Heuristic Research Clark Moustakas, 1990-07-01 Well-organized and well-referenced, this book gives a clear presentation of heuristic methodology as a systematic form of qualitative research. Investigators of human experiences will find this book invaluable as a research guide. The author illustrates how heuristic concepts and processes form components of the research design and become the basis for a methodology. There is a clear explanation of how heuristic inquiry works in practice and the actual process of conducting a human science investigation is described in detail.

Dialogic Ethics Ronald C. Arnett, François Cooren, 2018-06-14 Dialogic Ethics offers an impressionistic picture of the diversity of perspectives on this topic. Daily we witness local, regional, national, and international disputes, each propelled by contention over what is and should be the good propelling communicative direction and action. Communication ethics understood as an answer to problems often creates them. If we understand communication ethics as a good protected and promoted by a given set of communicators, we can understand how acts of colonialism and totalitarianism could move forward, legitimized by the assumption that “I am right.” This volume eschews such a presupposition, recognizing that we live in a time of narrative and virtue contention. We dwell in an era where the one answer is more often dangerous than correct.

Stalemate Icchokas Meras, Jonas Zdanys, 2020-11-24 A classic of Holocaust

literature from "one of the great masters of the short novel." –The New Yorker In the Vilna Ghetto during World War II, Nazi Commandant Schoger demands that all children be sent to the death camp. When Abraham Lipman pleads with him to spare their lives, Schoger reconsiders, and tells Lipman there will be a chess match between himself and Lipman's only surviving son, Isaac, a chess prodigy. If Isaac wins, the children will live, but Isaac will die. If Isaac loses, the children will die, but Isaac will live. Only a draw will save the ghetto from this terrible predicament. The chess game begins: a nightmarish contest played over the course of several evenings, witnessed by an audience impotent to act, staking the lives of their children on a stalemate. This is a moving story of a father and a son who shame their cruel perpetrator with their dignity, spirit, and extraordinary courage. Stalemate speaks to the power of humor even under the direst circumstances. As a parable that gives voice to the unspeakable, Stalemate is an antidote to despair. "Gripping . . . a truly memorable work." –Booklist

African Swine Fever in wild boar Food and Agriculture Organization of the United Nations, 2019-09-11 The purpose of document is to provide fact based overview of ASF ecology in the Northern and Eastern European populations of wild boar and briefly describe a range of practical management and biosecurity measures or interventions, which can help stockholders in the countries experiencing large scale epidemic of this exotic disease to address the problem in a more coherent, collaborative and comprehensive way. The handbook should not be viewed as an authoritative manual providing readymade solutions on how to eradicate ASF from wild boar. The facts, observations and approaches described in the document are presented with the intention to broadly inform veterinary authorities, wildlife conservation bodies, hunting community, farmers and general public about complexity of this novel disease and the need to wisely plan and carefully coordinate any efforts aiming at its prevention and control.

Sovereignty and the Sacred Robert A. Yelle, 2018-11-26 Sovereignty and the Sacred challenges contemporary models of polity and economy through a two-step engagement with the history of religions. Beginning with the recognition of the convergence in the history of European political theology between the sacred and the sovereign as creating “states of exception”—that is, moments of rupture in the normative order that, by transcending this order, are capable of re-founding or remaking it—Robert A. Yelle identifies our secular, capitalist system as an attempt to exclude such moments by subordinating them to the calculability of laws and markets. The second step marshals evidence from history and anthropology that helps us to recognize the contribution of

such states of exception to ethical life, as a means of release from the legal or economic order. Yelle draws on evidence from the Hebrew Bible to English deism, and from the Aztecs to ancient India, to develop a theory of polity that finds a place and a purpose for those aspects of religion that are often marginalized and dismissed as irrational by Enlightenment liberalism and utilitarianism. Developing this close analogy between two elemental domains of society, Sovereignty and the Sacred offers a new theory of religion while suggesting alternative ways of organizing our political and economic life. By rethinking the transcendent foundations and liberating potential of both religion and politics, Yelle points to more hopeful and ethical modes of collective life based on egalitarianism and popular sovereignty. Deliberately countering the narrowness of currently dominant economic, political, and legal theories, he demonstrates the potential of a revived history of religions to contribute to a rethinking of the foundations of our political and social order.

