New Expressions in Origami Art Meher McArthur, 2017-03-07 This origami art book features the work of 25 contemporary master folders who are among the most innovative origami artists working today. They are pushing the boundaries of origami vigorously in new directions in terms of style, scale, materials, subject and scope. This elite group includes: Joel Cooper Erik Demaine and Martin Demaine Paul Jackson Beth Johnson Michael G. LaFosse and Richard L. Alexander Robert J. Lang Linda Mihara Bernie Peyton Richard Sweeney And many more... The stunning photos and brilliant essays in this book demonstrate why origami is now an international art movement—largely through the efforts and artistic genius of a few contemporary masters. The trailblazing efforts of Japanese artist Akira Yoshizawa elevated the paper folding to an art form by showing how subtle shapes and figures could be created from a single sheet of paper through a variety of non-traditional folding techniques. Artists in other parts of the world—including the United States, France, England, China and Scandinavia—took Yoshizawa's cue and pushed these techniques further and further. The result has been the emergence of many new and surprising sculptural forms created through techniques such as wet folding, curved creasing, tessellating and the application of alternative materials besides paper.

The Frame in Classical Art Verity Platt, Michael Squire, 2017-04-20 The frames of classical art are often seen as marginal to the images that they surround. Traditional art history has tended to view framing devices as supplementary 'ornaments'. Likewise, classical archaeologists have often treated them as tools for taxonomic analysis. This book not only argues for the integral role of framing within Graeco-Roman art, but also explores

the relationship between the frames of classical antiquity and those of more modern art and aesthetics. Contributors combine close formal analysis with more theoretical approaches: chapters examine framing devices across multiple media (including vase and fresco painting, relief and free-standing sculpture, mosaics, manuscripts and inscriptions), structuring analysis around the themes of 'framing pictorial space', 'framing bodies', 'framing the sacred' and 'framing texts'. The result is a new cultural history of framing - one that probes the sophisticated and playful ways in which frames could support, delimit, shape and even interrogate the images contained within.

My Begging Chart Keiler Roberts, 2021-11-25 Keiler Roberts mines the passing moments of family life to deliver an affecting and funny account of what it means to simultaneously exist as a mother, daughter, wife, and artist. Drawn in an unassuming yet charming staccato that mimics the awkward rhythm of life, no one's foibles are left unspared, most often the author's own. When Roberts considers whether or not to dust the ceiling fan, it's effectively relevant. She can get lost in the rewarding melodrama of playing Barbies with her daughter and will momentarily snap out of her depression. Her harmless fibs to get through the moment are brought up by her daughter a year or two later, yet without hesitation Roberts will request that her daughter's imaginary friend not visit when she is around. Her MS diagnosis lingers in the background, never taking center stage. In *My Begging Chart*, her most encompassing work yet, Keiler meditates on routine and stillness. The vignettes of her everyday life exude immense presence, making her comics thoroughly relatable and reflective of our all-too-human lives as they unfold with humour, sadness, and relieving joy. In transporting these stories onto paper, Keiler observes, and at times relishes, a fleeting present.
