The Spirit of a Christmas Tree Sally Huss, 2018-12-14 A tree longs to be a Christmas tree, but doesn't look the part, and fears he will never be chosen. He lingers on a rubbish pile until two children come onto a lot and find him. With their two dollars they purchase the tree and bring him home to their enthusiastic mother and siblings. Through the eyes of this appreciative family, the tree becomes a full-fledged, full-scented, magnificent Christmas tree. It is a wonderful Christmas after all, but most especially for the tree. Appreciation makes it so! Children who love the books by Dr. Seuss, the Berenstains, Suzy Spafford, Mo Willems, Sandra Boynton, Felicia Bond, Laura Numeroff, and P.D. Eastman will love *THE SPIRIT OF A CHRISTMAS TREE*. This children's picture book is part of the wonderful collection of children's books by Sally Huss.

The Giving Tree Shel Silverstein, 2014-02-18 As *The Giving Tree* turns fifty, this timeless classic is available for the first time ever in ebook format. This digital edition allows young readers and lifelong fans to continue the legacy and love of a classic that will now reach an even wider audience. Once there was a tree...and she loved a little boy. So begins a story of unforgettable perception, beautifully written and illustrated by the gifted and versatile Shel Silverstein. This moving parable for all ages offers a touching interpretation of the gift of giving and a serene acceptance of another's capacity to love in return. Every day the boy would come to the

tree to eat her apples, swing from her branches, or slide down her trunk...and the tree was happy. But as the boy grew older he began to want more from the tree, and the tree gave and gave and gave. This is a tender story, touched with sadness, aglow with consolation. Shel Silverstein's incomparable career as a bestselling children's book author and illustrator began with *Lafcadio, the Lion Who Shot Back*. He is also the creator of picture books including *A Giraffe and a Half, Who Wants a Cheap Rhinoceros?*, *The Missing Piece*, *The Missing Piece Meets the Big O*, and the perennial favorite *The Giving Tree*, and of classic poetry collections such as *Where the Sidewalk Ends*, *A Light in the Attic*, *Falling Up*, *Every Thing On It*, *Don't Bump the Glump!*, and *Runny Babbit*. And don't miss the other Shel Silverstein ebooks, *Where the Sidewalk Ends* and *A Light in the Attic*!

Hearts of Trees Marie Mohler, 2008-08-11 An affirming and inspirational story for readers of ALL ages! A majestic tree, who is radiant and robust in spring, summer, and fall, questions the necessity of her bare branches in the cold and darkness of winter. She is reminded by Mother Earth of the importance of winter's stillness-how this cold and quiet season allows Mother Earth to nourish our hearts the most, preparing us for the renewal and rebirth that comes each spring. This majestic tree learns how to find peace in the stillness and to shine her light for all to see. A great book and gift for anyone undergoing change, seeking healing and empowerment, connecting with Mother Earth, or looking for a cozy feel good book to inspire the soul.

The Purple Heart Tree Maureen Russell, 2018-09-21 A tree with a heart. A fantasy about a forest with a special tree. Angry trees, mean, and wonderful creatures. A bit of magic which makes a delightful short story.

Ancient Trees Beth Moon, 2014-09-09 Captivating black-and-white photographs of the world's most majestic ancient trees. Beth Moon's fourteen-year quest to photograph ancient trees has taken her across the United States, Europe, Asia, the Middle East, and Africa. Some of her subjects grow in isolation, on remote mountainsides, private estates, or nature preserves; others maintain a proud, though often precarious, existence in the midst of civilization. All, however, share a mysterious beauty perfected by age and the power to connect us to a sense of time and nature much greater than ourselves. It is this beauty, and this power, that Moon captures in her remarkable photographs.