School, Family, and Community Partnerships Joyce L. Epstein, Mavis G. Sanders, Steven B. Sheldon, Beth S. Simon, Karen Clark Salinas, Natalie Rodriguez Jansorn, Frances L. Van Voorhis, Cecelia S. Martin, Brenda G. Thomas, Marsha D. Greenfeld, Darcy J. Hutchins, Kenyatta J. Williams, 2018-07-19 Strengthen programs of family and community engagement to promote equity and increase student success! Based on 30 years of research and fieldwork, the fourth edition of the bestseller *School, Family, and Community Partnerships: Your Handbook for Action*, presents tools and guidelines to help develop more effective and more equitable programs of family and community engagement. Written by a team of

well-known experts, it provides a theory and framework of six types of involvement for action; up-to-date research on school, family, and community collaboration; and new materials for professional development and on-going technical assistance. Readers also will find: Examples of best practices on the six types of involvement from preschools, and elementary, middle, and high schools Checklists, templates, and evaluations to plan goal-linked partnership programs and assess progress CD-ROM with slides and notes for two presentations: A new awareness session to orient colleagues on the major components of a research-based partnership program, and a full One-Day Team Training Workshop to prepare school teams to develop their partnership programs. As a foundational text, this handbook demonstrates a proven approach to implement and sustain inclusive, goal-linked programs of partnership. It shows how a good partnership program is an essential component of good school organization and school improvement for student success. This book will help every district and all schools strengthen and continually improve their programs of family and community engagement.

Becoming a Reflexive Researcher - Using Our Selves in Research Kim Etherington, 2004-06-15 'This is an optimistic book which advocates and describes a different research paradigm to be practiced and developed. Read it and research!' - Lapidus 'She has achieved her aim of the book being readable and giving insight into the processes of doing research through the lenses of the personal stories of researchers, whilst still writing a text that could be used as a core research method text for those who are themselves becoming reflective researchers. No matter what your background in the social sciences this original book, grounded in the reflexive practice of an experienced teacher and researcher, is well worth checking out'. -

Escalate 'Etherington (U, of Bristol) uses several narratives, including her own research diary and conversations with students and academics to demonstrate the way reflective research works in practice. Illustrating her points with poetry, paintings, metaphors and dreams, she suggests that recognizing the role of self in research can open up opportunities for creative and personal transformations. She also explores the use of reflexivity in counseling and psychotherapy practice and research.' - Book News This book raises important questions about whether or not researchers can ever keep their own lives out of their work. In contrast to traditional impersonal approaches to research, reflexive researchers acknowledge the impact of their own history, experiences, beliefs and culture on the processes and outcomes of inquiry. In this thought-provoking book, Kim Etherington uses a range of narratives, including her own research diary and conversations with students and academics, to show the reader how reflexive research works in practice, linking this with underpinning philosophies, methodologies and related ethical issues. Placing her own journey as a researcher alongside others, she suggests that recognising the role of self in research can open up opportunities for creative and personal transformations, and illustrates this idea with poetry, paintings and the use of metaphors and dreams. She explores ways in which reflexivity is used in counselling and psychotherapy practice and research, enabling people to become agents in their own lives. This book encourages researchers to reflect on how self-awareness can enrich relationships with those who assist them in their research. It will inspire and challenge students and academics across a wide range of disciplines to find creative ways of practising and representing their research.

The Oxford Illustrated History of the British Monarchy John Cannon, Ralph Alan Griffiths, 1988 This is the most authoritative account ever published of that most envied of British institutions: the monarchy. With over 400 illustrations - no less than one third of them in colour - it tells the full story of the monarchy, presenting a vivid picture not only of the lives of individual kings and queens, but also of the monarchy as a political and social force from Anglo-Saxon times to the present. The story begins in the fifth century; progressing through the Dark Ages, Ralph Griffiths describes the emergence of recognizable kingdoms in Scotland, Wales, and England. He then goes on to discuss the continental role of English monarchs from William the Conqueror to King John, and the refocusing of royal power in Britain from the thirteenth century with the extension of English rule to Wales, the consolidation of the Scottish kingdom, and the forging of a new relationship between monarch and nation. He also explains the way in which key traditions evolved, including the right of succession, coronations and marriages, oaths of loyalty and military service, the granting of lands and titles, and the propagation of a powerful image of royalty. John Cannon takes up the story from the reign of Henry VIII, and continues the exploration of these crucial themes. Guiding the reader through the governing monarchy of the Tudors and Stuarts and the changes that followed the loss of the throne in the Civil Wars, he goes on to look at the Hanoverians and the combination of personal rule and government by Parliament. Finally, he describes the emergence of the constitutional role of the crown in Queen Victoria's reign, and the enduring basis this has bestowed upon today's popular symbolic monarchy. Alongside this colourful and eventful tale of power and government, the book also looks at the many ways in which our social and cultural history has been shaped by

monarchs and the image of royalty - as landowners, builders, sportsmen and women, patrons of the arts, and as the focus of court life, whether idealized or profane. The main account is interspersed with individual panels which focus in vivid detail on each monarch and on key general themes, such as the peerage, chivalry, and coronation rituals. The book is lavishly illustrated throughout, and the text is accompanied by a comprehensive body of reference material, including colour maps, an illustrated section on royal residences and tombs, a consolidated list of monarchs, genealogies, suggestions for further reading, and a full index.

