Robot Dreams Sara Varon, 2016-02-02 In this universal story of friendship, loss, and redemption, a dog and a robot become friends. But their days of friendship are numbered. This moving, charming graphic novel about a dog and a robot shows us in poignant detail how powerful and fragile relationships are. After a Labor Day jaunt to the beach leaves the robot rusted, immobilized in the sand, the dog must return alone to the life they shared. But the memory of their friendship lingers, and as the seasons pass, the dog tries to fill the emotional void left by the loss of his closest friend, making and losing a series of friends, from a melting snowman to epicurean anteaters. But for the robot, lying rusting on the beach, the only relief from loneliness is in dreams. This new paperback edition of *Robot Dreams* by Sara Varon includes new backmatter, including a Q&A with the author, behind-the-scenes sketches, and more. The 1964-1965 New York World's Fair Bill Cotter, Bill Young, 2014-01-20 Advertised as the Billion-Dollar Fair, the 1964-1965 New York World's Fair transformed a sleepy park in the borough of Queens into a fantasy world enjoyed by more than 51 million visitors from around the world. While many countries and states exhibited at the fair, the most memorable pavilions were built by the giants of American industry. Their exhibits took guests backward and forward in time, all the while extolling how marvelous everyday life would be through the use of their products. Many of the techniques used in these shows set the standard for future fairs and theme parks, and the pavilions that housed them remain the most elaborate structures ever built for an American fair. The 1964-1965 New York World's Fair showcases the beauty of this international spectacular through rare color photographs, published here for the first time.

Drawn to Television M. Keith Booker, 2006-08-30 Since late evening cartoons first aired in 1960, prime-time animated series have had a profound effect on American television and American culture at large. The characters and motifs from such shows as *The Flintstones* and *The Simpsons* are among the best-known images in world popular culture; and tellingly, even series that have not done well in prime time—series like *The Jetsons*, for instance—have yielded similarly iconic images. The advent of cable and several new channels devoted exclusively to animated programming have brought old series back to life in syndication, while also providing new markets for additional, often more experimental animated series. Even on the conventional networks, programs such as *The Flintstones* and *The Simpsons*, not to mention *Family Guy* and *King of the Hill*, have consistently shown a smartness and a satirical punch that goes well beyond the norm in network programming. *Drawn to Television* traces the history of prime-time animation from *The Flintstones* initial extension of Saturday mornings to *Family Guy* and *South Park*'s late-night appeal in the 21st century. In the process, it sheds a surprising light on just how much the kid inside us all still has to say. *Drawn to Television* describes the content and style of all the major prime-time animated series, while also placing these series within their political and cultural contexts. It also tackles a number of important questions about animated programming, such as: how animated series differ from conventional series; why animated programming tends to be so effective as a vehicle for social and political satire; what makes animated characters so readily convertible into icons; and what the likely effects of new technologies (such as digital animation) will be on this genre in the future.

Simpsons Comics Matt Groening,Max G. Davison,Ian Boothby,Nathan Kane,Mike W. Barr,David Seidman,Sergio Aragonés,2017 Bart starts his own humor magazine and it isn't long before Springfield's resident funnyman Krusty the Clown wants in on the business. Then, donut-lovers Homer Simpson and Chief Clancy Wiggum take over each other's deliciously do-nothing jobs. And speaking of switcheroos, Bart boards the wrong airplane and finds himself mistaken for a local Springshire lad, Brit Simpson. Throw in an alien abduction, a cosmic trip to an alternate reality, a contentious bar war, a ghostly superhero pairing, and a rescue mission beneath the nuclear power plant, and you have the most colossal compendium yet. And make that dream of a personal home theater a reality with your own scale model of Springfield's classic movie house, the Aztec Theater--Page 4 of cover.

