Capitalism From Within David L. Howell,2018-05-04 Japan's stunning metamorphosis from an isolated feudal regime to a major industrial power over the course of the nineteenth and early twentieth centuries has long fascinated and vexed historians. In this study, David L. Howell looks beyond the institutional and technological changes that followed Japan's reopening to the West to probe the indigenous origins of Japanese capitalism.

Suki's Kimono Chieri Uegaki, 2003-09-01 Suki's very favorite thing is her blue cotton kimono and she is determined to wear it on her first day back to school--no matter what anyone says.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Conquer the Crash Robert R. Prechter, Jr., 2009-11-20 Today's financial and economic tribulations were a long time in the making. Many people ask, Why didn't someone see it coming? A New York Times bestselling book did see it coming. Over 100,000 people read it in time to protect their wealth. The book foresaw and explained the collapse in home prices, plunge in stocks, subprime debacle, liquidity crisis, the demise of Fannie and Freddie, the Federal Reserve's failure to turn the trend, and lots more. The book was Robert Prechter's Conquer the Crash, published in early 2002, when the Dow was above 10,000 and the financial world was partying around-the-clock. Fast forward to today: the average U.S. homeowner has suffered a decline of 30% to 40% in property value. Stocks and commodities had their biggest fall since 1929-1932. Fannie Mae is a zombie corporation under the government's protection. The Fed has pushed every button at its disposal (and then some), to no avail. If Prechter thought a whole new book would help, he'd have written one. But Conquer the Crash is a book-length forecast that's still coming true -- only some of the future has caught up with the specific predictions he published back then. There is much more to come. That means more danger, but also great opportunity. Conquer the Crash, 2nd edition offers you 188 new pages of vital information (480 pages total) plus all the original forecasts and recommendations that make the book more compelling and relevant than the day it published. In every disaster, only a very few people prepare themselves beforehand. Think about investor enthusiasm in 2005-2008, and you'll realize it's true. Even fewer people will be ready for the soon-approaching, next leg down of the unfolding depression. In this 2nd edition, Prechter gives a warning he's never had to include in 30 years of publishing -- namely, that the doors to financial safety are closing all over the world. In other words, prudent people need to act while they can. Conquer the Crash, 2nd Edition readers will receive exclusive online access to the Conquer the Crash Readers Page, where Prechter continually updates the book's recommended services and institutions.

In the Year of the Boar and Jackie Robinson Bette Bao Lord, 2019-04-02 A timeless classic that will enchant readers who love Jennifer L. Holm and Thanhha Lai, about an immigrant girl inspired by the sport she loves to find her own home team--and to break down any barriers that stand in her way. Shirley Temple Wong sails from China to America with a heart full of dreams. Her new home is Brooklyn, New York. America is indeed a land full of wonders, but Shirley doesn't know any English, so it's hard to make friends. Then a miracle happens: baseball! It's 1947, and Jackie Robinson, star of the Brooklyn Dodgers, is a superstar. Suddenly Shirley is playing stickball with her class and following Jackie as he leads the Brooklyn Dodgers to victory after victory. With her hero smashing assumptions and records on the ball field, Shirley begins to feel that America is truly the land of opportunity--and perhaps has also become her real home.

The Great Wall of Lucy Wu Wendy Wan-Long Shang, 2013-01-01 Lucy Wu, aspiring basketball star and interior designer, is on the verge of having the best year of her life. She's ready to rule the school as a sixth grader, go out for captain of the school basketball team, and take over the bedroom she has always shared with her sister. In an instant, though, her plans are shattered when she finds out that Yi Po, her beloved grandmother's sister, is coming to visit for several months -- and is staying in Lucy's room. Lucy's vision of a perfect year begins to crumble, and in its place come an unwelcome roommate, foiled birthday plans, a bully who tries to scare Lucy off the basketball team, and Chinese school with the annoying know-it-all Talent Chang. Lucy's year is ruined -- or is it? A wonderfully funny, warm, and heartfelt tale about the ways life often reveals silver linings in the most unexpected of clouds.

Healing the Soul in the Age of the Brain Elio Frattaroli, 2002-08-27 We would all like a quick fix for our problems, a simple pill to take away our anxiety and lift us out of our depression. But there is no quick fix for the soul, and anxiety and depression may be signals of the soul's unmet needs. In this landmark work, Dr. Elio Frattaroli challenges our fixation on psychiatry's Medical Model, which treats mental illness solely with drugs instead of seeking a deeper understanding of our problems--in other words, treating symptoms rather than people. Combining a Renaissance humanism with a sophisticated understanding of modern science, he makes an impassioned, persuasive case for listening to the soul--paying attention to the inner life of the emotions, both in psychotherapy and in our everyday lives. Drawing upon philosophy, literature, psychology, and riveting case histories from his own life and practice, Frattaroli explores what has happened to a culture that has been

listening to Prozac and hearing nothing else.

We Are Inspiring Angel Trazo,2019-07-10 We Are Inspiring is a children's book anthology featuring the stories of 32 Asian American and Pacific Islander women. This work encompasses API femmes of various ethnicities, occupations, and body sizes, and is inclusive of LGBTQ folks, immigrants, and mixed-race women. How many Asian American women can you name? Designed for reading-with your child or for children ages 10+ to read independently, We Are Inspiring brings to life the inspiring stories of Asian American women from various backgrounds, ethnicities, and professions. Asian American history is an integral part of American history, yet it is often untold or oppressed. I hope that women (femme-identifying or non-binary folks) and our allies are inspired by the Americans whose stories I authored and illustrated. I especially hope that when Asian American women flip through the pages of my children's book, they can see themselves represented, acknowledged, validated, and inspired to chase their dreams by the women who inspired me to chase my own.I wondered why I couldn't find this kind of book anywhere... I realized it was because I hadn't made it yet. Dear reader, thank you for supporting me in my mission to create the book of American stories that I have wanted to hold since I was child.
