*Conjunctive Markers of Contrast in English and French* Maïté Dupont,2021-06-15 Situated at the interface between corpus linguistics and Systemic Functional Linguistics, this volume focuses on conjunctive markers expressing contrast in English and French. The frequency and placement patterns of the markers are analysed using large corpora of texts from two written registers: newspaper editorials and research articles. The corpus study revisits the long-standing but largely unsubstantiated claim that French requires more explicit markers of cohesive conjunction than English and shows that the opposite is in fact the case. Novel insights into the placement preferences of English and French conjunctive markers are provided by a new approach to theme and rheme that attaches more importance to the rheme than previous studies. The study demonstrates the significant benefits of a combined corpus and Systemic Functional Linguistics approach to the cross-linguistic analysis of cohesion.

*Middlebrow Matters* Diana Holmes,2018 This is the first book to study the middlebrow novel in France. It asks what middlebrow means, and applies the term positively to explore the 'poetics' of the types of novel that have attracted 'ordinary' fiction readers - in their majority female - since the end of the 19th century.

*The Social Project* Kenny Cupers,2014-04-01 Winner of the 2015 Abbott Lowell Cummings prize from the Vernacular Architecture Forum Winner of the 2015 Sprio Kostof Book Award from the Society of Architectural Historians Winner of the 2016 International Planning History Society Book Prize for European Planning History Honorable Mention: 2016 Wylie Prize in French Studies In the three decades following World War II, the French government engaged in one of the twentieth century's greatest social and architectural experiments: transforming a mostly rural country into a modernized urban nation. Through the state-sanctioned construction of mass housing and development of towns on the outskirts of existing cities, a new world materialized where sixty years ago little more than cabbage and cottages existed. Known as the banlieue, the suburban landscapes that make up much of contemporary France are near-opposites of the historic cities they surround. Although these postwar environments of towers, slabs, and megastructures are often seen as a single utopian blueprint gone awry, Kenny Cupers demonstrates that their construction was instead driven by the intense aspirations and anxieties of a broad range of people. Narrating the complex interactions between architects, planners, policy makers, inhabitants, and social scientists, he shows how postwar dwelling was caught between the purview of the welfare state and the rise of mass

consumerism. The Social Project unearths three decades of architectural and social experiments centered on the dwelling environment as it became an object of modernization, an everyday site of citizen participation, and a domain of social scientific expertise. Beyond state intervention, it was this new regime of knowledge production that made postwar modernism mainstream. The first comprehensive history of these wide-ranging urban projects, this book reveals how housing in postwar France shaped both contemporary urbanity and modern architecture.

**I Think I Am a Verb** Thomas A. Sebeok, 2013-11-11 My writing career has been, at least in this one respect, idiosyncratic: it had to mark and chart, step by step, its own peculiar campaign. My earliest papers, beginning in 1942, were technical articles in this or that domain of Uralic linguistics, ethnography, and folklore, with a sprinkling of contributions to North and South American linguistics. In 1954, my name became fecklessly associated with psycholinguistics, then, successively, with explorations in mythology, religious studies, and stylistic problems. It now takes special effort for me to even revive the circumstances under which I came to publish, in 1955, a hefty tome on the supernatural, another, in 1958, on games, and yet another, in 1961, utilizing a computer for extensive sorting of literary information. By 1962, I had edged my way into animal communication studies. Two years after that, I first whiffled through what Gavin Ewart evocatively called the tulgey wood of semiotics. In 1966, I published three books which temporarily bluffed some of my friends into conjecturing that I was about to metamorphose into a historiographer of linguistics. The topmost layer in my scholarly stratification dates from 1976, when I started to compile what eventually became my semiotic tetralogy, of which this volume may supposably be the last. In the language of Jabberwocky, the word tulgey is said to connote variability and evasiveness. This notwithstanding, the allusion seems to me apt.

The Island of Rodrigues Alfred North-Coombes, 2002

The Chinese Written Character as a Medium for Poetry Ernest Fenollosa, Ezra Pound, Jonathan Stalling, Lucas Klein, 2009-08-25 First published in 1919 by Ezra Pound, Ernest Fenollosa's essay on the Chinese written language has become one of the most often quoted statements in the history of American poetics. As edited by Pound, it presents a powerful conception of language that continues to shape our poetic and stylistic preferences: the idea that poems consist primarily of images; the idea that the sentence form with active verb mirrors relations of natural force. But previous editions of the essay represent Pound's understanding—it is fair to say, his appropriation—of the text. Fenollosa's manuscripts, in the Beinecke Library of Yale University, allow us to see this essay in a different light, as a document of early, sustained cultural interchange between North America and East Asia. Pound's editing of the essay obscured two important features, here restored to view: Fenollosa's encounter with Tendai Buddhism and Buddhist ontology, and his concern with the dimension of sound in Chinese poetry. This book is the definitive critical edition of Fenollosa's important work. After a substantial Introduction, the text as edited by Pound is presented, together with his notes and plates. At the heart of the edition is the first full publication of the essay as Fenollosa wrote it, accompanied by the many diagrams, characters, and notes Fenollosa (and Pound) scrawled on the verso pages. Pound's deletions, insertions, and alterations to Fenollosa's sometimes ornate prose are meticulously captured, enabling readers to follow the quasi-dialogue between Fenollosa and his posthumous editor. Earlier drafts and related talks reveal the development of Fenollosa's ideas about culture, poetry, and translation. Copious multilingual annotation is an important feature of the edition. This masterfully edited book will be an essential resource for scholars and poets and a starting point for a renewed discussion of the multiple sources of American modernist poetry.