With the Professor's help, they discovered the secret way. But waiting

for them was the scheming Prock, who would use almost any means to keep them away from his beloved king. The Stan Lee Story Roy Thomas, Taschen America, LLC, 2018

Typeset in the Future Dave Addey, 2018-12-11 A designer's deep dive into seven science fiction films, filled with "gloriously esoteric nerdery [and] observations as witty as they are keen" (*Wired*). In *Typeset in the Future*, blogger and designer Dave Addey invites sci-fi movie fans on a journey through seven genre-defining classics, discovering how they create compelling visions of the future through typography and design. The book delves deep into 2001: *A Space Odyssey*, *Star Trek: The Motion Picture*, *Alien*, *Blade Runner*, *Total Recall*, *WALL·E*, and *Moon*, studying the design tricks and inspirations that make each film transcend mere celluloid and become a believable reality. These studies are illustrated by film stills, concept art, type specimens, and ephemera, plus original interviews with Mike Okuda (*Star Trek*), Paul Verhoeven (*Total Recall*), and Ralph Eggleston and Craig Foster (Pixar). *Typeset in the Future* is an obsessively geeky study of how classic sci-fi movies draw us in to their imagined worlds.

The Life Engineered JF Dubeau, 2016-03-01 JF Dubeau's debut novel, *The Life Engineered* begins in the year 3594, where humanity is little more than a memory—a legend of the distant past destined to reappear. Capeks, a race of artificial creatures originally created by humans, have inherited the galaxy and formed a utopian civilization built on the shared goal of tirelessly working to prepare for their makers' return. One moment a cop dying in the line of duty in Boston, the next "reborn" as a Capek, Dagir must find her place in this intricate society. That vaguely remembered "death" was but the last of hundreds of simulated lives, distilling her current personality. A robot built for rescue and repair, she finds her abilities tested immediately after her awakening when the large, sentient facility that created her is destroyed, marking the only instance of murder the peaceful Capeks have ever known. For the first time in their history, conflicting philosophies clash, setting off a violent civil war that could lay waste to the stars themselves. Dagir sets off on a quest to find the killers, and finds much more than she sought. As the layers of the Capeks' past peel away to reveal their early origins, centuries-old truths come to light. And the resulting revelations may tear humanity's children apart—and destroy all remnants of humankind.

Simpsons Comics Ian Boothby, Mary Trainor (Comic book author), Len Wein, Chuck Dixon, Matt Groening, 2019 The curtain rises on a 'classic' tale of survival as the Simpson family is stranded on a deserted island. It's about to be the longest day of Homer Simpson's life! And when Mr. Burns goes to a spa to be rejuvenated, he comes back a new man—literally! Travel Peter Whitfield, 2011 No previous generation has ever travelled so energetically or so obsessively as ours, nor has travel writing ever been so much in fashion as it is now. But behind the self-conscious literary artistry of today's narratives there lies a rich and fascinating history of travel writing, stretching back over several thousand years. Travel writing has emerged from migration, war, exploration, trade, conquest, pilgrimage, science, and poetic longing. But when they recorded their travels, the military commanders of Greece and Rome, the navigators of the Age of Discovery, the diplomats and missionaries of the seventeenth century, the dilettantes who set out on the Grand Tour, the romantic travellers and the scientists of the nineteenth century all had one thing in common: they were re-imagining the world, re-interpreting it in their own minds and for their readers. This is the first general survey of the entire history of travel literature, with illustrations reproduced from manuscripts and books in the Bodleian Library's collections. Writers covered include Marco Polo, Sir John Mandeville, Thomas Coryate, Captain Cook, T.E. Lawrence, and Christopher Columbus as well as Boswell and Johnson, Byron, Ruskin, Defoe, Conrad, and James. This book highlights over a hundred texts, showing how one motive for travelling has been succeeded by another, and how travel writing has often inhabited a strange borderland between truth and imagination, fact and fiction. It demonstrates how travel writers have slowly outgrown their traditional stance of

superiority to all things 'foreign', and have moved towards a deeper sensitivity to other lands and other cultures.

The Huge Book of Hell Matt Groening, 2005-03-07 A second bumper collection of the classic Life in Hell cartoon strips from the 80s and 90s which were the basis for The Simpsons.
