The New Americans Mary C. Waters,Reed Ueda,Helen B. Marrow,2007-01-30 Listen to a short interview with Mary WatersHost: Chris Gondek | Producer: Heron & Crane Salsa has replaced ketchup as the most popular condiment. A mosque has been erected around the corner. The local hospital is staffed by Indian doctors and Philippine nurses, and the local grocery store is owned by a Korean family. A single elementary school may include students who speak dozens of different languages at home. This is a snapshot of America at the turn of the twenty-first century. The United States has always been a nation of immigrants, shaped by successive waves of new arrivals. The most recent transformation began when immigration laws and policies changed significantly in 1965, admitting migrants from around the globe in new numbers and with widely varying backgrounds and aspirations. This comprehensive guide, edited and written by an interdisciplinary group of prominent scholars, provides an authoritative account of the most recent surge of immigrants. Twenty thematic essays address such topics as immigration law and policy, refugees, unauthorized migrants, racial and ethnic identity, assimilation, nationalization, economy, politics, religion, education, and family relations. These are followed by comprehensive articles on immigration from the thirty most significant nations or regions of origin. Based on the latest U.S. Census data and the most recent scholarly research, *The New Americans* is an essential reference for students, scholars, and anyone curious about the changing face of America.

The Thousand Autumns of Jacob de Zoet David Mitchell,2010-06-29 By the New York Times bestselling author of *The Bone Clocks* and *Cloud Atlas* | Longlisted for the Man Booker Prize In 2007, *Time* magazine named him one of the most influential novelists in the world. He has twice been short-listed for the Man Booker Prize. The New York Times Book Review called him simply “a genius.” Now David Mitchell lends fresh credence to The Guardian’s claim that “each of his books seems entirely different from that which preceded it.” *The Thousand Autumns of Jacob de Zoet* is a stunning departure for this brilliant, restless, and wildly ambitious author, a giant leap forward by even his own high standards. A bold and epic novel of a rarely visited point in history, it is a work as exquisitely rendered as it is irresistibly readable. The year is 1799, the place Dejima in Nagasaki Harbor, the “high-walled, fan-shaped artificial island” that is the Japanese Empire’s single port and sole window onto the world, designed to keep the West at bay; the farthest outpost of the war-ravaged Dutch East Indies Company; and a de facto prison for the dozen foreigners permitted to live and work there. To this place of devious merchants, deceitful interpreters, costly courtesans, earthquakes, and typhoons comes Jacob de Zoet, a devout and resourceful young clerk who has five years in the East to earn a fortune of sufficient size to win the hand of his wealthy fiancée back in Holland. But Jacob’s original intentions are eclipsed after a chance encounter with Orito Aibagawa, the disfigured daughter of a samurai doctor and midwife to the city’s powerful magistrate. The borders between propriety, profit, and pleasure blur until Jacob finds his vision clouded, one rash promise made and then fatefully broken. The consequences will extend beyond Jacob’s worst imaginings. As one cynical colleague asks, “Who ain’t a gambler in the glorious Orient, with his very life?” A magnificent mix of luminous writing, prodigious research, and heedless imagination, *The Thousand Autumns of Jacob de Zoet* is the most impressive achievement of its eminent author. Praise for *The Thousand Autumns of Jacob de Zoet* “A page-turner . . . [David] Mitchell’s masterpiece; and also, I am convinced, a masterpiece of our time.”—Richard Eder, *The Boston Globe* “An achingly romantic story of forbidden love . . . Mitchell’s incredible prose is on stunning display. . . . A novel of ideas, of longing, of good and evil and those who fall somewhere in between [that] confirms Mitchell as one of the more fascinating and fearless writers alive.”—Dave Eggers, *The New York Times Book Review* “The novelist who’s been showing us the future of fiction has published a classic, old-fashioned tale . . . an epic of sacrificial love, clashing civilizations and enemies who won’t rest until whole family lines have been snuffed out.”—Ron Charles, *The Washington Post* “By any standards, *The Thousand Autumns of Jacob de Zoet* is a formidable marvel.”—James Wood, *The New Yorker* “A beautiful novel, full of life and authenticity, atmosphere and characters that breathe.”—Maureen Corrigan, NPR

The Mushroom at the End of the World Anna Lowenhaupt Tsing,2021-06-08 A tale of diversity within our damaged landscapes, *The Mushroom at the End of the World* follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism. Here, we witness the varied and peculiar worlds of matsutake commerce: the worlds of Japanese gourmets, capitalist traders, Hmong jungle fighters, industrial forests, Yi Chinese goat herders, Finnish nature guides, and more. These companions also lead us into fungal ecologies and forest histories to better understand the promise of cohabitation in a time of massive human destruction.-- Publisher's description.

