They Never Learn Layne Fargo, 2021-04-20 Two women ... give bad men exactly what they deserve-- one an English professor/serial killer who murders the most evil man she knows each year, and the other a lost college freshman seeking vengeance after her best friend is sexually assaulted at a party--

Gumoil Photographic Printing, Revised Edition Karl Koenig, 1999-06-28 There is renewed interest among art photographers in a number of historic printing techniques because of the remarkable effects they produce. The reader will discover how to create beautifully tinted mono- and polychromatic gum and oil images using the author's version of this 19th century technique. Step-by-step illustrated instructions with directions for further experimentation provide a perfect source for learning this new, yet old, printing technique. Gumoil printing involves contact-printing a positive transparency onto gum-coated paper. Oil paint is then applied and rubbed into nongummed areas of the print. With bleach etching, mono- and polychromatic variations are possible. A chapter on digital printing combines the new and the historic, making this technique even more accessible for the art photographer.

Judge Roy Bean Country Jack Skiles, 1996 A lively account of a harsh but beautiful landscape and the characters who have inhabited it. Learn the truth about Judge Roy Bean and a few other heroes and rogues.

Black Ivory R. M. Ballantyne, 2022-05-24 Black Ivory is a story about two English castaways that shockingly find themselves amidst a group of truly loathsome slave traders. Although the cast of this narrative is entirely fictional, the numerous footnotes and references evidence the real-life

basis of the story. A gut-wrenching tale of incredible suffering, despair and horror that will hold the reader tight in their seat. On the other hand it is also a tale of hope, love and a brighter future. A must read for those who set out to explore the darker side of our common world history. It brings to mind the critically acclaimed Ridley Scott movie 'Exodus: Gods and Kings' starring Christian Bale, Joel Edgerton, John Turturro and Aaron Paul. R. M. Ballantyne was a Scottish writer specialising in juvenile fiction. He was born into a family of well-known printers and publishers in Edinburgh. At age 16 he travelled to Canada where he served with the Hudson's Bay Company for six years. He returned to Scotland in 1847 and published his first book the next year, 'Hudson's Bay: or Life in the Wilds of North America'. For several years he was employed by the publishing house Messrs Constable. But in 1856 he decided to leave the literature business. Instead he began writing a series of adventure stories for young readers.

Essays on Fascism Benito Mussolini, Oswald Mosley, Alfredo Rocco, 2019-03-25 The Ideology of Fascism was written by Oswald Mosley in 1967 and provides a post WW2 analysis of the strengths and weaknesses of Fascism as a political doctrine, and utilising its strengths proposes a United Europe, in union with science, as a prime requirement for the 21st Century. The Doctrine of Fascism was written by Benito Mussolini and the Italian philosopher Giovanni Gentile. A key concept of

which was that fascism was a rejection of previous models: If the 19th century was the century of the individual we are free to believe that this is the 'collective' century, and therefore the century of the State. Giovanni Gentile was inspired by Italian intellectuals such as Mazzini, Rosmini, Gioberti, and Spaventa from whom he developed the idea of self-construction, but also was strongly influenced by the German idealist and materialist schools of thought - namely Marx, Hegel, Fichte, and Nietzsche. Gentile was described by Mussolini, as 'the philosopher of Fascism'. Alfredo Rocco developed the economic and political theory of corporatism which would become part of the Fascist Manifesto of the National Fascist Party. Rocco denounced the European powers for imposing foreign culture on Italy and criticized the European powers for endorsing too much liberalism and individualism. The Fascist Manifesto was endorsed by a large number of intellectuals, and writers, including Luigi Pirandello, Gabriele D'Annunzio, Filippo Tommaso Marinetti and Giuseppe Ungaretti.

Down to the Crossroads Aram

Goudsouzian, 2014-02-04 In 1962, James Meredith became a civil rights hero when he enrolled as the first African American student at the University of Mississippi. Four years later, he would make the news again when he reentered Mississippi, on foot. His plan was to walk from Memphis to Jackson, leading a March Against Fear that would promote black voter registration and defy the entrenched racism of the region. But on the march's second day, he was shot by a mysterious gunman, a moment captured in a harrowing and now iconic photograph. What followed was one of the central dramas of the civil rights era. With Meredith in the hospital, the leading figures of the civil rights movement flew to Mississippi to carry on his effort. They quickly found themselves confronting southern law enforcement officials,

local activists, and one another. In the span of only three weeks, Martin Luther King, Jr., narrowly escaped a vicious mob attack; protesters were teargassed by state police; Lyndon Johnson refused to intervene; and the charismatic young activist Stokely Carmichael first led the chant that would define a new kind of civil rights movement: Black Power. Aram Goudsouzian's *Down to the Crossroads* is the story of the last great march of the King era, and the first great showdown of the turbulent years that followed. Depicting rural demonstrators' courage and the impassioned debates among movement leaders, Goudsouzian reveals the legacy of an event that would both integrate African Americans into the political system and inspire even bolder protests against it. Full of drama and contemporary resonances, this book is civil rights history at its best.

