Serenity Handbook Marc Sumerak,2018-06 If you've ever wondered what it's like to soar through space like a leaf on the wind in a Firefly spaceship, this is the manual for you. The Firefly-class transport ship was originally created by the Allied Spacecraft Corporation, but since the Browncoats' Independence War, it has become a favourite among smugglers on the Rim worlds. The aircraft's many nooks, crannies, and hidden compartments give it an incredible cargo capacity, and its speed and small size make it the perfect getaway vehicle. The many secrets of Serenity are revealed in this fascinating crew-created owner's manual, which features in-depth technical specifications and insightful commentary from the entire crew. Designed as an in-world crew-made manual for the ship, this book will allow fans of Firefly and Serenity to explore the iconic Firefly-class Series 3 ship in a whole new way.

The Serenity Handbook Marc Sumerak,2018-07-03 If you've ever wondered what it's like to soar through space like a leaf on the wind in a Firefly spaceship, this is the manual for you. You ever sail in a Firefly? The Allied Spacecraft Corporation's Firefly-class transport ship has become a favorite among smugglers on the Rim worlds since the Independence War. The spacecraft's many nooks, crannies, and hidden compartments give it an incredible cargo capacity, and its speed and small size make it the perfect getaway vehicle. But not all Firefly transports are made alike and, as revealed in this crew-created manual, the Series 3 Serenity is shinier than the rest of 'em. Featuring in-depth technical blueprints, personal mementos, and quippy commentary from Mal, Kaylee, and the rest of the crew, *The Serenity Handbook* dives deep into the heart of the beloved Firefly and celebrates the series' legacy.

HOW TO WORK FOR AN IDIOT (EasyRead Large Bold Edition) John Hoover, 2003 John Hoover, an organizational leadership consultant, discusses how to deal with an Idiot Boss - or I-Boss - who does stupid things. Hoover distinguishes idiots from other tricky bosses, including those who think they are God, or who are paranoid, sadistic or Machiavellian. He leaves the reader with a couple of issues. First, you'll think no good, caring bosses still exist. Second, he doesn't tell you clearly where to set boundaries or when enough is finally enough. He often advocates appeasing bad bosses, although his other counsel on how to deal with them has some effective pointers. To his credit, Hoover is very candid about how he has learned from experience, including his mistakes. He offers personal examples from his experiences at Disney and elsewhere, and tries to write in a light-hearted or whimsical vein. getAbstract.com finds the book strongest when it is strategic and weakest when it tries to be funny, given that with bad bosses you only laugh to keep from crying.

The Circle Dave Eggers, 2013-10-08 INTERNATIONAL BESTSELLER • A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (Vanity Fair). When Mae Holland is hired to work for the Circle, the world’s most powerful internet company, she feels she’s been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users’ personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company’s modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can’t believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus

grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman's ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.

Damn Few Rorke Denver, 2013-04-11 ****THE NEW YORK TIMES BESTSELLER**** With all the SEALs' recent successes, we have been getting a level of attention we are not used to. It's been flattering but something important has been missing from the discussion. People keep describing what we do, but no one has even scratched the surface of how and why. The unique psychology behind it. Operating in the world's most hostile environments, the Navy SEALs are highly skilled warriors, finely tuned and ready for action. Now, for the first time, Lieutenant Commander Rorke Denver offers a compelling and profound insight into the extreme bravery, borderline lunacy, and touching camaraderie of this elite brotherhood. Packed with tales from the gruelling training process and real-life operations, Rorke Denver recounts his evolution from a young SEAL hopeful pushing his way through Hell Week, into a warrior engaging in dangerous stealth missions across the globe, and finally into a lieutenant

commander directing the indoctrination programmes and the “Hero or Zero” missions his graduating SEALs undertake. From hunting Osama bin Laden to hostage rescues in Somalia and momentum-shifting operations in Afghanistan and Iraq, the SEALs hit hard and fast, moving in and out of conflict zones without leaving a trace. Through the course of Denver’s story, you’ll see what it takes to become one of them and why they are the damn few.