The Inn Business Canada. Office of Tourism,1982

Number9Dream David Mitchell,2007-12-18 By the New York Times bestselling author of *The Bone Clocks* and *Cloud Atlas* | Shortlisted for the Man Booker Prize “A novel as accomplished as anything being written.”—*Newsweek* *Number9Dream* is the international literary sensation from a writer with astonishing range and imaginative energy—an intoxicating ride through Tokyo’s dark underworlds and the even more mysterious landscapes of our collective dreams. David Mitchell follows his eerily precocious, globe-striding first novel, *Ghostwritten*, with a work that is in its way even more ambitious. In outward form, *Number9Dream* is a Dickensian coming-of-age journey: Young dreamer Eiji Miyake, from remote rural Japan, thrust out on his own by his sister’s death and his mother’s breakdown, comes to Tokyo in pursuit of the father who abandoned him. Stumbling around this strange, awesome city, he trips over and crosses—through a hidden destiny or just monstrously bad luck—a number of its secret power centers. Suddenly, the riddle of his father’s identity becomes just one of the increasingly urgent questions Eiji must answer. Why is the line between the world of his experiences and the world of his dreams so blurry? Why do so many horrible things keep happening to him? What is it about the number 9? To answer these questions, and ultimately to come to terms with his inheritance, Eiji must somehow acquire an insight into the workings of history and fate that would be rare in anyone, much less in a boy from out of town with a price on his head and less than the cost of a Beatles disc to his name. Praise for *Number9Dream* “Delirious—a grand blur of overwhelming sensation.”—*Entertainment Weekly* “To call Mitchell’s book a simple quest novel . . . is like calling Don DeLillo’s *Underworld* the story of a missing baseball.”—*The New York Times Book Review* “*Number9Dream*, with its propulsive energy, its Joycean eruption of language and playfulness, represents further confirmation that David Mitchell should be counted among the top young novelists working today.”—*San Francisco Chronicle* “Mitchell’s new novel has been described as a cross between Don DeLillo and William Gibson, and although that’s a perfectly serviceable cocktail-party formula, it doesn’t do justice to this odd, fitfully compelling work.”—*The New Yorker* “Leaping with ease from surrealist fables to a teenage coming-of-age story and then spinning back to Yakuza gangster battles and World War II-era kamikaze diaries, Mitchell is an aerial freestyle ski-jumper of fiction. Somehow, after performing feats of literary gymnastics, he manages to stick the landing.”—*The Seattle Post-Intelligencer*

High-Speed Rail and Sustainability Blas Luis Pérez Henríquez,Elizabeth Deakin,2017-01-06 High speed rail (HSR) is being touted as a strategic investment for connecting people across regions, while also fostering prosperity and smart urban growth. However, as its popularity increases, its implementation has become contentious with various parties contesting the validity of socioeconomic and environmental objectives put forward as justification for investment. *High Speed Rail and Sustainability* explores the environmental, economic and social effects of developing a HSR system, presenting new evaluations of the proposed system in California in the US as well as lessons from international experience. Drawing upon the accumulated experience from past HSR system development around the world, leading experts present a diverse set of perspectives as well as diverse contexts of

implementation. Assessments of the California case as well as cases from Japan, France, Germany, Italy, Spain, Taiwan, China, and the UK show how governments and stakeholders have bridged the gap between the vision and the realities of connecting metropolitan regions through HSR. This is a valuable resource for academics, researchers and policy-makers in the areas of urban planning, civil engineering, transportation and environmental design.

Ralph Gibson ,2014

The Paper Museum Kate S. Simpson,2022-11-01 In a world where paper is obsolete and magic is all but forgotten, Lydia has moved into the Paper Museum with her Uncle Lem following the disappearance of her parents. Convinced the key to finding them lies in the museum's book collection, Lydia spends her days digitally scanning her way through the museum's library. But when Uncle Lem is called away and her Uncle Renald is put in charge of the museum, Lydia's scanning project comes to an abrupt halt. Uncle Renald takes her aer reader—the personal device that everybody uses for reading, shopping, messaging, and more—but not before Lydia makes a desperate attempt at filing a missing persons report for her parents. The report activates a countdown, and now with nothing but a secret typewriter in her dogwood fort and a cryptic message, Lydia has thirty days to find her parents and stop the mayor from commandeering the museum. Otherwise, both her family home and the Paper Museum itself will be reassigned to someone else. With aer readers on the fritz and the town descending into chaos, Lydia needs to find her parents before the Paper Museum—and her parents—are lost for good. The Paper Museum is a story of family and friendship with a hint of magic.

Walking the Kiso Road William Scott Wilson,2015-10-13 Step back into old Japan with this fascinating travelogue of the famous Kiso Road, an ancient route used by samurai and warlords The Kisoji, which runs through the Kiso Valley in the Japanese Alps, has been in use since at least 701 C.E. In the seventeenth century, it was the route that the daimyo (warlords) used for their biennial trips—along with their samurai and porters—to the new capital of Edo (now Tokyo). The natural beauty of the route is renowned—and famously inspired the landscapes of Hiroshige, as well as the work of many other artists and writers. William Scott Wilson, esteemed translator of samurai philosophy, has walked the road several times and is a delightful and expert guide to this popular tourist destination; he shares its rich history and lore, literary and artistic significance, cuisine and architecture, as well as his own experiences.

