One Off Anatoly Arutunoff, 2009-02-15 Amateur road racer, raconteur and car guy extraordinaire, Anatoly Arutunoff tells a lifetime of his favorite true first person stories. From his youth in Bartlesville, Oklahoma, to participation at the real Targa Florio, to eventually winning the SCCA runoffs in his Morgan 4/4, to more recent times on the historic rally circuit Toly makes you think you were there sharing all the adventures and camaraderie. There are intriguing family moments, the exuberance of youth and brushes with greats such as Redman, Clark and Moss plus many lesser known players from the past sixty years who collectively molded the sports car culture that has always surrounded the author. Written in an uncomplicated and light-hearted style the reader will either renew a relationship or discover a new friend in a man who suggests, "All the car stuff I've done is a sort of cross-section of what you would have done, if you'd been young in the sixties and had the money." Ride with Toly on the roads and racetracks in America and Europe and share in an experience that is truly "One Off!"

Imsa ,2018-08-25 In 1969, John Bishop and Bill France, Sr. acted on a collective vision to plot a new course for road racing in the United States. What began as a Formula Ford and Formula Vee race in October of 1969, quickly morphed into a sports car racing series that brought the aspirational cars people drove, or wished to drive, to compete on a racetrack. Thus the International Motor Sports Association, or IMSA as it is more commonly known, was founded, and not long after domestic and import car-makers took notice as did the leading sports car racing drivers from at home and abroad. Today, 50 years after Bishop and France hatched their plan over a glass or two of scotch, compelled

by a shared passion to bring competitive racing for drivers and teams that would captivate fans and fuel the sale of sports cars in showroom across America, IMSA has stayed true to their vision. Along the way, there have been some twists. Yet, in whatever the form it was at the time, IMSA has undeniably produced a bounty of great sports car racing that often has witnessed the titans of the sport battle each other for supremacy. Today, IMSA continues to be a collection of legendary events contested by an international field of drivers and teams behind the wheel of the world's most illustrious automobile marques. Celebrating 50 years of IMSA, this book reacquaints us with just some of the people, cars and events through images and words from the sport's leading photographers and journalists that have played a role in creating IMSA's lore. Across these pages is journey of highlights and reminiscences, facts and possibly a tale or two to recall a fraction of what has transpired throughout IMSA's history, but will certainly inspire memories of your own.

Grand Prix Cars Denis Jenkinson, 2015-10-02 " In compiling this brief history of Grand Prix racing, along with descriptions of the more successful cars, I have limited myself to the period since World War II as the present day Grand Prix cars are mostly derived from the development and design of the early post war years. Although many ideas were taking shape in the period of the mid-thirties — such as the use of De Dion rear axle layouts, independent front suspension systems and hydraulic brakes — the main interest lay in engine design under a free ruling on capacity. It was not until about 1950 that a renaissance began in chassis design for Grand Prix cars and from then on a great deal of knowledge was gained; enough in fact, to enable roadholding to become a very

exact science rather than a hit-and-miss affair. This development in the chassis and the search for improved road holding and higher cornering power was accentuated by the beginning of the era of unsupercharged racing, when power outputs were severely curtailed and speed had to be found by other means ..." (1959 - Denis Jenkinson)

The Art of Gordon Crosby Peter Garnier, 2009 First published in 1978 by Hamlyn, this book, the only one to cover the life and work of the celebrated automotive and motor racing artist F. Gordon Crosby, has been difficult to obtain for many years. Crosby's work, however, has become more well known in the meantime, and original pieces are sold for increasingly high prices. His most productive period was the 1920s and 1930s, when he worked for Britain's leading automotive weekly, The Autocar. Working in media from charcoal to oils, his subjects ranged over motor racing action, caricatures, cartoons, technical illustrations, detailed cutaway drawings and depictions of fast cars at speed, always with a special sense of motion and excitement.

Jenks Stirling Moss, Denis Jenkinson, 1997 This volume is about one of motor racing's greatest writers: Denis Sargent Jenkinson, known affectionately as DSJ2 or Jenks. His famed column in Motor Sport was read avidly for the 40 years he was that magazine's

continental correspondent.