This handsome volume presents nearly seventy of Moon's finest tree portraits as full-page duotone plates. The pictured trees include the tangled, hollow-trunked yews—some more than a thousand years old—that grow in English churchyards; the baobabs of Madagascar, called “upside-down trees” because of the curious disproportion of their giant trunks and modest branches; and the fantastical dragon's-blood trees, red-sapped and umbrella-shaped, that grow only on the island of Socotra, off the Horn of Africa. Moon's narrative captions describe the natural and cultural history of each individual tree, while Todd Forrest, vice president for horticulture and living collections at The New York Botanical Garden, provides a concise introduction to the biology and preservation of ancient trees. An essay by the critic Steven Brown defines Moon's unique place in a tradition of tree photography extending from William Henry Fox Talbot to Sally Mann, and explores the challenges and potential of the tree as a subject for art.

Tree of Dreams Laura Resau, 2019-03-26 A beating heart. A talking tree. The rain forest. Love. Mysticism. Harvest. And above all, chocolate. Dear Coco and Leo, I miss you! We all miss you! The whole forest misses you! I hear their thanks and wishes in my dreams. I hope you do, too. Prepare for a journey into a world filled with what so many crave -- the sweet savoring of a chocolate drop. A drop that can melt even the most troubled realities. But in this nuanced, heartrending story, before good can emerge, there is destruction, the bombarding of a people, their culture, heritage, sacred beliefs, and the very soul that drives their traditions. This urgent, beautiful novel takes readers into the ugly realities that surround the destruction of the Amazon rain forest and its people. Acclaimed author Laura

Resau shows us that love is more powerful than hatred, and that by working together, hope can be magically restored, root and branch.

The Trees of the Dancing Goats Patricia Polacco, 2013-11-26 Trisha loves the eight days of Hanukkah, when her mother stays home from work, her Babushka makes delicious potato latkes, and her Grampa carves wonderful animals out of

wood as gifts for Trisha and her brother. In the middle of her family's preparation for the festival of lights, Trisha visits her closest neighbors, expecting to find them decorating their house for Christmas. Instead they are all bedridden with scarlet fever. Trisha's family is one of the few who has been spared from the epidemic. It is difficult for them to enjoy their Hanukkah feast when they know that their neighbors won't be able to celebrate their holiday. Then Grampa has an inspiration: they will cut down trees, decorate them, and secretly deliver them to the neighbors, But what can we decorate them with? Babushka asks. Although it is a sacrifice, Trisha realizes that Grampa's carved animals are the perfect answer. Soon her living room is filled with trees -- but that is only the first miracle of many during an incredible holiday season. Based on a long cherished childhood memory, this story celebrates the miracle of true friendship.

Joseph Hopkins, 2013-09-17 Unearth the true story of green-thumbed pioneer and activist Kate Sessions, who helped San Diego grow from a dry desert town into a lush, leafy city known for its gorgeous parks and gardens. Katherine Olivia Sessions never thought she'd live in a place without trees. After all, Kate grew up among the towering pines and redwoods of Northern California. The Wisdom of the Tree M. D. Sellers, 2016-04-18 This book is about those big green things outside. The things that have enabled the existence of mankind. The things that make our oxygen, provide our drinking water, and shade our car parks. Trees are certainly clever things, and they have influenced us in ways that are so profound that it is odd how we are often hardly aware of them. This book shows that the link between man and tree is certainly real. But just how close are we to the tree? What is our real relationship? The Wisdom of the Tree is made up of 365 eclectic passages inspired by trees. It includes astonishing natural facts, personal philosophies, trees mentioned in the Bible, and trees in folklore, culture, and the human psyche. The Wisdom of the Tree is an easy-to-read yet thought-provoking book designed to instill awe for the world in which we live and show that it is far richer than what we can even imagine.

