Into the Wild Jon Krakauer, 2009-09-22 NATIONAL BESTSELLER • In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. Four months later, his decomposed body was found by a moose hunter. This is the unforgettable story of how Christopher Johnson McCandless came to die. It may be nonfiction, but *Into the Wild* is a mystery of the highest order. —Entertainment Weekly McCandless had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Not long after, he was dead. *Into the Wild* is the mesmerizing, heartbreaking tale of an enigmatic young man who goes missing in the wild and whose story captured the world's attention. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding—and not an ounce of sentimentality. *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

Alphabet Squadron (Star Wars) Alexander Freed, 2019-06-11 The first novel in a new trilogy starring veteran New Republic pilots! On the brink of victory in a brutal war, five New Republic pilots transform from hunted to hunters in this epic Star Wars adventure. Set after Return of the Jedi, Alphabet Squadron follows a unique team, each flying a different class of starfighter as they struggle to end their war once and for all. The Emperor is dead. His final weapon has been destroyed. The Imperial Army is in disarray. In the aftermath, Yrica Quell is just one of thousands of defectors from her former cause living in a deserters' shantytown—until she is selected to join Alphabet Squadron. Cobbled together from an eclectic assortment of pilots and

starfighters, the five members of Alphabet are tasked by New Republic general Hera Syndulla herself. Like Yrica, each is a talented pilot struggling to find their place in a changing galaxy. Their mission: to track down and destroy the mysterious Shadow Wing, a lethal force of TIE fighters exacting bloody, reckless vengeance in the twilight of their reign. The newly formed unit embodies the heart and soul of the Rebellion: ragtag, resourceful, scrappy, and emboldened by their most audacious victory in decades. But going from underdog rebels to celebrated heroes isn't as easy as it seems, and their inner demons threaten them as much as their enemies among the stars. The wayward warriors of Alphabet Squadron will have to learn to fly together if they want to protect the new era of peace they've fought so hard to achieve. Part of a Marvel and Del Rey crossover event, Alphabet Squadron is the counterpart to Marvel's TIE Fighter miniseries, which follows the exploits of Shadow Wing as they scheme to thwart the New Republic.

Beyond the Hallowed Sky Ken MacLeod, 2023-03-21 Mathematician Lakshmi Nayak receives a letter from her future self about faster-than-light travel. The equations work, and the letter itself seems to prove the possibility will someday be realized. But her paper on the topic is fiercely criticized, and she's warned away by a sinister Alliance agent. After defecting to the Union, she gets an unexpected offer: "I can build your ship." Shipbuilder John Grant learns of a secret project, which unknown to the world has been traveling to the stars for decades: Black Horizon. Biologist Emma Hazeldene works for Black Horizon on an alien world, Apis, whose life has clearly come from Earth, investigating rock formations that are thought to be an alien, crystal-like intelligence. But refugees exiled to a hard life in the wilds of Apis already know more than the scientists have ever suspected. Everything changes when the rocks wake up, with dire results. As secrets emerge and rival powers seize advantage, three worlds are shaken to their foundations—and all involved have to fight for their lives, and their futures. Science fiction legend Ken MacLeod begins a new space opera trilogy by imagining humankind on the precipice of discovery—the invention of faster-than-light travel unlocks a universe of new possibilities, and new dangers.

Soil and Culture Edward R. Landa, Christian Feller, 2010-01-28 SOIL: beneath our feet / food and fiber / ashes to ashes, dust to dust / dirt! Soil has been called the final frontier of environmental research. The critical role of soil in biogeochemical processes is tied to its properties and place—porous, structured, and spatially variable, it serves as a conduit, buffer, and transformer of water, solutes and gases. Yet what is complex, life-giving, and sacred to some, is ordinary, even ugly, to others. This is the enigma that is soil. *Soil and Culture* explores the perception of soil in ancient, traditional, and modern societies. It looks at the visual arts (painting, textiles, sculpture, architecture, film, comics and stamps), prose & poetry, religion, philosophy, anthropology, archaeology, wine production, health &

diet, and disease & warfare. Soil and Culture explores high culture and popular culture—from the paintings of Hieronymus Bosch to the films of Steve McQueen. It looks at ancient societies and contemporary artists. Contributors from a variety of disciplines delve into the mind of Carl Jung and the bellies of soil eaters, and explore Chinese paintings, African mud cloths, Mayan rituals, Japanese films, French comic strips, and Russian poetry.

