Aston Martin Richard Loveys,2015-04-10 Aston Martin is now more than a century old – and what a century it has been. Since its birth in London on the eve of the First World War, the company has experienced the highs of racing triumph – most famously in the 1959 Le Mans 24-hour race – and the lows of bankruptcy, yet throughout it all has been in the first rank of British marques. Published in association with the Aston Martin Heritage Trust and written by enthusiast Richard Loveys, Aston Martin is a fully illustrated history of the company that has created some of the the world's best loved and most widely respected cars, including James Bond's iconic DB5. It covers the cars themselves, the personalities and talents who have shaped Aston Martin from owners to engineers, the drivers who have shared with the company in racing glory, and the centenary celebrations of 2013.

**evo: Aston Martin** evo Magazine,2017-09-07 For more than 100 years, Aston Martin has created some of the most beautiful - and powerful - cars ever seen on road and track. Here, the experts at evo magazine look back at its glorious history, with first-hand, behind-the-wheel reports, technical information and performance stats. From the earliest surviving models to the latest machines, the greatest Astons of all time are tried and tested, accompanied by jaw-dropping photography from the world-renowned evo photographers. Special features explore the stories behind the famous James Bond cars, from Goldfinger DB5 to Spectre DB10, as well as the story of Aston on track, from early racing prototypes to Le Mans glory. An in-depth study of a motoring icon, evo: Aston Martin is a roll call of motoring excellence and a must-have for all petrolheads.

**Global Health Security** Anthony J. Masys,Ricardo Izurieta,Miguel Reina Ortiz,2020-01-01 With our highly connected and interdependent world, the growing threat of infectious diseases and public health crisis has shed light on the requirement for global efforts to manage and combat highly pathogenic infectious diseases and other public health crisis on an unprecedented level. Such disease threats transcend borders. Reducing global threats posed by infectious disease outbreaks – whether naturally caused or resulting from a deliberate or accidental release – requires efforts that cross the disaster management pillars: mitigation, preparedness, response and recovery. This book addresses the issues of global health security along 4 themes: Emerging Threats; Mitigation, Preparedness, Response and Recovery; Exploring the Technology Landscape for Solutions; Leadership and Partnership. The authors of this volume highlight many of the challenges that confront our global security environment today. These range from politically induced disasters, to food insecurity, to zoonosis and terrorism. More optimistically, the authors also present some advances in technology that can help us combat these threats. Understanding the challenges that confront us and the tools we have to overcome them will allow us to face our future with confidence.

**Images of Ancient America** John L. Sorenson,1998 Describes and displays many aspects of the civilization that arose in southern Mexico and northern Central America (Mesoamerica) thousands of years ago in order to help readers envision the lives of the people in the Book of Mormon--jacket.

The Economics of Sports Michael A. Leeds,Peter von

Allmen,2016-05-23 For undergraduate courses in sports economics, this book introduces core economic concepts developed through examples from the sports industry. The sports industry provides a seemingly endless set of examples from every area of microeconomics, giving students the opportunity to study economics in a context that holds their interest. The Economics of Sports explores economic concepts and theory of industrial organization, public finance, and labor economics in the context of applications and examples from American and international sports.

**Environmental Alteration Leads to Human Disease** Vittorio Ingegnoli,Francesco Lombardo,Giuseppe La Torre,2023-03-18 This book aims to explore the impact of human alterations of Earth's ecological systems on human health. Human activities are producing fundamental biophysical changes faster than ever before in the history of our species, which are accompanied by dangerous health effects. Drawing on advanced ecological principles, the book demonstrates the importance of using systemic medicine to study the effects of ecological alterations on

human health. Planetary Health is an interdisciplinary field, but first of all it must be systemic and it needs a preferential relationship between Ecology and Medicine. This relation is to be upgrading, because today both ecology and medicine pursue few systemic characters and few correct interrelations. We need to refer to new principles and methods sustained by the most advanced fields, as Landscape Bionomics and Systemic Medicine. Thus, we will be able to better discover environmental syndromes and their consequences on human health. Environmental transformations proposed by PHA (from biodiversity shifts to climate change) do not consider bionomic dysfunctions which can menace human health. On the contrary, finding advanced diagnostic criteria in landscape syndromes can strongly help to find the effects on human well-being. The passage from sick care to health care can't avoid the mentioned upgrading.

