**The Scum Villain's Self-Saving System: Ren Zha Fanpai Ziji Xitong (Novel) Vol. 1** Mo Xiang Tong Xiu,2021-12-14 NEW YORK TIMES BEST SELLER! The blockbuster danmei/Boys' Love novels from China that inspired the animated Scumbag System series streaming in English! This hilarious story of a man reborn as a villain in a fantasy novel series who ends up romancing the male protagonist is now in English, for the very first time. Half-demon Luo Binghe rose from humble beginnings and a tortured past to become unrivaled in strength and beauty. With his dominion over both the Human and Demon Realms and his hundreds-strong harem, he is truly the most powerful protagonist...in a trashy webnovel series! At least, that's what Shen Yuan believes as he finishes reading the final chapter in Proud Immortal Demon Way. But when a bout of rage leads to his sudden death, Shen Yuan is reborn into the world of the novel in the body of Shen Qingqiu--the beautiful but cruel teacher of a young Luo Binghe. While Shen Qingqiu may have the incredible power of a cultivator, he is destined to be horrifically punished for crimes against the protagonist. The new Shen Qingqiu now has only one course of action: get into Luo Binghe's good graces before the young man's rise to power or suffer the awful fate of a true scum villain! This Chinese fantasy (xianxia) comedy built around the romanticized love between two men (danmei) has been translated into numerous languages and inspired the animated series Scumbag System, which amassed millions of streaming views--including the English version on YouTube through Tencent Video. As the first novel series by Mo Xiang Tong Xiu to spur a global multimedia franchise, this incredibly fun tale led the way to her future blockbusters in the danmei genre: Grandmaster of Demonic Cultivation and Heaven Official's Blessing. The Seven Seas English-language edition will include exclusive, all-new covers and interior illustrations from Xiao Tong Kong (Velinxi) and feature a translation by Faelicy (faelicy) & Lily (lily\_och0).

**Active Materials** Peter Fratzl,Michael Friedman,Karin Krauthausen,Wolfgang Schäffner,2021-12-20 What are active materials? This book aims to introduce and redefine conceptions of matter by considering materials as entities that 'sense' and respond to their environment. By examining the modeling of, the experiments on, and the construction of these materials, and by developing a theory of their structure, their collective activity, and their functionality, this volume identifies and develops a novel scientific approach to active materials. Moreover, essays on the history and philosophy of metallurgy, chemistry, biology, and materials science provide these various approaches to active materials with a historical and cultural context. The interviews with experts from the natural sciences included in this volume develop new understandings of 'active matter' and active materials in relation to a range of research objects and from the perspective of different scientific disciplines, including biology, physics, chemistry, and materials science. These insights are complemented by contributions on the activity of matter and materials from the humanities and the design field. Discusses the mechanisms of active materials and their various conceptualizations in materials science. Redefines conceptions of active materials through interviews with experts from the natural sciences. Contextualizes, historizes, and reflects on different notions of matter/materials and activity through contributions from the humanities. A highly interdisciplinary approach to a cutting-edge research topic, with contributions from both the sciences and the humanities.

**Knowing from the Inside** Tim Ingold,2022-02-24 Knowledge comes from thinking with, from and through things, not just about them. We get to know the world around us from the inside of our being in it. Drawing on the fields of anthropology, art, architecture and education, this book addresses what knowing from the inside means for practices of teaching and learning. If knowledge is not transmitted ready-made, independently of its application in the world, but grows from the crucible of our engagements with people, places and materials, then how can there be such a thing as a curriculum? What forms could it take? And what could it mean to place such disciplines as anthropology, art and architecture at the heart of the curriculum rather than - as at present - on the margins? In addressing these questions, the fifteen distinguished contributors to this volume challenge mainstream thinking about education and the curriculum, and suggest experimental ways to overcome the stultifying effects of current pedagogic practice.

**Twelve Years a Slave** Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

**Of Corpse** Peter Narvaez,2003-07 Laughter, contemporary theory suggests, is often aggressive in some manner and may be prompted by a sudden perception of incongruity combined with memories of past emotional experience. Given this importance of the past to our recognition of the comic, it follows that some traditions dispose us to ludic responses. The studies in Of Corpse: Death and Humor in Folklore and Popular Culture examine specific interactions of text (jokes, poetry, epitaphs, iconography, film drama) and social context (wakes, festivals, disasters) that shape and generate laughter. Uniquely, however, the essays here peruse a remarkable paradox---the convergence of death and humor.

Why Do Architects Wear Black? Cordula Rau,2017-09-25 Why is it really that architects wear black? was a question put to Cordula Rau by an automotive industry manager during an architectural competition. Even though she herself is an architect, and wears black, she did not have an answer on the spot. So she decided to ask other architects, as well as artists and designers. She has been collecting their handwritten replies in a notebook since 2001. In 2008, this collection of autographs appeared as a small publication – obviously bound in black. For the purpose of the new edition, this legendary collection was expanded by new notable, amusing, pragmatic, and quirky reasons: Please read – and don't ask me why architects wear black!. *Public Art and Museums in Cultural Districts* J. Pedro Lorente,2018-09-03 Museums and public art have traditionally taken significantly different approaches to customer engagement, but throughout history they have also worked together in some urban contexts, notably as landmarks of so-called cultural districts. Public Art and Museums in Cultural Districts reviews their changing interactions in many different types of cities since the Enlightenment, or even before, going back to the etymological origins of museums and monuments in classical antiquity. The type of historical enquiry presented within the volume is not intended as a total narrative, but the international study cases considered convey a global panorama of the shifting paradigms set in different periods by some cultural neighbourhoods and emulated worldwide. Blurring boundaries between art history, museology and urbanism, this critical account explores past tensions, achievements and failures, giving insightful consideration to present policies and pointing out reasonable recommendations for the future regarding public heritage. Presenting for the first time an insights into the role of collections of public art as landmarks of cultural districts, this book considers collections displayed outdoors from the double perspective of curatorial outreach and civic values. This book will fill a gap in the existing museum studies literature, hitherto mainly focused on indoor collecting and curatorial policies, but increasingly more and more attentive to their outside context. As such, the book should be of great interest to academics, researchers and students working in the fields of art, heritage, museum studies and urban history. It should also be of value to professionals working in the museum and art sectors.

The Idea of the Avant Garde Marc James Léger,2019-10-15 The concept of the avant garde is highly contested, whether one consigns it to history or claims it for present-day or future uses. The first volume of The Idea of the Avant Garde – And What It Means Today provided a lively forum on the kinds of radical art theory and partisan practices that are possible in today's world of global art markets and creative industry entrepreneurialism. This second volume presents the work of another 50 artists and writers, exploring the diverse ways that avant-gardism develops reflexive and experimental combinations of aesthetic and political praxis. The manifest strategies, temporalities, and genealogies of avant-garde art and politics are expressed through an international, intergenerational, and interdisciplinary convocation of ideas that covers the fields of film, video, architecture, visual art, art activism, literature, poetry, theatre, performance, intermedia and music.