Stupid Fucking Bird Aaron Posner, 2017-03-16 An aspiring young director rampages against the art created by his mother’s generation. A nubile young actress wrestles with an aging Hollywood star for the affections of a renowned novelist. And everyone discovers just how disappointing love, art, and growing up can be. In this irreverent, contemporary, and very funny remix of Chekhov’s *The Seagull*, Aaron Posner stages a timeless battle between young and old, past and present, in search of the true meaning of it all. Original songs composed by James Sugg draw the famously subtextual inner thoughts of Chekhov’s characters explicitly to the surface. *STUPID FUCKING BIRD* will tickle, tantalize, and incite you to consider how art, love, and revolution fuel your own pursuit of happiness.

First Lensman E.E Smith, 2016-02-15 The enemy spacefleet arrowed toward the

armored mountain-nerve center of the Galactic Patrol. The Patrol battle cruisers swerved to meet them, and a miles-long cone of pure energy ravened out at the invaders, destroying whatever it touched. But the moment before the force beam struck, thousands of tiny objects dropped from the enemy fleet and, faster than light, flashed straight at their target-each one an atom bomb powerful enough to destroy Patrol Headquarters by itself! The Galactic Patrol-and civilization itself-had seconds to live. Unless a miracle happened.... **

A Woman First: First Woman Selina Meyer, 2019-03-19 A hilarious parody memoir for the beloved Veep character portrayed for seven seasons by Emmy-winner Julia Louis-Dreyfus. Born and raised deep in the American heartland of God-fearing suburban Maryland, young Selina Eaton learned to love her country and her fellow man from her parents, Catherine, a sportswoman, dog lover, and philanthropist, and Gordon, or "Daddy" as she always called him, a businessman and entrepreneur. From an early age, Selina, an active, curious, happy-go-lucky child, showed an uncanny ability to relate to others and to solve their real-world problems with real-world solutions. In this she was inspired by her idol: feminist, humanitarian, stateswoman, and first lady, Eleanor Roosevelt. Eleanor Roosevelt maintained a lively relationship with many prominent figures of her time, including Adlai Stevenson, John F. Kennedy, Albert Schweitzer, and probably Pablo Casals. She inspired countless women to break out of the established roles for women in society, among them the pioneering aviatrix Amelia Earhart, with whom she flew several times. Dubbed the "Queen of the Air," Amelia Earhart captivated the nation both with her bravery, skill, and daring when flying her planes and when challenging society's hidebound attitudes as to what constituted a proper place for women. America mourned when she disappeared mysteriously somewhere in the Pacific during an attempted around-the-world flight in 1937. Speculation continues to this day as to Amelia's ultimate fate, even as hope has faded that she may yet be found alive. With wit, wisdom, eloquence, and fearless honesty, Selina Meyer reveals for the first time what really goes on in the halls of power, including the ultimate hall, the White House. It's all here: the triumphs, the tragedies, the personalities, and the momentous events that have shaped our times, brought together in a page-turning tale told as only Selina Meyer could tell it. Selina Meyer's compassion, her sense of humor, her grace, and her uncommon willingness to bare her heart make this story revelatory, beautifully rendered, and unlike any other president's memoir ever written. **First Woman: A Woman First** would be a fitting title for a book about Selina Meyer, Eleanor Roosevelt, or Amelia Earhart, but in this case, it is about Selina Meyer.

Making the Invisible Visible National Space Administration, Renee M. Rottner, 2017-11-03 This publication, **Making the Invisible Visible: A History of the Spitzer Infrared Telescope Facility (1971-2003)**, makes visible the invisible forces that influenced the design of Space Infrared Telescope Facility (SIRTF's) innovative technology. The lessons learned by the project team over the course of building SIRTF, now better known as the Spitzer Space Telescope, are about managing innovation over time and in the face of uncertainty. These are universal lessons, applicable to any project whose stakeholders control the necessary resources. SIRTF's stakeholders focused on a variety of issues: technical, scientific, political, and economic, as well as organizational needs and goals. What made SIRTF's evolution particularly

difficult was that the stakeholders changed over time-in their composition, goals, and influence.
