**The Mindful Geek** Michael Taft, 2015-09-14 The Mindful Geek tells you how to derive the real world benefits of hardcore mindfulness meditation without drinking the metaphysical Kool-Aid. Meditation teacher, Michael W. Taft gives you step-by-step instructions in the powerful and reliable techniques of mindfulness meditation, and outlines the psychological and neuroscientific research underpinning these practices. By treating mindfulness as a scientifically-based, psychological technique, you can keep your atheistic or agnostic secular skepticism and still maintain a powerful, regular, and deeply effective meditation practice. That's because meditation doesn't require you to believe in it to work. Like any good technology, if you use it correctly, it will do the job reliably whether you believe in it or not. And make no mistake - meditation is a kind of technology; a technology for hacking the human wetware in order to improve your life. This book is a practical, hands-on manual about how to make the most of that technology for yourself. If you are smart, skeptical, technically-inclined, and have a desire to see what meditation is really all about, this book is for you. Michael has taught a lot of meditation programs at tech corporations like Google, so this material has been field-tested on some world-class geeks.

**Kaigun** David Evans, Mark Peattie, 2015-01-15 One of the great spectacles of modern naval history is the Imperial Japanese Navy's instrumental role in Japan's rise from an isolationist feudal kingdom to a potent military empire stridently confronting, in 1941, the world's most powerful nation. Years of painstaking research and analysis of previously untapped Japanese-language resources have produced this remarkable history of the navy's dizzying development, tactical triumphs, and humiliating defeat. Unrivalled in its breadth of coverage and attention to detail, this important new study explores the foreign and indigenous influences on the navy's thinking about naval warfare and how to plan for it. Focusing primarily on the much-neglected period between the world wars, David C. Evans and Mark R. Peattie, two widely esteemed historians, persuasively explain how the Japanese failed to prepare properly for the war in the Pacific despite an arguable advantage in capability.

Capital Ships of the Imperial Japanese Navy 1868-1945 Hans Lengerer, Lars Ahlberg, 2014 87 photos, 202 figures and drawings, 60 tables, and 15 maps and tracks. Recognising the impossibility of improving upon the (in)famous 5:5:3 ratio of the Washington Naval Treaty when the expected naval race would begin as the treaty expired, the Imperial Japanese Navy resorted to a strategy of qualitative superiority to overcome the American quantitative edge. The IJN succeeded, after many studies and false starts, in creating the world's most heavily armed (nine 18.1 main guns in three triple turrets - the largest calibre ever mounted) and protected (410-mm thick VH belt armor, 660-mm thick front shields of the gun houses - the thickest armour plates ever mounted) battleships. With a displacement in excess of 70,000 tons their size was unprecedented but despite this restrictions resulted in defects, which otherwise might have been avoided; other defects were the result of techniques below the highest standard. Because the qualities of a battleship were generally measured by gun power, protection and mobility the authors have focused upon these items after giving a rough outline of the design and building processes. The result is probably the most detailed description based upon Japanese sources

published outside Japan. Stimulated by Gustav Jensen's expanded dissertation *Japans Seemacht* and encouraged by Messrs. Erich Gröner and Prof. Jürgen Rohwer, Hans Lengerer began writing on the IJN in 1969. Over the years more than 50 articles have appeared in magazines like *Marine Rundschau*, *Marine Forum*, *Warship* and *Interconair Aviation e Marina*. After retirement from service in an executive organ, Lengerer continues to write books and articles using a considerable amount of time for his hobby. He is also the author of the privately published *Contributions to the History of Imperial Japanese Warships*, referred to in this book, and is presently working to revise and condense his 250,000-word manuscript *Development of Warship Construction in Japan* and to complete *A History of the Imperial Japanese Navy*. As hobby researcher at best, his writings depend heavily upon information supplied by other IJN fans; they come first therefore. Lars Ahlberg is on active duty with the Swedish Air Defence Regiment and is a military historian by avocation. He has written monographs about the IJN battleships of the Nagato class and the IJN aircraft carrier *Taihō*. His articles have appeared in *Sveriges Flotta*, *Warship International* and *Okrety Wojenne* and for several years he has been the editor of *Contributions to the History of Imperial Japanese Warships*. Ahlberg has also co-authored two books about Swedish regiments: *Kungl Hallands regementes historia 1962-2000* and *Kasernerna på Galgberget*.

