The Annihilation Score Charles Stross,2016-06-28 From the Hugo Award-winning author of The Rhesus Chart comes another supernatural case from The Laundry Files... Dominique O'Brien—her friends call her Mo—lives a curious double life with her husband, Bob Howard. To the average civilian, they're boring middle-aged civil servants. But within the labyrinthine secret circles of Her Majesty's Government, they're operatives working for the nation's occult security service known as the Laundry, charged with defending Britain against dark supernatural forces threatening humanity. Unfortunately, one of those supernatural threats has come between Mo and Bob. An antique violin, an Erich Zahn original, made of white human bone, was designed to produce music capable of slaughtering demons. Mo is the custodian of this unholy instrument. It invades her dreams and yearns for the blood of her colleagues—and her husband. And despite Mo's proficiency as a world-class violinist, it cannot be controlled...

Divergent Modernities Julio Ramos,2001-06-22 With a Foreword by José David Saldívar Since its first publication in Spanish nearly a decade ago, Julio Ramos's *Desencuentros de la modernidad en America Latina por el siglo XIX* has been recognized as one of the most important studies of modernity in the western hemisphere. Available for the first time in English—and now published with new material—Ramos's study not only offers an analysis of the complex relationships between history, literature, and nation-building in the modern Latin American context but also takes crucial steps toward the development of a truly comparative inter-American cultural criticism. With his focus on the nineteenth century, Ramos begins his genealogy of an emerging Latin Americanism with an examination of Argentinean Domingo Sarmiento and Chilean Andrés Bello, representing the “enlightened letrados” of tradition. In contrast to these “lettered men,” he turns to Cuban journalist, revolutionary, and poet José Martí, who, Ramos suggests, inaugurated a new kind of intellectual subject for the Americas. Though tracing Latin American modernity in general, it is the analysis of Martí—particularly his work in the United States—that becomes the focal point of Ramos's study. Martí's confrontation with the unequal modernization of the New World, the dependent status of Latin America, and the contrast between Latin America's culture of elites and the northern mass culture of commodification are, for Ramos, key elements in understanding the complex Latin American experience of modernity. Including two new chapters written for this edition, as well as translations of three of Martí's most important works, *Divergent Modernities* will be indispensable for anyone seeking to understand development and modernity across the Americas.

Understanding Crime Trends National Research Council,Division of Behavioral and Social Sciences and Education,Committee on Law and Justice,Committee on Understanding Crime Trends,2009-01-05 Changes over time in the levels and patterns of crime have significant consequences that affect not only the criminal justice system but also other critical policy sectors. Yet compared with such areas as health status, housing, and employment, the nation lacks timely information and comprehensive research on crime trends. Descriptive information and explanatory research on crime trends across the nation that are not only accurate, but also timely, are pressing needs in the nation's crime-control efforts. In April 2007, the National Research Council held a two-day workshop to address key substantive and methodological issues underlying the study of crime trends and to lay the groundwork for a proposed multiyear NRC panel study of these issues. Six papers were commissioned from leading researchers and discussed at the workshop by experts in sociology, criminology, law, economics, and statistics. The authors revised their papers based on the discussants' comments, and the papers were then reviewed again externally. The six final workshop papers are the basis of this volume, which represents some of the most serious thinking and research on crime trends currently available.

Easternisation Gideon Rachman,2016-08-04 'A masterly account...the best survey of global affairs I have read for some time' Sunday Times WITH A NEW PREFACE BY THE

AUTHOR The West's domination of world politics is coming to a close. The flow of wealth and power is turning from West to East and a new era of global instability has begun. Easternisation is the defining trend of our age – the growing wealth of Asian nations is transforming the international balance of power. This shift to the East is shaping the lives of people all over the world, the fate of nations and the great questions of war and peace. A troubled but rising China is now challenging America's supremacy, and the ambitions of other Asian powers – including Japan, North Korea, India and Pakistan – have the potential to shake the whole world. Meanwhile the West is struggling with economic malaise and political populism, the Arab world is in turmoil and Russia longs to reclaim its status as a great power. We are at a turning point in history: but Easternisation has many decades to run. Gideon Rachman offers a road map to the turbulent process that will define the international politics of the twenty-first century.

