Print's Best Illustration & Photography Linda Silver,1993 From the tremendously rich variety of Print's Regional Design Annual winners, Print's editors have selected 200 superb applications of illustration and photography in a wide range of print communications for the latest in the Print's Best series. Because of the Regional Annual's dense format, these winning entries had to be shown small. This book provides the

opportunity not only to show the pieces at a generous size, thereby enhancing their impact, but also to feature many of them along with related materials. Here we have brilliantly effective ads, editorial spreads, posters, book and magazine covers, direct-mail, packaging, and corporate publications, all of which use illustration or photography, or a combination of the two, as a central element in the design. Publishing companies account for about a third of the work shown here - including newspaper pages, magazine covers and spreads, and book covers. Print ads represent many different kinds of businesses - among them beverage, food, delivery service, window manufacturers, and sports equipment companies. Posters promote arts festivals, art schools, seminars, and movies, and some do double duty as self-promotion pieces for their creators. Self-promotion for photographers and illustrators runs the gamut from posters and direct-mail pieces to printed ads. Corporate publications for well-known companies like IBM, Kodak, Adobe, and Strathmore include capability brochures, product promotions, and, of course, annual reports. The work shown covers the gamut of current illustrative and photographic techniques, making the book an invaluable resource for anyone in the design field.

The History of Terrorism Gérard Chaliand, Arnaud Blin, 2016-08-23 This authoritative work provides an essential perspective on terrorism by offering a rare opportunity for analysis and reflection at a time of ongoing violence, threats, and reprisals. Some of the best international specialists on the subject examine terrorism's complex history from antiquity to the present day and find that terror, long the weapon of the weak against the strong, is a tactic as old as warfare itself. Beginning with the Zealots of the first century CE, contributors go on to discuss the Assassins of the Middle Ages, the 1789 Terror movement in Europe, Bolshevik terrorism during the Russian Revolution, Stalinism, "resistance" terrorism during World War II, and Latin American revolutionary movements of the late 1960s. Finally, they consider the emergence of modern transnational terrorism, focusing on the roots of Islamic terrorism, al Qaeda, and the contemporary suicide martyr. Along the way, they provide a groundbreaking analysis of how terrorism has been perceived throughout history. What becomes powerfully clear is that only through deeper understanding can we fully grasp the present dangers of a phenomenon whose repercussions are far from over. This updated edition includes a new chapter analyzing the rise of ISIS and key events such as the 2015 Paris attacks.