Scientific American, 1876 Monthly magazine devoted to topics of general scientific interest.

The Black Jacobins C.L.R. James, 2023-08-22 A powerful and impassioned historical account of the largest successful revolt by enslaved people in history: the Haitian Revolution of 1791-1803 "One of the seminal texts about the history of slavery and abolition.... Provocative and empowering." —The New York Times Book Review *The Black Jacobins*, by Trinidadian historian C. L. R. James, was the first major analysis of the uprising that began in the wake of the storming of the Bastille in France and became the model for liberation movements from Africa to Cuba. It is the story of the French colony of San Domingo, a place where the brutality of plantation owners toward enslaved people was horrifyingly severe. And it is the story of a charismatic and barely literate enslaved person named Toussaint L'Ouverture, who successfully led the Black people of San Domingo against successive invasions by overwhelming

French, Spanish, and English forces—and in the process helped form the first independent post-colonial nation in the Caribbean. With a new introduction (2023) by Professor David Scott.

The Ivory Key Akshaya Raman, 2022-01-04 In this epic YA fantasy debut, magic, a prized resource, is the only thing between peace and war. When magic runs out, four estranged royal siblings must find a new source before their country is swallowed by invading forces. The first in an Indian-inspired duology that's perfect for fans of *There Will Come a Darkness*, *The Gilded Wolves*, and *We Hunt the Flame*. Vira, Ronak, Kaleb, and Riya may be siblings, but they've never been close or even liked each other that much. Torn apart by the different paths their lives have taken, only one thing can bring them back together: the search for the Ivory Key, a thing of legend that will lead the way to a new source of magic. Magic is Ashoka's biggest export and the only thing standing between them and war with the neighboring kingdoms—as long as their enemies don't find out that the magic mines are nearly depleted. The siblings all have something to gain from finding the Ivory Key, and even more to lose if they don't. For Vira, the Ivory Key is the only way to live up to the legacy of her mother, the beloved former maharani. Ronak plans to get out of his impending political marriage by selling the Ivory Key to the highest bidder. Kaleb has been falsely accused of assassinating the former maharani, and this is the only way to clear his name. And Riya needs to prove her loyalty to the Ravens, the group of rebels that wants to take control away from the maharani and give it to the people. With each sibling harboring secrets and conflicting agendas, figuring out a way to work together may be the most difficult task of all. And in a quest this dangerous, working together is the only way to survive.

Ivory Pearl Jean-Patrick Manchette, 2018-05-01
Set in Cuba's Sierra Maestra in the 1950s, in the days leading up to the Revolution--Manchette's unfinished masterpiece with a fearless female protagonist. Out of the wreckage of World War II swaggers Ivory Pearl, so named (rhymes with girl) by some British soldiers who made her their mascot, a mere kid, orphaned, survivor of God knows what, but fluent in French, English, smoking, and drinking. In Berlin, Ivy meets Samuel Farakhan, a rich closeted intelligence officer. Farakhan proposes to adopt her and help her to become the photographer she wants to be; his relationship to her will provide a certain cover for him. And she is an asset. The deal is struck... 1956: Ivy has seen every conflict the postwar world has on offer, from Vietnam to East Berlin, and has published her photographs in slick periodicals, but she is sick to death of death and bored with life and love. It's time for a break. Ivy heads to Cuba, the Sierra Maestra. History, however, doesn't take vacations. Ivory Pearl was Jean-Patrick Manchette's last book, representing a new turn in his writing. It was to be the first of a series of ambitious historical thrillers about the "wrong times" we live in. Though left unfinished when Manchette died, the book, whose full plot has been filled in here from the author's notes, is a masterpiece of bold suspense and black comedy: chilling, caustic, and perfectly choreographed.