Families and Schools in a Pluralistic Society Nancy Feyl Chavkin, 1993-02-02

Recent research identifies increased parent involvement in education as a promising method to bolster student achievement. Statistics show that while many traditional white, middle class families have found ways to be involved with their children's schooling, our nation now needs to find ways to include more minority parents in their children's education. Most educators and parents would agree that minority parent involvement in education is essential; the mechanics of developing sensitive, realistic, and workable home-school relationships are more elusive. It requires a concerted effort by all involved to understand more about the complex parent-school relationship and to develop specific plans to help families. This comprehensive volume features substantial material from the nation's most renowned research projects on parent involvement—Stanford University's Center for the Study of Families, Children and Youth, the Johns Hopkins University's Center for Research on Elementary and Middle Schools, the Southwest Educational Development Laboratory, and the National Catholic Education Association. In

addition to a section on research, the book includes a section on practice that presents research-tested strategies on working with minority parents (Asian, American Indian, Hispanic, African American, and other minority groups). The book concludes with a section on future challenges that educators must confront and appendices on promising national programs and helpful resource materials.

China's Shadow Over Sikkim G. S. Bajpai, 1999 This book brings together some of the major events between the mid-nineteenth century when the British started making inroads into Sikkim, and the merger of Sikkim with India in 1975. During this period of about 100 years, Sikkim changed its status from an independent feudal state to a protectorate of the British Empire, then as a protectorate of independent India and finally as the 22nd state of the Union of India. When all, the factors and events of that period are put together and all that the people at that time had thought, done and gained and all their mischief, crimes, follies and misfortunes are viewed in the context of destiny of that region, they combine to form a picture which is at once tense and kaleidoscopic. It begins with the historical background with a brief history of the situation as it prevailed in Sikkim, Tibet, Bhutan & Nepal in the early 18th Century; with Sikkim becoming a British protectorate; examines the implications of the Anglo-Chinese Convention of 1890 followed by Lord Elgin with regard to the demarcation of the Sikkim-Tibet border; forward policy of Lord Curzon, the bogey of Russian intrigues in Tibet and the Younghusband expedition to Tibet; period of harmony and conflict of interests; Sino-Pak collusion and the Chinese ultimatum to open a second front in the Sikkim sector in support of Pakistan in its war against India in 1965; the pattern of Chinese propaganda & psychological warfare launched on

the Sikkim-Tibet border; China's unprovoked heavy firing at Nathu La and Cho La; internal turmoil during the decade of 1965-75, a period of fever, unrest, extreme tension and political changes.

Standard Languages and Language Standards in a Changing Europe Tore Kristiansen, Nikolas Coupland, 2011

The New Woman's Film Hilary Radner, 2017-01-20 With the chick flick arguably in decline, film scholars may well ask: what has become of the woman's film? Little attention has been paid to the proliferation of films, often from the independent sector, that do not sit comfortably in either the category of popular culture or that of high art--films that are perhaps the corollary of the middle-brow novel, or smart-chick flicks. This book seeks to fill this void by focusing on the steady stream of films about and for women that emerge out of independent American and European cinema, and that are designed to address an international female audience. The new woman's film as a genre includes narratives with strong ties to the woman's film of classical Hollywood while constituting a new distinctive cycle of female-centered films that in many ways continue the project of second-wave feminism, albeit in a modified form. Topics addressed include: *The Bridges of Madison County* (Clint Eastwood, 1995); the feature-length films of Nicole Holofcener, 1996-2013; the film roles of Tilda Swinton; *Rachel Getting Married* (Jonathan Demme, 2008); *Blue Jasmine* (Woody Allen, 2013); *Frances Ha* (Noah Baumbach, 2012), *Belle* (Amma Asante, 2013), *Fifty Shades of Grey* (Sam Taylor-Johnson, 2015) and Jane Campion's *Top of the Lake* (Sundance Channel, 2013-).
