📖 **AMERICAN CARS, 1946-1959** J. “KELLY” FLORY, Jr.,2008-11-24 From the resumption of automobile production at the close of World War II through the 1950s, the American auto industry would see the births and deaths of several manufacturers, great technological advances, and an era of dramatic styling as a prospering nation asserted its growing mobility. Cars of this period are among the most iconic vehicles ever built in the United States: the 1949 Ford, the remarkable Studebaker designs of 1950 and 1953, the 1955-1957 Chevrolets, the Forward Look Chrysler products, the ill-fated Edsel and many others. This comprehensive reference book details every model from each of the major manufacturers (including independents such as Kaiser-Frazer and Crosley but excluding very low-volume marques such as Tucker) from model years 1946 through 1959. Year by year, it provides an overview of the industry and market, followed by an individual report on each company: its main news for the year (introductions or cancellations of models, new engines and transmissions, advertising themes, sales trends etc.); its production figures and market status; and its powertrain offerings, paint colors and major options. The company’s models are then detailed individually with such information as body styles, prices, dimensions and weights, standard equipment and production figures. Nearly 1,000 photographs are included.

📖 **THE LONG ISLAND MOTOR PARKWAY** Howard Kroplick,Al Velocci,2008-09-01 A forerunner of the modern highway system, the Long Island Motor Parkway was constructed during the advent of the automobile and at a pivotal time in American history. Following a spectator death during the 1906 Vanderbilt Cup Race, the concept for a privately owned speedway on Long Island was developed by William K. Vanderbilt Jr. and his business associates. It would be the first highway built exclusively for the automobile. Vanderbilt’s dream was to build a safe, smooth, police-free road without speed limits where he could conduct his beloved automobile races without spectators running onto the course. Features such as the use of reinforced concrete, bridges to eliminate grade crossings, banked curves, guardrails, and landscaping were all pioneered for the parkway. Reflecting its poor profitability and the availability of free state-built public parkways, the historic 48-mile Long Island Motor Parkway closed on Easter Sunday, April 17, 1938.

📖 **KAISER-FRAZER 1947-1955 PHOTO ARCHIVE** Patrick R. Foster,2009-06-15 It was like a marriage made in heaven, the coming together of two great minds to create an all-new car. Henry J Kaiser and Joseph Washington Frazer, strong-willed men of vision, boldly decided to take on America’s Big Three automakers. Hoping to position their Kaiser-Frazer Corporation in the big leagues of auto manufacturers they would launch a radical new car to capture the public’s imagination and produce it in unheard-of quantities. The cars were an immediate hit. Thousands lined up to see and buy the new Kaiser and Frazer cars. In time K-F introduced hardtops, sedans, convertibles, an impressive fiberglass sports car and a line of low-priced compact cars. But competition eventually proved overwhelming and Kaiser-Frazer production ended in the US, though Kaiser cars continued to be built in South America into the 1960s. This new book by veteran auto writer Patrick Foster—America’s spokesman for independent brand cars—tells the full story of Kaiser-Frazer’s struggle to succeed in an industry that killed so many competitors. Heartbreaking yet uplifting, it is an allegory of men and automobiles during perhaps the most exciting era the industry has ever known.

📖 **AMERICAN CAR SPOTTER’S GUIDE, 1920-1939** Tad Burness,1975 The author ... has collected illustrations of models from 217 auto manufacturers of this era, both familiar and obscure. And he provides an appendix with information on another 350-plus makes. In all, this book contains more than 2,600 illustrations, accompanied by a great deal of fascinating and valuable information on these increasingly rare and interesting cars.--Back cover.

📖 **WORLD CARS 1993** ,1993

📖 **CARS** Lou Phillips,2011 Contains information on U.S. car companies, identified by name, city, dates of automobile production, and auto body type; sometimes also has motor type, drive train, wheelbase size, brief history of company, and price of automobile at time of production.

📖 **AMERICAN CARS OF THE 1950s** Robert Genat,David Newhardt,2007-12-15 In the 1950s the American automobile industry arrived in style. In the postwar boom, Americans were flush and full of optimism. They wanted cars that reflected the spirit of the day, and automakers happily obliged. Thus began the decade of fins and whitewalls, craftsmanship and fine-tuned art on wheels--the decade celebrated in this book. Here are the cars that Detroit came up with, drawing on all the muscle and magic of the era, the unprecedented prosperity and new technologies and true feats of design. In splendid, full-color pictures and fact-filled text, the book recreates the iconic era of American automobiles, one car at a time. From stylish sports cars like the Corvette and Thunderbird, to luxury Lincoln and Cadillac sedans, to the inimitable models from independents like Nash, Studebaker, Crosley, American Cars of the 1950s conveys the spirit of automotive America at its best.

📖 **AMERICAN AUTOMOBILE MANUFACTURERS: THE FIRST FORTY YEARS** John Bell Rae,1959

📖 **PRESTON TUCKER AND HIS BATTLE TO BUILD THE CAR OF TOMORROW** Steve Lehto,Jay Leno,2016-07-01 In the wake of World War II, the U.S. automobile industry was fully unprepared to meet the growing demands of the public, for whom they had not made any cars for years. In stepped Preston Tucker, a salesman extraordinaire who announced the building of a revolutionary new car: the Tucker ’48, the first car in almost a decade to be built fresh from the ground up. Tucker’s car, which would include ingenious advances in design and engineering that other car companies could not match, captured the interest of the public, and automakers in Detroit took notice. Here, author Steve Lehto tackles Tucker’s amazing story, relying on a huge trove of documents that has been used by no other writer to date. It is the first comprehensive, authoritative account of Tucker’s magnificent car and his battles with the government. And in this book, Lehto finally answers the question automobile aficionados have wondered about for decades: exactly how and why the production of such an innovative car was killed.