*A Thrilling Race* Patricia Harris, 2017-07-15 It's race day at Mr. Fred's racetrack. Who will win? This fast-paced story puts young readers in the driver's seat as Mary Ann and her friends zoom around the track. Basic concepts such as opposites and colors are introduced in this exciting fiction book, which accompanies the HABA game Monza. Readers will also learn about teamwork, problem solving, and the importance of being a good sport regardless of whether they win or lose. Age-appropriate text and colorful illustrations make this an enjoyable book for both emerging readers and younger listeners.

**Cuba's Car Culture** Tom Cotter, Bill Warner, 2016-10-01  
Cuba's Car Culture drives through Cuba's love of American

cars of the '40s and '50s, and the ingenuity that keeps them running despite the U.S. embargo. 2017 Silver Medal Winner of the International Automotive Media Competition! The story of how Cuba came to be trapped in automotive time is a fascinating one. For decades, the island country had enjoyed healthy tourism trade and American outpost status, and by the 1950s it had the highest per capita automotive purchasing of any Latin American country. But when Cuba fell to communist rebels in 1959, so ended the inflow of new cars. Since then, trade embargo forced Cuba's car enthusiasts to develop a unique and insular culture, one marked by great creativity, such as: -Keeping a car alive with no opportunity to acquire replacement parts - Customizing a car with no access to aftermarket parts - Drag racing with no drag strip In many ways, Cuba is an automotive time warp, where the newest car is a 1959 Chevy or perhaps one of the Soviet Ladas. Cuba's Car Culture offers an inside look at a unique car culture, populated with cars that have been cut off from the world so long that they've morphed into something else in the spirit of automotive survival. Authors Tom Cotter and Bill Warner (founder of the Amelia Island Concours) take readers on a whirlwind tour of all things automotive, beginning with Cuba's pre-Castro car and racing history, up to today's lost collector cars, street racing, and the challenges of keeping decades-old cars on the road. Cuba's Car Culture is illustrated throughout with rare historical photos as well as contemporary photos of Cuba's current car scene. For anyone who enjoys classic cars, whether they're old Chevy Bel-Airs, Studebakers, or Ford Fairlanes, a cruise around Cuba will make you feel like a kid in a candy store.

**The Bugatti Queen** Miranda Seymour, 2015-04-09

Born in 1900 to a soon-to-be-widowed postmaster's wife in

a small French village, Hélène Delangle's background offered no suggestion of the extraordinary life she was to lead. The first step was to leave the country behind and head to the city -- in this case, a Paris in the grip of an intoxicating 1920s blend of creativity and debauchery. She became a dancer, and then a stripper. But the demi-monde of gauze veils and admirers was not enough. A visit to the Actors' Championships, a uniquely French meeting of the theatrical world with the race-track, opened her eyes to the glamorous combination of machines and speed. Quickly establishing herself as a racer of uncommon talent and audacity, the beautiful woman now known as Hellé Nice -- Hellish Nice to her British fans -- then caught the attention of none other than Ettore Bugatti, founder of the marque with which her name will always be associated. And yet, despite the fame and the fortune she amassed in an unprecedented career, she died penniless and alone, an old woman in a crumbling Nice flat surrounded only by memories. THE BUGATTI QUEEN is the story of a great pioneer of motor racing who happened to be a woman. Re-creating her rollercoaster career with great verve and panache, Miranda Seymour brilliantly shows us a life now forgotten -- and makes it unforgettable.
