Artful Math Activity Book Clarissa Grandi, 2020-02 The wonderful thing about mathematical art is that the most beautiful geometric patterns can be produced without needing to be able to draw, or be 'good at art'. Mathematical art is accessible to learners of all ages: its algorithmic nature means that it simply requires the ability to follow instructions carefully and to use a pencil and ruler accurately. It is engaging, enriching, thoroughly enjoyable and is a great leveller in the classroom. Learners who may not normally shine in mathematics lessons will take your breath away with their creativity. Those who struggle with their mathematics will experience the joy of success through their mathematical art-making. The six Artful Maths activities in this book are hands-on tasks that will develop important skills such as hand-eye co-ordination, manual dexterity and design thinking, which is a valuable form of problem-solving. Decisions need to be made about placement, size and colour, all of which entail thinking about measurements, proportions and symmetry. They can be undertaken alone or with a teacher to draw out the mathematics underlying the patterns and to practice key content in the school curriculum. For ages 9 to 16+. Contents: Curves of Pursuit, Mazes and Labyrinths, Impossible Objects, Epicycloids, Perfect Proportions, Parabolic Curves.

The Organic Artist for Kids Nick Neddo, 2020-02-11 Immersed in the natural world, *The Organic Artist for Kids* inspires creativity by connecting kids and their adults to our wilderness roots. In addition to offering a wide variety of fun, collaborative projects using nature as a source for art supplies and inspiration, this book also introduces the concepts of awareness and perception that are fundamental to the creative process. Children will be encouraged to learn new skills, build resilience, and be resourceful as part of an urgent struggle to prevent and undo Nature Deficit Disorder. Rooted in experimentation and an understanding that fun is fundamental to learning, kids will refine their drawing skills, as well as increase their appreciation for the visual arts and the natural landscape. Just some of the projects and skills covered include: Making pens and wild inks Making paint from stones and rocks Crafting your own paintbrushes Making simple stencils and rubbings *The Organic Artist for Kids* encourages you to return to the days when art was made with all-natural materials like charcoal and birch bark.

The Gathering Dark Leigh Bardugo, 2012 *The Shadow Fold*, a swathe of impenetrable darkness, crawling with monsters that feast on human flesh, is slowly destroying the once-great nation of Ravka. Alina, a lonely orphan, discovers a unique power that thrusts her into the lavish world of the kingdom's magical elite - the Grisha.

The Bone People Keri Hulme, 2005-04-01 Integrating both Maori myth and New Zealand reality, *The Bone People* became the most successful novel in New Zealand publishing history when it appeared in 1984. Set on the South Island beaches of New Zealand, a harsh environment, the novel chronicles the complicated relationships between three emotional outcasts of mixed European and Maori heritage. Kerewin Holmes is a painter and a loner, convinced that to care for anything is to invite disaster. Her isolation is disrupted one day when a six-year-old mute boy, Simon, breaks into her house. The sole survivor of a mysterious shipwreck, Simon has been adopted by a widower Maori factory worker, Joe Gillayley, who is both tender and horribly brutal toward the boy. Through shifting points of view, the novel reveals each character's

thoughts and feelings as they struggle with the desire to connect and the fear of attachment. Compared to the works of James Joyce in its use of indigenous language and portrayal of consciousness, *The Bone People* captures the soul of New Zealand. After twenty years, it continues to astonish and enrich readers around the world.

Lots of Spots Lois Ehlert, 2011-04-05 Caldecott Honor artist Lois Ehlert invokes birds and beasts from all walks of the animal kingdom in this collection of fun, clever, and witty poems. Beautifully illustrated in Lois's signature bold and bright collage style, this exploration of camouflage and adornment will both illuminate and delight.

Jackie Ormes Nancy Goldstein, 2008 In the United States at mid-century, in an era when there were few opportunities for women in general and even fewer for African American women, Jackie Ormes blazed a trail as a popular artist with the major black newspapers of the day. Jackie Ormes chronicles the life of this multiply talented, fascinating woman who became a successful commercial artist and cartoonist. Ormes's cartoon characters (including Torchy Brown, Candy, and Patty-Jo 'n' Ginger) delighted readers of newspapers such as the *Pittsburgh Courier* and *Chicago Defender*, and spawned other products, including fashionable paper dolls in the Sunday papers and a black

doll with her own extensive and stylish wardrobe. Ormes was a member of Chicago's Black elite in the postwar era, and her social circle included the leading political figures and entertainers of the day. Her politics, which fell decidedly to the left and were apparent to even a casual reader of her cartoons and comic strips, eventually led to her investigation by the FBI. The book includes a generous selection of Ormes's cartoons and comic strips, which provide an invaluable glimpse into U.S. culture and history of the 1937-56 era as interpreted by Ormes. Her topics include racial segregation, cold war politics, educational equality, the atom bomb, and environmental pollution, among other pressing issues of the times. I am so delighted to see an entire book about the great Jackie Ormes! This is a book that will appeal to multiple audiences: comics scholars, feminists, African Americans, and doll collectors. . . . ---Trina Robbins, author of *A Century of Women Cartoonists* and *The Great Women Cartoonists* Nancy Goldstein became fascinated in the story of Jackie Ormes while doing research on the Patty-Jo Doll. She has published a number of articles on the history of dolls in the United States and is an avid collector.

Soldier's Heart Carol Tyler, 2015-10-23 In the wake of Alison Bechdel's *Fun Home* and Art Spiegelman's *Maus* comes cartoonist Carol Tyler's multigenerational graphic memoir, *You'll Never Know*. The author chronicles her fraught relationship with her father, Charles, a WWII veteran, and how the war affected their lives through both childhood and adulthood. *You'll Never Know* is also a tribute to servicemen and women, dramatizing the trauma of the war on the Greatest Generation and those who followed. Tyler's ink and watercolor narrative is in turns sprawling and gimlet-eyed: compassionate and enraged. Her father's memories are woven into her own, which span her Catholic, Midwestern childhood; her troubled marriage; her daughter's struggles; and her efforts to care for her aging parents. Even though Tyler's work has an accessible, homemade feel (the organizing metaphor of the book is a photo album with "snapshots" of Tyler family life), *You'll Never Know* is a sophisticated graphic work about war, love, and loss.