The Battle of Versailles Robin Givhan, 2015-03-17
On November 28, 1973, the world's social elite gathered at the Palace of Versailles for an international fashion show. By the time the curtain came down on the evening's spectacle, history had been made and the industry had been forever transformed. This is that story. Conceived as a fund-raiser for the restoration of King Louis

XIV's palace, in the late fall of 1973, five top American designers faced off against five top French designers in an over-the-top runway extravaganza. An audience filled with celebrities and international jet-setters, including Princess Grace of Monaco, the Duchess of Windsor, Paloma Picasso, and Andy Warhol, were treated to an opulent performance featuring Liza Minnelli, Josephine Baker, and Rudolph Nureyev. What they saw would forever alter the history of fashion. The Americans at the Battle of Versailles—Oscar de la Renta, Bill Blass, Anne Klein, Halston, and Stephen Burrows—showed their work against the five French designers considered the best in the world—Yves Saint Laurent, Hubert de Givenchy, Pierre Cardin, Emanuel Ungaro, and Marc Bohan of Christian Dior. Plagued by in-fighting, outsized egos, shoestring budgets, and innumerable technical difficulties, the American contingent had little chance of meeting the European's exquisite and refined standards. But against all odds, the American energy and the domination by the fearless models (ten of whom, in a groundbreaking move, were African American) sent the audience reeling. By the end of the evening, the Americans had officially taken their place on the world's stage, prompting a major shift in the way race, gender, sexuality, and economics would be treated in fashion for decades to come. As the curtain came down on The Battle of Versailles, American fashion was born; no longer would the world look to Europe to determine the stylistic trends of the day, from here forward, American sensibility and taste would command the world's attention. Pulitzer-Prize winning fashion journalist Robin Givhan offers a lively and meticulously well-researched account of this unique event. The Battle of Versailles is a sharp, engaging cultural history; this intimate examination of a single moment shows us how the

world of fashion as we know it came to be.

What Video Games Have to Teach Us About Learning and Literacy. Second Edition James Paul

Gee,2014-12-02 James Paul Gee begins his classic book with I want to talk about video games--yes, even violent video games--and say some positive things about them. With this simple but explosive statement, one of America's most well-respected educators looks seriously at the good that can come from playing video games. In this revised edition of What Video Games Have to Teach Us About Learning and Literacy, new games like World of WarCraft and Half Life 2 are evaluated and theories of cognitive development are expanded. Gee looks at major cognitive activities including how individuals develop a sense of identity, how we grasp meaning, how we evaluate and follow a command, pick a role model, and perceive the world.

Solid Ivory James Ivory,2021-11-02 The irreverent, brilliant memoirs of the legendary filmmaker James Ivory In Solid Ivory, a carefully crafted mosaic of memories, portraits, and reflections, the Academy Award-winning filmmaker James Ivory, a partner in the legendary Merchant Ivory Productions and the director of A Room with a View, Howards End, Maurice, and The Remains of

the Day, tells stories from his remarkable life and career as one of the most influential directors of his time. At times, he touches on his love affairs, looking back coolly and with unexpected frankness. From first meeting his collaborator and life partner, Ismail Merchant, at the Indian Consulate in New York to winning an Academy Award at age eighty-nine for *Call Me by Your Name*; from seeing his first film at age five in Klamath Falls, Oregon, to memories of Satyajit Ray, Jean Renoir, *The New Yorker* magazine's film critic Pauline Kael (his longtime enemy), Vanessa Redgrave, J. D. Salinger, George Cukor, Kenneth Clark, Bruce Chatwin, Ruth Praver Jhabvala, and Merchant-Ivory writes with invariable fluency, wit, and perception about what made him who he is and how he made the movies for which he is known and loved. *Solid Ivory*, edited by Peter Cameron, is an utterly winning portrait of an extraordinary life told by an unmatched storyteller.

Stevens Pistols and Pocket Rifles Kenneth L. (Kenneth Lloyd) Cope, Museum Restoration Service, 1991

Duty Free Art Hito Steyerl, 2017-11-21 What is the function of art in the era of digital globalization? How can one think of art institutions in an age defined by planetary civil war, growing inequality, and proprietary digital technology? The boundaries of such institutions have grown fuzzy. They extend from a region where the audience is pumped for tweets to a future of "neurocurating," in which paintings surveil their audience via facial recognition and eye tracking to assess their popularity and to scan for suspicious activity. In *Duty Free Art*, filmmaker and writer Hito Steyerl wonders how we can appreciate, or even make art, in the present age. What can we do when arms manufacturers sponsor museums, and some of the world's most valuable artworks are used as currency in a global futures

market detached from productive work? Can we distinguish between information, fake news, and the digital white noise that bombards our everyday lives? Exploring subjects as diverse as video games, WikiLeaks files, the proliferation of freeports, and political actions, she exposes the paradoxes within globalization, political economies, visual culture, and the status of art production.
