*The Season to Be Wary* Rod Serling,2014-01-18 *The Season*

*To Be wary* is unique in that it is one of the first examples of Rod Serling publishing stories he created first in narrative form. This collection of three novellas provides poignant insights into the human condition with all its' moral and ethical dilemmas. Of the three, *Escape Route* and *Eyes* were included in the pilot for *The Night Gallery*, with the latter starring Joan Crawford and directed by new comer, Steven Spielberg. Darkly disturbing, these stories remain relevant today.

*Big Hair* Grant McCracken,1995-04-01 From Marilyn, Twiggy & Farrah to Julia Roberts, Princess Di & Linda Evangelista, hair is a subject to be studied, coveted, & copied. In *Big Hair*,Ó the ultimate book about hair -- hair styles, hair color, hair stories & hair history, from beehives to bobs & beyond -- anthropologist McCracken spins a fun, hip cultural tale detailing how modern women use the power of hair to transform their lives. Hair, often dismissed as superficial girl stuff, is, in fact, loaded with a multitude of cultural signifiers. In

the universe of hair, blondness is a resource & an opportunity for self-exploration. But brunettes & redheads won't be disappointed because they are also deconstructed. After reading this book, you won't look at hair the same way again. B&W photos.

**Achtung-Panzer!** Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an

outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
