Enormous Smallness Matthew Burgess,2015 Enormous Smallness is a nonfiction picture book about the poet E.E. Cummings. Here E.E.'s life is presented in a way that will make children curious about him and will lead them to play with words and ask plenty of questions as well. Lively and informative, the book also presents some of Cummings's most wonderful poems, integrating them seamlessly into the story to give the reader the music of his voice and a spirited, sensitive introduction to his poetry. In keeping with the epigraph of the book -- It takes courage to grow up and become who you really are, Matthew Burgess's narrative emphasizes the bravery it takes to follow one's own vision and the encouragement E.E. received to do just that. Matthew Burgess teaches creative writing and composition at Brooklyn College. He is also a writer-in-residence with Teachers & Writers Collaborative, leading poetry workshops in early elementary classrooms since 2001. He was awarded a MacArthur Scholarship while working on his MFA, and he received a grant from The Fund for Poetry. Matthew's poems and essays have appeared in various journals, and his debut collection, Slippers for Elsewhere, was published by UpSet Press. His doctoral dissertation explores childhood spaces in twentieth century autobiography, and he completed his PhD at the CUNY Graduate Center in June 2014. Kris Di Giacomo is an American who has lived in France since childhood. She has illustrated over twenty-five books for French publishers, which have been translated into many languages. Shut Up About Your Perfect Kid Gina Gallagher,Patricia Konjoian,2010-08-03 **AUTHORS' DISCLAIMER:** We are not in any way experts on parenting children with disabilities. Our goal is simply to share strategies that have worked for each of us in the event it may help those in a similar situation. If you're different from us (i.e., you are bright or of the perfect persuasion), we advise you not to try the following at home. On a "perfection-preoccupied planet," sisters Gina and Patty dare to speak up about the frustrations, sadness, and stigmas they face as parents of children with disabilities (one with Asperger's syndrome, the other with bipolar disorder). This refreshingly frank book, which will alternately make you want to tear your hair out and laugh your head off, should be required reading for parents of disabled children. Shut Up About Your Perfect Kid provides wise and funny advice about how to: • Find a support group—either online or in your community • Ensure that your child gets the right in-school support • Deal with people—be they friends, family members, or strangers—who say or do insensitive things to you or your child • Find fun, safe, and inclusive extracurricular activities for your child • Battle your own grief and seek professional help if you need it • Keep the rest of the family intact in moments of crisis

Cabin 135 Katie Eberhart,2020-12-15 As a young adult, Katie Eberhart moved to Cabin 135, a house on a knoll in remote Alaska. Over the next decade, growing up and growing into her home, she found herself thinking through her ever-changing ideas about aging and place, a lot of which were wrapped up closely in her experience of living in the house itself. Cabin 135 provided shelter and security, and it also offered lessons on economic disruptions and how ideas of normalcy change. In these pages, we share Eberhart's experience of digging into the past—figuratively and, in her garden, at an archaeology site, and in a national park, literally. Every layer peeled back, we find, reveals another story, another way of thinking about nature and the past—our own and that of others. In greenhouse and garden, yard, forest, and more distant places—a beach in southeast Alaska, the Arctic coast, Swiss Alps, Iceland, and even Biosphere-2 in Arizona—Eberhart engages with the world around her, and, through it, reflects on her own experiences and

journey through life. Offering a journey of wonder and curiosity, through the author's mind, a house's structure, and other places, Cabin 135 is a deft combination of memoir and nature writing, rich with thought and full of appreciation for—and profound concerns about—the world and our place in it.

The Four Tendencies Gretchen Rubin, 2017-09-12 NEW YORK TIMES BESTSELLER • Are you an Upholder, a Questioner, an Obliger, or a Rebel? From the author of *Better Than Before* and *The Happiness Project* comes a groundbreaking analysis of personality type that “will immediately improve every area of your life” (Melissa Urban, co-founder of the Whole30). During her multibook investigation into human nature, Gretchen Rubin realized that by asking the seemingly dry question “How do I respond to expectations?” we gain explosive self-knowledge. She discovered that based on their answer, people fit into Four Tendencies: • Upholders meet outer and inner expectations readily. “Discipline is my freedom.” • Questioners meet inner expectations, but meet outer expectations only if they make sense. “If you convince me why, I’ll comply.” • Obligers (the largest Tendency) meet outer expectations, but struggle to meet inner expectations—therefore, they need outer accountability to meet inner expectations. “You can count on me, and I’m counting on you to count on me.” • Rebels (the smallest group) resist all expectations, outer and inner alike. They do what they choose to do, when they choose to do it, and typically they don’t tell themselves what to do. “You can’t make me, and neither can I.” Our Tendency shapes every aspect of our behavior, so using this framework allows us to make better decisions, meet deadlines, suffer less stress, and engage more effectively. It’s far easier to succeed when you know what works for you. With sharp insight, compelling research, and hilarious examples, *The Four Tendencies* will help you get happier, healthier, more productive, and more creative.

Active Materials Peter Fratzl, Michael Friedman, Karin Krauthausen, Wolfgang Schaffner, 2021-12-20 What are active materials? This book aims to introduce and redefine conceptions of matter by considering materials as entities that ‘sense’ and respond to their environment. By examining the modeling of, the experiments on, and the construction of these materials, and by developing a theory of their structure, their collective activity, and their functionality, this volume identifies and develops a novel scientific approach to active materials. Moreover, essays on the history and philosophy of metallurgy, chemistry, biology, and materials science provide these various approaches to active materials with a historical and cultural context. The interviews with experts from the natural sciences included in this volume develop new understandings of ‘active matter’ and active materials in relation to a range of research objects and from the perspective of different scientific disciplines, including biology, physics, chemistry, and materials science. These insights are complemented by contributions on the activity of matter and materials from the humanities and the design field. Discusses the mechanisms of active materials and their various conceptualizations in materials science. Redefines conceptions of active materials through interviews with experts from the natural sciences. Contextualizes, historicizes, and reflects on different notions of matter/materials and activity through contributions from the humanities. A highly interdisciplinary approach to a cutting-edge research topic, with contributions from both the sciences and the humanities.