Witness Tree Lynda Mapes, 2017-04-11 An intimate look at one majestic hundred-year-old oak tree through four seasons--and the reality of global climate change it reveals. In the life of this one grand oak, we can see for ourselves the results of one hundred years of rapid environmental change. It's leafing out earlier, and dropping its leaves later as the climate warms. Even the inner workings of individual leaves have changed to accommodate more CO2 in our atmosphere. Climate science can seem dense, remote, and abstract. But through the lens of this one tree, it becomes immediate and intimate. In Witness Tree, environmental reporter Lynda V. Mapes takes us through her year living with one red oak at the Harvard Forest. We learn about carbon cycles

and leaf physiology, but also experience the seasons as people have for centuries, watching for each new bud, and listening for each new bird and frog call in spring. We savor the cadence of falling autumn leaves, and glory of snow and starry winter nights. Lynda takes us along as she climbs high into the oak's swaying boughs, and scientists core deep into the oak's heartwood, dig into its roots and probe the teeming life of the soil. She brings us eye-level with garter snakes and newts, and alongside the squirrels and jays devouring the oak's acorns. Season by season she reveals the secrets of trees, how they work, and sustain a vast community of lives, including our own. The oak is a living timeline and witness to climate change. While stark in its implications, *Witness Tree* is a beautiful and lyrical read, rich in detail, sweeps of weather, history, people, and animals. It is a story rooted in hope, beauty, wonder, and the possibility of renewal in people's connection to nature.

Finding the Mother Tree Suzanne Simard, 2021-05-04 INSTANT NATIONAL BESTSELLER NEW YORK TIMES BESTSELLER *WINNER of the 2021 Banff Mountain Book Prize in Mountain Environment and Natural History* *WINNER of the National Outdoor Book Award for Natural History Literature* *SHORTLISTED for the 2022 BC and Yukon Hubert Evans Non-Fiction Book Prize* *SHORTLISTED for the 2022 BC and Yukon Bill Duthie Booksellers' Choice Award* *SHORTLISTED for the 2021 Science Writers and Communicators of Canada Book Award* A world-leading expert shares her amazing story of discovering the communication that exists between trees, and shares her own story of family and grief. Suzanne Simard is a pioneer on the frontier of plant communication and intelligence; she's been compared to Rachel Carson, hailed as a scientist who conveys complex, technical ideas in a way that is dazzling and profound. Her work has

influenced filmmakers (the Tree of Souls in James Cameron's Avatar), and her TED talks have been viewed by more than 10 million people worldwide. Now, in her first book, Simard brings us into her world, the intimate world of the trees, in which she brilliantly illuminates the fascinating and vital truths—that trees are not simply the source of timber or pulp but are a complicated, interdependent circle of life; that forests are social, cooperative creatures connected through underground networks by which trees communicate their vitality and vulnerabilities with communal lives not that different from our own. Simard describes up close—in revealing and accessible ways—how trees, living side by side for hundreds of years, have evolved; how they perceive one another, learn and adapt their behaviors, recognize neighbors, and remember the past; how they have agency about their future; how they elicit warnings and mount defenses, compete and cooperate with one another with sophistication: characteristics previously ascribed to human intelligence, traits that are the essence of civil societies. And, at the center of it all, the Mother Trees: the mysterious, powerful forces that connect and sustain the others that surround them. Simard, born and raised in the rain forests of British Columbia, spent her days as a child cataloging the trees from the forest; she came to love and respect them and embarked on a journey of discovery and struggle. Her powerful story is one of love and loss, of observation and change, of risk and reward. And it is a testament to how deeply human scientific inquiry exists beyond data and technology: it's about understanding who we are and our place in the world. In her book, as in her groundbreaking research, Simard proves the true connectedness of the Mother Tree to the forest, nurturing it in the profound ways that families and human societies nurture one another, and how these inseparable bonds

enable all our survival.

If I Were a Tree, What Would I Be? Margaret Cheasebro, 2019-12-27 Katie and Francisco, two children who love trees, meet under a huge cottonwood in a meadow. They discover that each of them can hear trees with their hearts. They discover how wise the cottonwood is. They hear its loving message about what to do when they are bullied. The tree teaches them to stay focused so they won't daydream in school, and they find ways to help the cottonwood stay healthy.
