Our National Monuments Q. T. Luong, 2021-09-25 From the north woods of Maine to the cactus-filled deserts of Arizona, America's national monuments include vast lands rivaling the national parks in beauty, diversity, and historical heritage. These critically important landscapes, mostly under the Bureau of Land Management supervision, are often under the radar with limited visitor information available yet offer considerable opportunities for solitude and adventure compared to bustling national parks. The Antiquities Act of 1906 gave Presidents the authority to proclaim national monuments as an expedited way to protect areas of natural or cultural significance. Since then, 16 Presidents have used the Antiquities Act to preserve some of America's most treasured public lands and waters. In 2017, an unprecedented Executive Order was issued questioning these designations by calling for the review of 27 national monuments across 11 states and two oceans, opening the threat of development to vulnerable and irreplaceable natural resources. *Our National Monuments* introduces these spectacular and unique landscapes, in the first book of its kind. Accompanying the collection of scenic photographs is an invaluable guide including maps of each national monument with carefully selected attractions identified and described based on the author's wide-ranging explorations. *Our National Monuments* invites readers to experience for themselves these lands and learn about the people and cultures who came before, and to whom these lands are still sacred places. QT Luong is one of the most prolific photographers working in America's public lands and the author of *Treasured Lands*, the best-selling and acclaimed photography book about the national parks. Combining hundreds of his sumptuously printed photographs with essays from citizen conservation associations caring for these national treasures; including a foreword by former Secretary of the Interior Sally Jewell and photographs of marine national monuments from Ansel

Adams award-winning photographer Ian Shive, the comprehensive portrayals of Our National Monuments help readers understand how these essential landscapes are preserving America's past and shaping its future.

What Video Games Have to Teach Us About Learning and Literacy. Second Edition James Paul Gee,2014-12-02 James Paul Gee begins his classic book with I want to talk about video games--yes, even violent video games--and say some positive things about them. With this simple but explosive statement, one of America's most well-respected educators looks seriously at the good that can come from playing video games. In this revised edition of *What Video Games Have to Teach Us About Learning and Literacy*, new games like World of WarCraft and Half Life 2 are evaluated and theories of cognitive development are expanded. Gee looks at major cognitive activities including how individuals develop a sense of identity, how we grasp meaning, how we evaluate and follow a command, pick a role model, and perceive the world.

Trees Gregory McNamee,2018-11-20 Art Wolfe's immersive photos capture the wonder humans have felt about trees for millennia. From the biblical Tree of Life to the Native American Tree of Peace,

trees have played an archetypal role in human culture and spirituality since time immemorial. An integral part of a variety of faiths—from Buddhism and Hinduism to Native American and aboriginal religions—trees were venerated long before any written historical records existed. Through the vivid images of legendary photographer Art Wolfe, *Trees* focuses on both individual specimens and entire forests, and offers a sweeping yet intimate look at an arboreal world that spans six continents. Author Gregory McNamee weaves a diverse and global account of the myths, cultures, and traditions that convey the long-standing symbiosis between trees and humans, and renowned ethnobotanist Wade Davis anchors the text with a penetrating introduction. Humans have always shared this planet with trees, and *Trees* by Art Wolfe is a breathtaking journey through and homage to that relationship and its past, present, and future.

Night Film Marisha Pessl, 2013-08-20 On a damp October night, the body of young, beautiful Ashley Cordova is found in an abandoned warehouse in lower Manhattan. By all appearances her death is a suicide—but investigative journalist Scott McGrath suspects otherwise. Though much has been written about the dark and unsettling films of Ashley's father, Stanislas Cordova, very little is known about the man himself. As McGrath pieces together the mystery of Ashley's death, he is drawn deeper and deeper into the dark underbelly of New York City and the twisted world of Stanislas Cordova, and he begins to wonder—is he the next victim? In this novel, the dazzlingly inventive writer Marisha Pessl offers a breathtaking mystery that will hold you in suspense until the last page is turned.

The Fight Norman Mailer, 2013-10-15 In 1974 in Kinshasa, Zaïre, two African American boxers

were paid five million dollars apiece to fight each other. One was Muhammad Ali, the aging but irrepressible “professor of boxing.” The other was George Foreman, who was as taciturn as Ali was voluble. Observing them was Norman Mailer, a commentator of unparalleled energy, acumen, and audacity. Whether he is analyzing the fighters’ moves, interpreting their characters, or weighing their competing claims on the African and American souls, Mailer’s grasp of the titanic battle’s feints and stratagems—and his sensitivity to their deeper symbolism—makes this book a masterpiece of the literature of sport. Praise for *The Fight* “Exquisitely refined and attenuated . . . [a] sensitive portrait of an extraordinary athlete and man, and a pugilistic drama fully as exciting as the reality on which it is based.”—*The New York Times* “One of the defining texts of sports journalism. Not only does Mailer recall the violent combat with a scholar’s eye . . . he also makes the whole act of reporting seem as exciting as what’s occurring in the ring.”—*GQ* “Stylistically, Mailer was the greatest boxing writer of all time.”—Chuck Klosterman, *Esquire* “One of Mailer’s finest books.”—Louis Menand, *The New Yorker* Praise for Norman Mailer “[Norman Mailer] loomed over American letters longer and larger than any other writer of his generation.”—*The New York Times* “A writer of the greatest and most reckless talent.”—*The New Yorker* “Mailer is indispensable, an American treasure.”—*The Washington Post* “A devastatingly alive and original creative mind.”—*Life* “Mailer is fierce, courageous, and reckless and nearly everything he writes has sections of headlong brilliance.”—*The New York Review of Books* “The largest mind and imagination [in modern] American literature . . . Unlike just about every American writer since Henry James, Mailer has managed to grow and become richer in wisdom with each new book.”—*Chicago Tribune* “Mailer is a master of his craft. His language carries you through the story like a leaf on a stream.”—*The Cincinnati Post*