**The Rough Guide to Film** Rough Guides, 2008-05-01 Get the lowdown on the best fiction ever written. Over 230 of the world's greatest novels are covered, from *Quixote* (1614) to Orhan Pamuk's *Snow* (2002), with fascinating information about their plots and their authors – and suggestions for what to read next. The guide comes complete with recommendations of the best editions and translations for every genre from the most enticing crime and punishment to love, sex, heroes and anti-heroes, not to mention all the classics of comedy and satire, horror and mystery and many other literary genres. With feature boxes on experimental novels, female novelists, short reviews of interesting film and TV adaptations, and information on how the novel began, this guide will point you to all the classic literature you'll ever need.

Battleships of World War 1 Antony Preston, 1972

*A Handbook of Modern Japan* Ernest Wilson Clement, 1903

*British Battleships 1919-1945* R A Burt, 2012-02-28 This superb reference book achieved the status of "classic" soon after its first publication in 1993; it was soon out of print and is now one of the most sought-after naval reference books. And with good reason. Offering an unprecedented range of descriptive and illustrative detail, the author describes the evolution of the battleship classes through all their modifications and refits. As well as dealing with design features, armour, machinery and power plants and weaponry, he also examines the performance of the ships in battle and analyses their successes and failures; and as well as covering all the RN's battleships and battlecruisers, he also looks in detail at the aircraft carrier conversions of the WWI battlecruisers *Furious*, *Glorious* and *Courageous*. *British Battleships 1919-1939* is a masterpiece of research and the comprehensive text is accompanied by tabular detail and certainly the finest collection of photographs and line drawings ever offered in such a book. For this new edition the author has added some 75 new photographs, many of them having never appeared in print before, and the book has been completely redesigned to fully exploit the superb photo collection. A delight for the historian, enthusiast and ship modeller, it is a volume that is already regarded as an essential reference work for this most significant era in naval history and ship design.

**Nelson to Vanguard** D. K. Brown, 2012-07-30 *Nelson to Vanguard* is the third volume in D K Brown's bestselling series on warship design and

development looks at the Royal Navy's response to the restrictions placed on it by the Washington Naval Treaties in the inter-war years, and analyses the fleet that was constructed to fight the Second World War. He focusses on the principal pre-war developments such as the first purpose-built aircraft carriers and the growing perception of the threat of air attack to warships. All the wartime construction programmes are covered, such as the massive expansion in escort ships to counter the U-boat menace, and the development of the amphibious warfare fleet for the D-Day landings in 1944. Full analysis is also provided of the experience of wartime damage, as well as the once top secret pre- and post-war damage trials. Illustrated throughout with a superb collection of contemporary photographs and numerous line drawings, this now classic work is required reading for naval historians and enthusiasts.

The Imperial Japanese Navy in the Pacific War Mark Stille,2014-11-20 An highly illustrated examination of the key ships, tactics and operations of the Imperial Japanese Navy in the War in the Pacific in World War II. The Imperial Japanese Navy (IJN) was the third most powerful navy in the world at the start of World War II, and came to dominate the Pacific in the early months of the war. This was a remarkable turnaround for a navy that only began to modernize in 1868, although defeats inflicted on the Russians and Chinese in successive wars at the turn of the century gave a sense of the threat the IJN was to pose. Bringing together for the first time material previously published in Osprey series books, and with the addition of new writing making use of the most recent research, this book details the Japanese ships which fought in the Pacific and examines the principles on which they were designed, how they were armed, when and where they were deployed and how effective they were in battle. The Imperial Japanese Navy in the Pacific War provides a history of the IJN's deployment and engagements, analysis of the evolution of strategy and tactics, and finally addresses the question of whether it truly was a modern navy, fully prepared for the rigors of combat in the Pacific. Illustrated throughout with photographs and detailed colour artworks, this is a valuable reference source for Pacific War enthusiasts and historians alike.

**Ming China** Craig Clunas,Jessica Harrison-Hall,Yu Ping Luk,2016 his illustrated publication is the outcome of the conference 'Ming: Courts and Contacts 1400-1450' held October 9-October 11, 2014 and that accompanied the British Museum's major exhibition *Ming: 50 years that changed China* (September 2014-January 2015). The scope of the exhibition and conference focused on Ming dynasty China in the years 1400 to 1450.