The Recovering Leslie Jamison, 2018-04-03 From the New York Times bestselling author of *The Empathy Exams* comes this transformative work showing that sometimes the recovery is more gripping than the addiction. With its deeply personal and seamless blend of memoir, cultural history, literary criticism, and reportage, *The Recovering* turns our understanding of the traditional addiction narrative on its head, demonstrating that the story of recovery can be every bit as electrifying as the train wreck itself. Leslie Jamison deftly excavates the stories we tell about addiction -- both her own and others' -- and examines what we want these stories to do and what happens when they fail us. All the while, she offers a fascinating look at the larger history of the recovery movement, and at the complicated bearing that race and class have on our understanding of who is criminal and who is ill. At the heart of the book is Jamison's ongoing conversation with literary and artistic geniuses whose lives and works were shaped by alcoholism and substance dependence, including John Berryman, Jean Rhys, Billie Holiday, Raymond Carver, Denis Johnson, and David Foster Wallace, as well as brilliant lesser-known figures such as George Cain, lost to obscurity but newly illuminated here. Through its unvarnished relation of Jamison's own ordeals, *The Recovering* also becomes a book about a different kind of dependency: the way our desires can make us all, as she puts it, broken spigots of need. It's about the particular loneliness of the human experience--the craving for love that both devours us and shapes who we are. For her striking language and piercing observations, Jamison has been compared to such iconic writers as Joan Didion and Susan Sontag, yet her utterly singular voice also offers something new. With enormous empathy and wisdom, Jamison has given us nothing less than the story of addiction and recovery in America writ large, a definitive and revelatory account that will resonate for years to come.

A Moral Reckoning Daniel Jonah Goldhagen, 2007-12-18 With his first book, *Hitler's Willing Executioners*, Daniel Jonah Goldhagen dramatically revised our understanding of the role ordinary Germans played in the Holocaust. Now he brings his formidable powers of research and argument to bear on the Catholic Church and its complicity in the destruction of European Jewry. What emerges is a work that goes far beyond the familiar inquiries—most of which focus solely on Pope Pius XII—to address an entire history of hatred and persecution that culminated, in some cases, in an active participation in mass-murder. More than a chronicle, *A Moral Reckoning* is also an assessment of culpability and a bold attempt at defining what actions the Church must take to repair the harm it did to Jews—and to repair itself. Impressive in its scholarship, rigorous in its ethical focus, the result is a book of lasting importance.

Principles of Politics Applicable to All Governments Benjamin Constant, 2003 Benjamin Constant (1767-1830) was born in Switzerland and became one of France's leading writers, as well as a journalist, philosopher, and politician. His colourful life included a formative stay at the University of Edinburgh; service at the court of Brunswick, Germany; election to the French Tribunate; and initial opposition and subsequent support for Napoleon, even the drafting of a constitution for the Hundred

Days. Constant wrote many books, essays, and pamphlets. His deepest conviction was that reform is hugely superior to revolution, both morally and politically. While Constant's fluid, dynamic style and lofty eloquence do not always make for easy reading, his text forms a coherent whole, and in his translation Dennis O'Keefe has focused on retaining the 'general elegance and subtle rhetoric' of the original. Sir Isaiah Berlin called Constant 'the most eloquent of all defenders of freedom and privacy' and believed to him we owe the notion of 'negative liberty', that is, what Bianca Maria Fontana describes as the protection of individual experience and choices from external interferences and constraints. To Constant it was relatively unimportant whether liberty was ultimately grounded in religion or metaphysics -- what mattered were the practical guarantees of practical freedom -- autonomy in all those aspects of life that could cause no harm to others or to society as a whole. This translation is based on Etienne Hofmann's critical edition of *Principes de politique* (1980), complete with Constant's additions to the original work.