Bioinspired Actuators and Sensors Minoru Taya,Makoto Mizunami,Elizabeth Van Volkenburgh,Sh-hei Nomura,2016-10-13 From experts in engineering and biology, this is the first book to integrate sensor and actuator technology with bioinspired design.

Photography in Japan 1853-1912 Terry Bennett,2012-07-03 Photography in Japan 1853-1912 is a fascinating visual record of Japanese culture during its metamorphosis from a feudal society to a modern, industrial nation at a time when the art of photography was still in its infancy. The 350 rare and antique photos in this book, most of them published here for the first time, chronicle the introduction of photography in Japan and early Japanese photography. The images are more than just a history of photography in Japan; they are vital in helping to understand the dramatic changes that occurred in Japan during the mid-nineteenth century. These rare Japanese photographs—whether sensational or everyday, intimate or panoramic—document a nation about to abandon its traditional ways and enter the modern era. Taken between 1853 and 1912 by the most important Japanese and foreign photographers working in Japan, this is the first book to document the history of early photography in Japan a comprehensive and systematic way.

Dynamic Interaction of Train-Bridge Systems in High-Speed Railways He Xia,Nan Zhang,Weiwei Guo,2017-10-27 This book presents both the fundamental theory and numerical calculations and field experiments used in a range of practical engineering projects. It not only provides theoretical formulations and various solutions, but also offers concrete methods to extend the life of existing bridge structures and presents a guide to the rational design of new bridges, such as high-speed railway bridges and long-span bridges. Further, it offers a reference resource for solving vehicle-structure dynamic interaction problems in the research on and design of all types of highways, railways and other transport structures.

Culture, Mind, and Brain Laurence J. Kirmayer,Carol M. Worthman,Shinobu Kitayama,Robert Lemelson,Constance A. Cummings,2020-09-24 Recent neuroscience research makes it clear that human biology is cultural biology - we develop and live our lives in socially constructed worlds that vary widely in their structure values, and institutions. This integrative volume brings together interdisciplinary perspectives from the human, social, and biological sciences to explore culture, mind, and brain interactions and their impact on personal and societal issues. Contributors provide a fresh look at emerging concepts, models, and applications of the co-constitution of culture, mind, and brain. Chapters survey the latest theoretical and methodological insights alongside the challenges in this area, and describe how these new ideas are being applied in the sciences, humanities, arts, mental health, and everyday life. Readers will gain new appreciation of the ways in which our unique biology and cultural diversity shape behavior and experience, and our ongoing adaptation to a constantly changing world.

Masters of Craft Richard E. Ocejo,2018-11-13 In today's new economy—in which “good” jobs are typically knowledge or technology based—many well-educated and culturally savvy young people are instead choosing to pursue traditionally low-status manual labor occupations as careers. Masters of Craft looks at the renaissance of four such trades: bartending, distilling, barbering, and butchering. In this engaging book, Richard Ocejo takes you into the lives and workplaces of these people to examine how they are transforming once-undesirable jobs into “cool” and highly specialized upscale occupations. He shows how they find meaning in these jobs by enacting a set of “cultural repertoires,” resulting in a new form of elite taste-making. Focusing on cocktail bartenders, craft distillers, upscale men's barbers, and whole-animal butcher shop workers in Manhattan, Brooklyn, and upstate New York, Masters of Craft provides new insights into the stratification of taste, the spread of gentrification, and the evolving labor market in today's postindustrial city.

Japanese Plays and Playfellows Osman Edwards,1901

Fairy Tail: 100 Years Quest 4 Hiro Mashima,2020-06-02 Has FAIRY TAIL been taken down by the White Mage?! An urgent message arrives from Juvia to Natsu and the rest of the gang, who already have their hands full with a town that turns out to be the work of the Wood Dragon God Alderan. Now pulled between the capture of their fellow FAIRY TAIL compatriots and their encounter with one of the five great dragon gods, they must wrestle with two difficult questions: Do they turn back on their hard-fought journey? And what is the White Mage really after...?

Hot, Cold, Heavy, Light, 100 Art Writings 1988-2018 Peter Schjeldahl,2019-06-04 Hot Cold Heavy Light collects 100 writings—some long, some short—that taken together forma group portrait of many of the world's most significant and interesting artists. From Pablo Picasso to Cindy Sherman, Old Masters to contemporary masters, paintings to comix, and saints to charlatans, Schjeldahl ranges widely through the diverse and confusing art world, an expert guide to a dazzling scene. No other writer enhances the reader's experience of art in precise, jargon-free prose as Schjeldahl does. His reviews are more essay than criticism, and he offers engaging and informative accounts of artists and their work. For more than three decades, he has written about art with Emersonian openness and clarity. A fresh perspective, an unexpected connection, a lucid gloss on a big idea awaits the reader on every page of this big, absorbing, buzzing book.
