last no doubt for decades--but the software programs that run them will not, because they are constantly being upgraded. Both well-known and obscure pieces of the information story are explored in this work. From Diderot's encyclopedia, to anonymous librarians of the ancient world, the people who created information storage systems and the systems themselves are all presented. Fully indexed.

**C'lick Me** Katrien Jacobs, 2007 C'Lick Me: A Netporn Studies Reader is an anthology that collects the best material from two years of debate from The Art and Politics of Netporn 2005 conference to the 2007 C'Lick Me festival. The C'Lick Me reader opens the field of 'Internet pornography'. Based on non-conventional approaches and mixing academics, artists and activists, it reclaims a critical post-enthusiastic, post-censorship perspective on netporn, a dark field that has been dominated thus far by dodgy commerce and filtering. The C'Lick Me reader covers the rise of the netporn society from the Usenet underground to the blogosphere, analyses economic data and search engine traffic, compares sex work with the work of fantasy, disability and accessibility. The reader also expands the notion of digital desire beyond the predictable boundaries of the porn debate and depicts a broader libidinal spectrum ranging from fetish subcultures to digital alienation, from code pornography to war pornography. C'Lick Me concludes by re-contextualising queer discourse into a post-porn scenario.

**The Great Eb the Story of the Encyclopaedia Britannica** Herman Kogan, 2018-11-10 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

*Digital Barbarism* Mark Helprin, 2009-04-28 “A strange, wondrous, challenging, enriching book...Beautiful and powerful...you will not encounter another book like it.” –National Review online In Digital Barbarism, bestselling novelist Mark Helprin (Winter's Tale, A Soldier of the Great War) offers a ringing Jeffersonian defense of private property in the age of digital culture, with its degradation of thought and language and collectivist bias against the rights of individual creators. A timely, cogent, and important attack on the popular Creative Commons movement, Digital Barbarism provides rational, witty, and supremely wise support for the individual voice and its hard-won legal protections.

**Little Wolf's Book of Badness** Ian Whybrow, 2001-03-01 Little Wolf has been behaving too courteously, so his parents send him to his uncle's Big Bad Wolf school to learn to be a proper wolf.

Monthly Girls' Nozaki-kun, Vol. 12 Izumi Tsubaki,2021-06-01 Love’s got us spinning round and round... Yuzuki Seo never gives up! Her past Wakamatsu confession attempts were met with...well, not a positive response...so she just has to keep trying, right?! And she can’t expect much help from Kashima and Hori-senpai. After all, they’re struggling to deal with the aftermath of Hori’s awkward confession during the hypnosis-manga debacle...Meanwhile, on the Nozaki front, Sakura is the model for a new shoujo manga—which just may reveal Nozaki’s true feelings for her!

When Information Came of Age Daniel R. Headrick,2000-12-28 Although the Information Age is often described as a new era, a cultural leap springing directly from the invention of modern computers, it is simply the latest step in a long cultural process. Its conceptual roots stretch back to the profound changes that occurred during the Age of Reason and Revolution. When Information Came of Age argues that the key to the present era lies in understanding the systems developed in the eighteenth and early nineteenth centuries to gather, store, transform, display, and communicate information. The book provides a concise and readable survey of the many conceptual developments between 1700 and 1850 and draws connections to leading technologies of today. It documents three breakthroughs in information systems that date to the period: the classification and nomenclature of Linnaeus, the chemical system devised by Lavoisier, and the metric system. It shows how eighteenth-century political arithmeticians and demographers pioneered statistics and graphs as a means for presenting data succinctly and visually. It describes the transformation of cartography from art to science as it incorporated new methods for determining longitude at sea and new data on the measure the arc of the meridian on land. Finally, it looks at the early steps in codifying and transmitting information, including the development of dictionaries, the invention of semaphore telegraphs and naval flag signaling, and the conceptual changes in the use and purpose of postal services. When Information Came of Age shows that like the roots of democracy and industrialization, the foundations of the Information Age were built in the eighteenth and early nineteenth century.

**Netporn** Katrien Jacobs,2007 Netporn delves into the aesthetics and politics of sexuality in the era of do-it-yourself (DIY) Internet pornography. Katrien Jacobs, drawing on digital media theory and interviews with Web porn producers and consumers, offers an unprecedented critical analysis of Web culture as digital artistry and of the corresponding heightened government surveillance and censorship of the Internet. Netporn features Web users who question the goals of global commercial porn industries—whether they are engaged in Usenet fringes, video blogging, peer-to-peer distribution, porn art collectives, or decadent amateurism. Emphasizing gender and cultural differences, Jacobs shows how the creative uses of netporn images and services are important ways of exploring or redefining the 'network body' and indispensable ingredients of a maturing network society.
